Social Factors in Economic Development: the Argentine Case Tomás Roberto Fillol, 1963 Social factors in economic development , 1975 Argentina's Foreign Policy Edward S Milenky, 2019-06-03 The crises of industrialization and nation building have produced varying foreign policies and associated domestic images in Argentina Classic liberals see the country as a Western European society whose difficulties will be resolved through fuller and more effective participation in world affairs Statist nationalists see a dependent developing Sociology of the Blue-Collar Worker Dufty, 2022-09-12 Reversal of Development in Argentina Carlos Horacio Waisman, 2014-07-14 Carlos Waisman has pinpointed the specific beliefs that led the Peronists unwittingly to transform their country from a relatively prosperous land of recent settlement like Australia and Canada to an impoverished and underdeveloped society resembling the rest of Latin America Originally published in 1987 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Parties, Elections, and Political Participation in Latin America** Jorge I Dominguez, 2014-02-04 First Published in 1994 This is Volume five of seven of a collection of essays that gathers together scholarly debates from the 1950s to the 1990s on Mexico Central and South America This text looks at topics such as government parties in Latin America the Mexican elections of 1958 political campaigning the scope of the Chilean Party systems the case of Peronism and electoral change amongst others Organizations Alike and Unlike (RLE: Organizations) Cornelis Lammers, David Hickson, 2013-08-21 This volume contrasts the life and problems of organizations in many parts of the world and highlights the differences between those societies as reflected in their different institutional sectors such as manufacturing commerce social services and government administration In so doing the book contributes to the theoretical foundations of the sociology of organizations by revealing previously unseen relationships between societies and institutions offering an original synthesis of available research **Latin America: The countries of Latin America** , 1968 *Latin America, a Selected Functional and Country Bibliography: The countries of Latin America* , 1968 *Peronism Without Perón* James W. McGuire, 1999-02-01 Peronism the Argentine political movement created by Juan Perón in the 1940 s has revolved since its inception around a personalistic leader a set of powerful trade unions and a weakly institutionalized political party This book examines why Peronism continued to be weakly institutionalized as a party after Perón was overthrown in 1955 and argues that this weakness has impeded the consolidation of Argentine democracy Within an analysis of Peronism from 1943 to 1995 the author pays special attention to the 1962-66 and 1984-88 periods when some Peronist politicians and union leaders tried but failed to strengthen the party structure By identifying the forces that led to these efforts of party building

and by analyzing the counterforces that thwarted them he shows how these failures have shaped Argentina's experience with democracy. Drawing on this interpretation of Peronism and its place in Argentine politics, the book develops a distributive conflict political party explanation for Argentina's democratic instability and contrasts it to alternatives that stress economic dependency, populist economic policies, political culture, and military interventionism. **A Study of the Effects of Public Investment** Consad Research Corporation, 1969

The Soul of Development Amy L. Sherman, 1997-05-01

Ever since Max Weber started an argument about the role of Protestantism in jump starting northern Europe's economic development, scholars have clashed over the influence of religion and culture on a society's or an individual's economic prospects. Today many wonder whether the explosion of Protestantism in Latin America will effect a similar wave of growth and democratization. In this book, Sherman compiles the results of her field study and national survey of 1000 rural Guatemalan households. She offers persuasive evidence that in Guatemala and throughout the region, religious world views significantly influence economic life. Sherman explains how the change in attitude and behavior that accompanies conversion from animism to a Biblically orthodox world view has improved the domestic welfare and economic status of many families. Further, she asserts that this new attitude sympathetic to democratic capitalism has created a moral cultural soil in which freedom, personal empowerment, an enhanced status for women, and a desire to get ahead can be nurtured.

Parenting: Selected Writings of Marc H. Bornstein Marc H. Bornstein, 2022-04-11

In the World Library of Psychologists series, international experts present career-long collections of what they judge to be their most interesting publications, extracts from books, key articles, research findings, and practical and theoretical contributions. Marc H. Bornstein has published widely in experimental, methodological, comparative, developmental, and cultural science, as well as neuroscience, pediatrics, and aesthetics. In this volume, he has collected an integrated series of his papers on parenting. Many disciplines over many centuries have expounded on parenting, but theory and opinion have prevailed. Bornstein initiated efforts to make parenting an evidence-based field of study through his journal *Parenting Science and Practice*, the *Handbook of Parenting*, and two monograph series: *Monographs in Parenting* and *Studies in Parenting*. In addition, Bornstein has undertaken empirical studies that address the determinants, nature, scope, and consequences of parenting. The writings selected for this collection symbolize the development of an empirical parenting science and the meaning and importance of parenting for the lives and well-being of children, parents, and society. Including a specially written introduction in which Marc Bornstein reflects on the importance of parenting and contextualizes both the field and

the evolution of his wide ranging career this collection will serve as a valuable resource for students and researchers of parenting developmental science and all disciplines from anthropology to zoology concerned with nurturing socializing and educating the next generation **Entrepreneurship in Training** Michael A.
