Social Feminism

Steven M. Buechler

Social Feminism:

Social Feminism Naomi Black, 2019-05-15 In light of the history of three influential women's organizations in the United States England and France Naomi Black offers a provocative new interpretation of feminism She perceives two inherently different types of feminist thought equity feminism which incorporates women into existing male dominated ideologies such as liberalism Marxism and socialism and the less familiar social feminism which emphasizes women's distinctive experiences and values Examining the development of organizations previously considered traditional and nonpolitical the League of Women Voters the Women's Co-operative Guild and the Union féminine civique et sociale Black concludes that the social feminism which characterizes these groups is a genuinely radical approach to social change Handbook on Women in Business and Management D. Bilimoria, 2007 This very impressive Handbook takes established research topics about women in management and treats them in fresh and novel ways The chapters are intellectually interesting sound and provocative and meet the editors aspiration to stimulate high quality research on women's experiences in work organizations I recommend it highly Jean M Bartunek Boston College US This comprehensive Handbook presents specially commissioned original essays on the societal roles and contexts facing women in business and management the specific career and work life issues of women in these fields organizational processes affecting women and the role of women as leaders in business and management The essays shed light on the extant structures and practices of society and organizations that constrain or facilitate women's representation treatment quality of life and success Despite decades of ongoing inquiry and increasing interest research on women in business and management remains a specialized field without mainstream acceptance within business and management disciplines The Handbook presents the current state of knowledge about women in business and management and specifies the directions for future research likely to be most constructive for advancing the representation treatment quality of life and success of women who work in these fields It provides the foundations for improved societal and organizational structures policies and relational practices affecting all in business and management Thus by enhancing the knowledge base that improves the work and life situations of women it suggests ways to elevate the societal and organizational systems for all The Handbook will be an essential reference source for recent advances in research and theory informing both scholars of organization studies gender diversity and feminism human resource specialists and educators of and consultants to business organizations and management Ladina Social Activism in Guatemala City, 1871-1954 Patricia Harms, 2020-05-01 In this groundbreaking new study on ladinas in Guatemala City Patricia Harms contests the virtual erasure of women from the country's national memory and its historical consciousness Harms focuses on Spanish speaking women during the revolutionary decade and the liberalism periods revealing a complex significant and palpable feminist movement that emerged in Guatemala during the 1870s and remained until 1954 During this era ladina social activists not only struggled to imagine a place for themselves within the political and social constructs of modern Guatemala but they also

wrestled with ways in which to critique and identify Guatemala's gendered structures within the context of repressive dictatorial political regimes and entrenched patriarchy Harms's study of these women and their struggles fills a sizeable gap in the growing body of literature on women's suffrage social movements and political culture in modern Latin America It is a valuable addition to students and scholars studying the rich history of the region

Feminism's Forgotten Fight Kirsten Swinth, 2018-11-05 A spirited defense of feminism arguing that the lack of support for working mothers is less a failure of second wave feminism than a rejection by reactionaries of the sweeping changes they campaigned for When people discuss feminism they often lament its failure to deliver on the promise that women can have it all But as Kirsten Swinth argues in this provocative book it is not feminism that has betrayed women but a society that balked at making the far reaching changes for which activists fought *Feminism's Forgotten Fight* resurrects the comprehensive vision of feminism's second wave at a time when its principles are under renewed attack Through compelling stories of local and national activism and crucial legislative and judicial battles Swinth's history spotlights concerns not commonly associated with the movement of the 1960s and 1970s We see liberals and radicals white women and women of color rethinking gender roles and redistributing housework They brought men into the fold and together demanded bold policy changes to ensure job protection for pregnant women and federal support for child care Many of the creative proposals they devised to reshape the workplace and rework government policy such as guaranteed incomes for mothers and flex time now seem prescient Swinth definitively dispels the notion that second wave feminists pushed women into the workplace without offering solutions to issues they faced at home *Feminism's Forgotten Fight* examines activists' campaigns for work and family in depth and helps us see how feminism's opponents not feminists themselves blocked the movement's aspirations Her insights offer key lessons for women's ongoing struggle to achieve equality at home and work

Feminism and Methodology Sandra G. Harding, 1987 Appearing in the feminist social science literature from its beginnings are a series of questions about methodology In this collection Sandra Harding interrogates some of the classic essays from the last fifteen years in order to explore the basic and troubling questions about science and social experience gender and politics

We Specialize in the Wholly Impossible Darlene Clark Hine, Wilma King, Linda Reed, 1995-04 Essays by 30 authors attempt to reclaim and to create heightened awareness about individuals' contributions and struggles that have made African American women's survival and progress possible

Women and Women's Issues in Post World War II Japan Edward R. Beauchamp, 1998 First published in 1999 Routledge is an imprint of Taylor Francis an informa company

