John McHale Kate Nicholls Gary Murphy Geoff Weller Jennifer K DeWan Patrick Kenny Gerard Hastings Margaret Anner Lawlor Karlin Lillington John Cullen *Confronting Cruelty* Lyle Munro, 2005-03-01 Why and how do people campaign on behalf of a species that is not their own Responses to this question provide important insights into the much misunderstood animal rights movement and the people in it who challenge the moral orthodoxy that underpins our attitudes towards nonhuman animals The norm of moderate concern for animals that animals matter albeit less than humans permits the abuse of animals in vivisection factory farming bloodsports and other contexts where animals suffer Social movement theory is used to show how animal rights activists are engaged in the social construction of cruelty as a social problem which they seek to prevent by their intellectual practical and emotion work in seminal campaigns against cruelty in the United States England and Australia **Waiting for José** Harel Shapira, 2017-10-31 A revealing look inside a controversial movement They live in the suburbs of Tennessee and Indiana They fought in Vietnam and Desert Storm They speak about an older better America an America that once was and is no more And for the past decade they have come to the U S Mexico border to hunt for illegal immigrants Who are the Minutemen Patriots Racists Vigilantes Harel Shapira lived with the Minutemen and patrolled the border with them seeking neither to condemn nor praise them but to understand who they are and what they do Challenging simplistic depictions of these men as right wing fanatics with loose triggers Shapira discovers a group of men who long for community and embrace the principles of civic engagement Yet these desires and convictions have led them to a troubling place Shapira takes you to that place a stretch of desert in southern Arizona where he reveals that what draws these men to the border is not simply racism or anti immigrant sentiments but a chance to relive a sense of meaning and purpose rooted in an older life of soldiering They come to the border not only in search of illegal immigrants but of lost identities and experiences Now with a new afterword by the author *Waiting for Jos* brings understanding to a group of people in search of lost identities and experiences **Regimes and Repertoires** Charles Tilly, 2010-02-15 The means by which people protest that is their repertoires of contention vary radically from one political regime to the next Highly capable undemocratic regimes such as China s show no visible signs of popular social movements yet produce many citizen protests against arbitrary predatory government Less effective and undemocratic governments like the Sudan s meanwhile often experience regional insurgencies and even civil wars In *Regimes and Repertoires* Charles Tilly offers a fascinating and wide ranging case by case study of various types of government and the equally various styles of protests they foster Using examples drawn from many areas G8 summit and anti globalization protests Hindu activism in 1980s India nineteenth century English Chartists organizing on behalf of workers rights the revolutions of 1848 and civil wars in Angola Chechnya and Kosovo Tilly masterfully shows that such episodes of contentious politics unfold like loosely scripted theater Along the way Tilly also brings forth powerful tools to sort out the reasons why certain political regimes vary and change how the people living under them make claims on their government and what connections can be drawn between regime change and

