The Enabling State Neil Gilbert, Barbara Gilbert, 1989-10-19 Over the last two decades new arrangements have emerged for the finance and delivery of social welfare in the United States and other industrial democracies Moving beyond the conventional paradigm of the welfare state these arrangements form an alternative model This study details a fresh vision of social welfare transfers how they are delivered and whom they benefit The authors explore the use of private enterprise and market oriented approaches to the delivery of social provisions and examine how welfare benefits are derived from the full range of modern social transfers including tax expenditures credit subsidies and those induced by regulatory activity Reappraising the modern boundaries of social welfare this book provides insights into the structure and dynamics of a novel social model that will open new avenues for scientific study and public debate *Manpower for the Human Services* Illinois. poverty and work how U S and French models of income support have been transformed in recent times the relative impacts of economic growth and policy reforms on rates of welfare participation and what happens to recipients who leave the welfare rolls Welfare Reform will help researchers and policymakers gain perspective on where they are headed and how best to get there as they journey down the highway of welfare reform Neil Gilbert is Chernin Professor of Social Welfare at the School of Social Welfare University of California at Berkeley and co director of the Center for Child and Youth Policy CCYP His numerous publications include 25 books and over 100 articles that have appeared in The Public Interest Society Commentary and other leading academic journals Antoine Parent is associate professor of economics at the University of Paris 8 associate researcher at MATISSE University of Paris 1 Sorbonne and research program manager at the Research Division of the French Ministry of Social Affairs Public Management Sources United States.