Routledge International Encyclopedia of Women Cheris Kramarae, Dale Spender, 2004-04-16 For a full list of entries and contributors sample entries and more visit the Routledge International Encyclopedia of Women website Featuring comprehensive global coverage of women's issues and concerns from violence and sexuality to feminist theory the Routledge International Encyclopedia of Women brings the field into the new millennium In over 900 signed A-Z entries from US and Europe Asia the Americas Oceania and the Middle East

the women who pioneered the field from its inception collaborate with the new scholars who are shaping the future of women's studies to create the new standard work for anyone who needs information on women related subjects

Gender, Agency and War Tina Managhan, 2012-01-30 This book traces practices of militarization and resistance that have emerged under the sign of motherhood in US Foreign Policy Gender Agency and War examines this discourse against the background of three key moments of American foreign policy formation the anti nuclear movement of the 1980s the Gulf War of the early 1990s and the recent invasion of Iraq For each of these moments the author explores the emergence of a historically specific and emblematic maternalized mode of female embodiment ranging from the hysterical antinuclear protester to the figure of Supermom in order to shed light onto the various practices which define and enable expressions of American sovereignty In so doing the text argues that the emergence of particular raced gendered and maternalized bodies ought not to be read as merely tangential to affairs of state but as instantiations of global politics This work urges an approach that rereads the body as an event with significant implications for the ways in which international politics and gender are currently understood This book will be of much interest to students of gender politics critical security studies US foreign policy and IR in general

Environment and Politics Timothy Doyle, Doug McEachern, 2007-08-31 Environment and Politics is a concise introduction to the study of environmental politics explaining the key concepts conflicts political systems and the practices of policy making The authors examine a diverse range of environmental problems and policy solutions within different nations and cultures This third edition expands the discussion of the differences in environmental politics between liberal democracies military dictatorships and one party states drawing on research conducted in Burma Thailand China and Iran Topics covered include the connections between green social movements and anti globalization movements the impact of globalization on NGOs the rise in local environmental governance and international bureaucratic regimes the global role of the World Bank and WTO the case of Kyoto the current phase of US unilateralism and its impact upon the global environment This text offers readers a greater understanding of international national and local environmental politics and looks at future developments for effective local and international environmental diplomacy and both global and region specific problem solving

Critical Sociology Steven M. Buechler, 2015-11-17 Critical Sociology is a thoroughly revised updated and sophisticated introduction to the sociological perspective as a critical lens on society Much has happened since the first edition the Great Recession the Obama presidency the burgeoning role of social media and recent global social movements such the Tea Party Occupy Wall Street and the Arab Spring In this second edition Buechler discusses the changing relationship between social movements and democracy The book contains chapters on how to think sociologically an overview of scientific humanistic and critical schools of sociology and a detailed exposition of the critical tradition

Gender and the Politics of Welfare Reform Joanne L. Goodwin, 2007-12-01 The first study to explore the origins of welfare in the context of local politics this book examines the first public welfare policy created specifically for mother only

families Chicago initiated the largest mothers pension program in the United States in 1911. Evolving alongside movements for industrial justice and women's suffrage, the mothers pension movement hoped to provide justice for mothers and protection from life's insecurities. However, local politics and public finance derailed the policy, and most women were required to earn. Widows were more likely to receive pensions than deserted women and unwed mothers. And African American mothers were routinely excluded because they were proven breadwinners yet did not compete with white men for jobs. Ultimately, the once uniform commitment to protect motherhood faltered on the criteria of individual support and wage earning, becoming a major component of the policy. This revealing study shows how assumptions about women's roles have historically shaped public policy and sheds new light on the ongoing controversy of welfare reform.

Feminist Perspectives on Contemporary Educational Leadership Kay Fuller, 2021-11-29. This timely book explores how various feminist perspectives fruitfully explain women's experience of educational leadership, drawing on a contemporary conceptualisation of fourth wave feminism that is intersectional and inclusive. The book asks which and whose feminist theory is used to explain gender and feminism in educational leadership management and administration. ELMA, the scholar's research participant, is or a combination of the two in the co-construction of knowledge from an intersectional feminist perspective. It conceptualises intersectional and inclusive feminist perspectives on educational leadership, theorising research through a Black British feminist perspective, a gender and Islamic perspective, and a queer theory perspective, depending on the self-identification of participants. It explores digital feminism and men's pro-feminism. The book identifies feminist leadership praxis as a focus for future research and explores how leaders can draw on funds of knowledge, identity, cultural wealth, and lead and educate diverse populations of students. Highlighting the importance of intersectional feminist perspectives in ELMA, the book will appeal to scholars, researchers, and postgraduate students in the fields of inclusive educational leadership and management, gender studies, and feminism.

Women's Movements in the United States Steven M. Buechler, 1990. Buechler explains why women's movements arise, the forms of organization they adopt, the diversity of ideologies they espouse, and the class and racial composition of women's movements. He also helps us to understand the roots of countermovements, as well as the mixture of successes and failures that has characterized both past and present women's movements. While recognizing both the setbacks and the victories of the contemporary movement, Buechler identifies grounds for relative optimism about the lasting consequences of this ongoing mobilization.