the character of contentious politics **Community Gardening in an Unlikely City** Tyler Schafer, 2020-12-10 Community gardening is as much about community as it is gardening and compared to growing plants cultivating community is far more difficult In *Community Gardening in an Unlikely City The Struggle to Grow Together in Las Vegas* Schafer documents his time as a member of a fledgling Las Vegas community garden and the process through which a rotating group of gardeners try to forge community He demonstrates the ways in which choices gardeners make about what goals to pursue or who belongs or what story to tell about their collective efforts influence how they and others experience and interpret the garden The garden culture that emerges over time shapes how or whether community is practiced at the garden and has important consequences for the gardeners abilities to connect with the low income Black and Latinx community in which it is located Schafer s analysis provides important insights about urban culture the environment and food justice in the American Southwest and a sober look into the often messy process and practice of community *A Diagnosis for Our Times* Matthew Schneirov, Jonathan David Geczik, 2003-06-05 Explores Americans increasing attraction to alternative medicine by looking at two alternative health networks one New Age the other conservative Christian *Coalition Building in the Anti-Death Penalty Movement* Sandra Joy, 2010-01-05 While a great deal of research has been done about many aspects of the death penalty very little attention has been paid to the movement organized against it *Coalition Building in the Anti Death Penalty Movement* fills that gap with an empirical examination of the external and internal factors that shape the role race plays in the anti death penalty movement While the death rows across the U S are overwhelmingly filled with racial minorities and the poor the ranks of the anti death penalty movement are dominated by white middle class professionals The attention given to race arise out of this racial distinction between death row inmates and the activists who advocate for them By conducting interviews with white black and Latino anti death penalty activists this book examines the influence of race on the mobilization of activists and their approach toward abolition The concepts of political opportunity mobilizing structures and framing provided by the political process model are used to describe the complex manner in which moral opposition to the death penalty is shaped by the racial realities of the activists Although racial tensions lie just below the surface they nonetheless create real obstacles for the movement as it strives to build a racially diverse coalition of activists aimed at death penalty abolition *Situating Global Resistance* Lara Montesinos Coleman, Karen Tucker, 2013-09-13 The book examines some of the ways in which contemporary forms of political dissent are situated within processes of global ordering Grounded in analysis of concrete practices of discipline and dissent in specific contexts it explores the ways in which resistance can be shaped by dominant ways of thinking seeing or enacting politics and by the multiform relations of power at play in the making of global order The contributions written from a variety of disciplinary backgrounds address themes such as the processes through which particular sorts of resisting subjects are produced the politics of knowledge in which resisting practices are embedded the ways in which visual technologies are deployed within and towards oppositional practices and

the politics of gender race and class within spaces of contestation The volume thus opens up space for critical reflection and inter disciplinary dialogue on what it means to be a resisting subject and on the interplay between the power and counter power in global order This book was published as a special issue of Globalizations

Hizbut Tahrir Indonesia and Political Islam Mohamed Nawab Mohamed Osman, 2018-05-15 This book offers a timely examination of Hizbut Tahrir Indonesia HTI a chapter of the transnational movement Hizb ut Tahrir HT whose key aim is the revival of the caliphate It cautions against an overly simplistic read of a group like HTI and political Islam in Indonesia While there is much to laud particularly with regard to how leaders in Indonesia have attempted to counteract Islamist extremism insofar as the trajectory of non violent Islamism in Indonesia is concerned there are clear reasons for apprehension Groups like the HTI have been adept at using the democratic space in Indonesia to propound their illiberal objectives including encouraging the curtailment of Indonesian art forms deemed un Islamic and more importantly pushing for certain Islamic sects such as the Ahmadiyahs to be banned Yet despite its extreme posturing HTI is accepted as a mainstream Muslim organization As such the Indonesian chapter of Hizb ut Tahrir represents a unique case unlike other chapters which are deemed extreme and fringe HTI though radical still exists within the space provided by the Indonesian religio political landscape This book offers new insights into HTI s history organizational structure and ideology adding considerable new details about HTI and correcting errors in existing literature while directing its primary focus on explaining HTI s rapid growth in Indonesia The central argument is that the key to understanding HTI s growth lies in the role collective identity plays in attracting new members and retaining its existing members within the party Factors such as institutional and non institutional opportunities within the Indonesian political system HTI s resource mobilization strategies and the anti systemic ideology of HTI serve as political organizational and religious incentives for individuals to join the party and launch collective action This goes on to emphasize and show that collective identity remains the most crucial factor in the party s growth Analysing this process of collective identity formation and its impact on recruitment and membership retention is central to this book This book will be of much interest to students of Southeast Asian politics regional security political Islam and International Relations in general

