President,1961 **Department of State Publication** ,1959 **Group Therapy for Adults with Severe Mental Illness** Diana Semmelhack,Larry Ende,Clive Hazell,2013-02-11 Mental illness is prevalent in society with a quarter of individuals having a diagnosable mental illness A growing percentage of these individuals develop severe disorders which incapacitate them and may leave them unemployed lonely isolated and untreated In recent years there has been a movement away from therapy and a heightened emphasis on medicalization This book argues that medication alone does not take away the deep emotional pain of feeling isolated and lonely and considers the modification of the client s social relationships as a critical ingredient in any treatment Group Therapy for Adults with Severe Mental Illness explores a non traditional application of treatment known as the group as a whole model This approach to group work derives from the Tavistock tradition in which emphasis on the whole group versus any specific member makes the group a safe place to risk sharing and confronting painful issues This text highlights the efficacy of utilizing this model in the treatment of severely mentally ill consumers in various settings including jails nursing homes and group homes Included in the book case studies using the Tavistock method the power of group as a whole work in educating mental health professionals and graduate students the use of the model to enhance creative expression in the arts the use of the model to understand larger social systems This text will be of value to mental health professionals researchers and educators interested in the treatment of severely mentally ill populations in institutional settings and individuals with a specific interest in group psychotherapy **Immigration and Nationalism** Carl Solberg,2014-11-06 Dirtier than the dogs of Constantinople Waves of human scum thrown upon our beaches by other countries Such was the vitriolic abuse directed against immigrant groups in Chile and Argentina early in the twentieth century Yet only twenty five years earlier immigrants had encountered a warm welcome This dramatic change in attitudes during the quarter century preceding World War I is the subject of Carl Solberg s study He examines in detail the responses of native born writers and politicians to immigration pointing out both the similarities and the significant differences between the situations in Argentina and Chile As attitudes toward immigration

became increasingly nationalistic the European was no longer pictured as a thrifty industrious farmer or as an intellectual of superior taste and learning Instead the newcomer commonly was regarded as a subversive element out to destroy traditional creole social and cultural values Cultural phenomena as diverse as the emergence of the tango and the supposed corruption of the Spanish language were attributed to the demoralizing effects of immigration Drawing his material primarily from writers of the pre World War I period Solberg documents the rise of certain forms of nationalism in Argentina and Chile by examining the contemporary press journals literature and drama The conclusions that emerge from this study also have obvious application to the situation in other countries struggling with the problems of assimilating minority groups

Renovating Russia Daniel Beer,2018-07-05 Renovating Russia is a richly comparative investigation of late Imperial and early Soviet medico scientific theories of moral and social disorder Daniel Beer argues that in the late Imperial years liberal psychiatrists psychologists and criminologists grappled with an intractable dilemma They sought to renovate Russia to forge a modern enlightened society governed by the rule of law but they feared the backwardness irrationality and violent potential

of the Russian masses Situating their studies of degeneration crime mental illness and crowd psychology in a pan European context Beer shows how liberals fears of societal catastrophe were only heightened by the effects of industrial modernization and the rise of mass politics In the wake of the orgy of violence that swept the Empire in the 1905 Revolution these intellectual elites increasingly put their faith in coercive programs of scientific social engineering Their theories survived liberalism s political defeat in 1917 and meshed with the Bolsheviks radical project for social transformation They came to sanction the application of violent transformative measures against entire classes culminating in the waves of state repression that accompanied forced industrialization and collectivization Renovating Russia thus offers a powerful revisionist challenge to established views of the fate of liberalism in the Russian Revolution