A History of Nursing Ideas Linda Andrist, Patrice Nicholas, Karen Wolf, 2006. This text is a comprehensive coverage of concepts critical to the development of the nursing role, philosophy, nature of nursing, ways of knowing, influences on the development of the nursing profession, history and nature of nursing science, evolution of nursing practice and education.

Modern Lusts Detlef Siegfried, 2020-07-01. As a jazz musician, filmmaker, anthropologist, sexologist, and crime novelist, the boundlessly curious German autodidact Ernest Borneman exemplified the conflicting cultural and intellectual currents of the twentieth century. In this long-awaited English translation, acclaimed

historian Detlef Siegfried chronicles Borneman's journey from a young Jewish Communist in Nazi Berlin to his emergence as a celebrated and reliably controversial transatlantic polymath. Through an innovative structure organized around the human senses, this biography memorably portrays a figure whose far-flung obsessions comprised a microcosm of postwar intellectual life.

Death in the Shape of a Young Girl Patricia Melzer, 2015-04-24 In the early 1970s a number of West German left wing activists took up arms believing that revolution would lead to social change. In the years to come the bombings, shootings, kidnappings and bank robberies of the Red Army Faction (RAF) dominated newspaper headlines and polarized legislative debates. Half of the terrorists declaring war on the West German state were women who understood their violent political actions to be part of their liberation from restrictive gender norms. As women participating in a brand of systematic violence usually associated with masculinity, they presented a cultural paradox and their political decisions were viewed as gender transgressions by the state, the public and even the burgeoning women's movement which considered violence as patriarchal and unfeminist. *Death in the Shape of a Young Girl* questions this separation of political violence from feminist politics and offers a new understanding of left wing female terrorists' actions as feminist practices that challenged existing gender ideologies. Patricia Melzer draws on archival sources, unpublished letters and interviews with former activists to paint a fresh and interdisciplinary picture of West Germany's most notorious political group from feminist responses to sexist media coverage of female terrorists to the gendered nature of their infamous hunger strikes while in prison. Placing the controversial actions of the Red Army Faction into the context of feminist politics, *Death in the Shape of a Young Girl* offers an innovative and engaging cultural history that foregrounds how gender shapes our perception of women's political choices and of any kind of political violence.

The Cambridge Companion to Virginia Woolf Susan Sellers, 2010-02-18 A revised and fully updated edition featuring five new chapters reflecting recent scholarship on Woolf.

Science in the Service of Children, 1893-1935 Alice Smuts, 2008-10-01 This book is the first comprehensive history of the development of child study during the early part of the twentieth century. Most nineteenth century scientists deemed children unsuitable subjects for study and parents were hostile to the idea. But by 1935 the study of the child was a thriving scientific and professional field. Here Alice Boardman Smuts shows how interrelated movements, social and scientific combined to transform the study of the child. Drawing on nationwide archives and extensive interviews with child study pioneers, Smuts recounts the role of social reformers, philanthropists and progressive scientists who established new institutions with new ways of studying children. Part history of science and part social history, this book describes a fascinating era when the normal child was studied for the first time. A child guidance movement emerged and the newly created federal Children's Bureau conducted pathbreaking sociological studies of children.

Feminist Psychology Vera Sonja Maass, 2021-12-06 Detailing the field of feminist psychology since its origins, this book assesses its early figures, theory and research as well as current and emerging theory and research and its associations with general feminist beliefs. Feminist psychology developed as a reaction to historical

psychological thought initiated by men who controlled the theory and research of the field By holding all of society to norms based in male behavior this so called masculine psychology effectively assigned women lower societal status than men and had disturbing effects on women s health and self esteem Feminist Psychology focuses on gender differences social structure and the values and principles of women s rights within the world s individual social and political spheres Contrary to popular notion feminist psychology does not involve man hating but instead focuses on loving the concept that women have equal potential to set and achieve goals and to contribute to society In this volume psychologist Vera Maass explains the history theory research and current state of this growing field which is becoming increasingly popular as colleges offer majors or concentrations in feminist psychology and argues that women are both different from and equal to men

Reviewing **Social Feminism**: Unlocking the Spellbinding Force of Linguistics

In a fast-paced world fueled by information and interconnectivity, the spellbinding force of linguistics has acquired newfound prominence. Its capacity to evoke emotions, stimulate contemplation, and stimulate metamorphosis is really astonishing. Within the pages of "**Social Feminism**," an enthralling opus penned by a highly acclaimed wordsmith, readers attempt an immersive expedition to unravel the intricate significance of language and its indelible imprint on our lives. Throughout this assessment, we shall delve to the book is central motifs, appraise its distinctive narrative style, and gauge its overarching influence on the minds of its readers.