Organized Secularism in the United States Ryan T. Cragun, Christel Manning, Lori L. Fazzino, 2017-11-07 There has been a dramatic increase in the percentage of the US population that is not religious However there is to date very little research on the social movement that is organizing to serve the needs of and advocate for the nonreligious in the US This is a book about the rise and structure of organized secularism in the United States By organized secularism we mean the efforts of nonreligious individuals to build institutions networks and ultimately a movement that serves their interests in a predominantly religious society Researchers from various fields address questions such as What secularist organizations exist Who are the members of these organizations What kinds of organizations do they create What functions do these organizations provide for their members How do the secularist organizations of today compare to those of the past And what

is their likely impact on the future of secularism For anyone trying to understand the rise of the nonreligious in the US this book will provide valuable insights into organized efforts to normalize their worldview and advocate for their equal treatment in society A Historical Guide to NGOs in Britain M. Hilton,N. Crowson,J. Mouhot,J. McKay,2012-07-20 Aiming to furnish the reader with the historical data to engage with the debates surrounding the Cameron government s Big Society and civil society this book gives the reader a greater and more informed historical consciousness of how the NGO sector has grown and influenced *Extreme Politics* Charles King,2010-01-14 Why do some violent conflicts endure across the centuries while others become dimly remembered ancient struggles among forgotten peoples Is nationalism really the powerful force that it appeared to be in the 1990s This wide ranging work examines the conceptual intersection of nationalist ideology social violence and the political transformation of Europe and Eurasia over the last two decades The end of communism seemed to usher in a period of radical change an era of extreme politics that pitted nations ethnic groups and violent entrepreneurs against one another from the wars in the Balkans and Caucasus to the apparent upsurge in nationalist mobilization throughout the region But the last twenty years have also illustrated the incredible diversity of political life after the end of one party rule *Extreme Politics* engages with themes from the micropolitics of social violence to the history of nationalism studies to the nature of demographic change in Eurasia Published twenty years since the collapse of communism *Extreme Politics* charts the end of Eastern Europe as a place and chronicles the ongoing revolution in the scholarly study of the post communist world Organizing for Policy Influence Benjamin Farrer,2017-08-09 In this book Benjamin Farrer explains how activists can influence the policies they care about even when they are outnumbered and their issues are ignored The solution lies in a surprising place organizational choice Different types of organizations will be more influential under particular democratic institutions If they choose the optimal type of organization given their institutional context then even minority groups can be influential Environmentalists are a key example of how small groups can sometimes punch above their weight Environmentalists in different countries have made different organizational choices These choices explain whether or not they succeeded in influencing policy In the empirical chapters that follow Farrer shows that environmentalists can sometimes be more influential if they form interest groups but under other institutions political parties are the optimal organizational choice Although interest groups are often easier to create national institutions can sometimes insulate mainstream politicians from niche interest groups When institutions deny access to interest groups activists are forced to send the stronger signal of party entry Using a variety of methods including a formal model an experiment and a wealth of empirical data from a variety of settings Farrer proves that this theory of organizational choice adds to our understanding of several crucial phenomena First it helps explain patterns of political participation by showing the importance of instrumental rather than purely expressive motivations for activism Second it provides an important modification to Duverger s 1954 law by showing that new party entry is a function not only of electoral rules but also of the rules that govern interest groups

Third it extends research on the role of institutions in determining policy outputs by showing that policy outcomes are a function of the interaction between organizational choices and institutional context

Right-Wing Populism in America Chip Berlet,Matthew N. Lyons,2016-05-06 Right wing militias and other antigovernment organizations have received heightened public attention since the Oklahoma City bombing While such groups are often portrayed as marginal extremists the values they espouse have influenced mainstream politics and culture far more than most Americans realize This important volume offers an in depth look at the historical roots and current landscape of right wing populism in the United States Illuminated is the potent combination of anti elitist rhetoric conspiracy theories and ethnic scapegoating that has fueled many political movements from the colonial period to the present day The book examines the Jacksonians the Ku Klux Klan and a host of Cold War nationalist cliques and relates them to the evolution of contemporary electoral campaigns of Patrick Buchanan the militancy of the Posse Comitatus and the Christian Identity movement and an array of millennial sects Combining vivid description and incisive analysis Berlet and Lyons show how large numbers of disaffected Americans have embraced right wing populism in a misguided attempt to challenge power relationships in U S society Highlighted are the dangers these groups pose for the future of our political system and the hope of progressive social change Winner Outstanding Book Award Gustavus Myers Center for the Study of Bigotry and Human Rights in North America
