## **Social Perspectives On Mobility:**

**Social Perspectives on Mobility** Thyra Uth Thomsen, Lise Drewes Nielsen, Henrik Gudmundsson, 2016-12-05

Globalisation is heavily dependent on physical transport as people and goods travel over longer distances and with higher frequency. Movement and mobility have become integrated parts of late modern identity and practice and a state of flux can be sensed everywhere. Bringing together the latest interdisciplinary theoretical approaches with empirical case studies analysing and appraising innovative policies from Scandinavia, this volume demonstrates that mobility research is a key issue within social enquiry. It addresses three broad themes: Firstly, mobility as a constructed social reality examining how individuals construct notions of mobility in their everyday life and practice. Secondly, mobility as spatial co-ordination and transgression and finally, mobility as a policy theme where the contributors explore recent developments in transport policy at national and European levels, suggesting ways forward for both research and policy. In the final section of the book, new visions for research into sustainability and mobility are laid out.

**Mobilities: New Perspectives on Transport and Society** Professor John Urry, Professor Margaret Grieco, 2012-11-28. Bringing together the leading authors currently working at the intersection of social science and transport science, this volume provides a companion to the well-established and extensive international Transport and Society series. Each chapter and the volume as a whole offers closer and richer consideration of the issues, practices and structures of multiple mobilities which shape the current world but which have typically been overlooked or minimised. What this approach seeks to do is not only draw attention to many new areas of research and investigation relating to mobile lives but also to point to new theories and methods by which such lives have to be researched and examined. Such new theories and methods are relevant both to rethinking transport studies as such but are also recasting societal studies as transport so that it comes out of the ghetto and enters mainstream social science.

**Social Stratification, Class, Race, and Gender in Sociological Perspective, Second Edition** David

Grusky, 2019-09-05. The volume offers essential reading for undergraduates who need an introduction to the field for graduate students who wish to broaden their understanding of stratification research and for advanced scholars who seek a basic reference guide. Although most of the selections are middle-range theoretical pieces suitable for introductory courses, the anthology also includes advanced contributions on the cutting edge of research. The editor outlines a modified study plan for undergraduate students requiring a basic introduction to the field.

**Pitirim A. Sorokin** Barry V. Johnston, 1995 Pitirim A Sorokin 1889 1968 was one of the most original important and controversial figures in American sociology His spectacular rise from a peasant childhood in Czarist Russia to the Olympian heights of Harvard University provides an unlikely and fascinating lens for examining the history of an entire discipline And as Barry Johnston shows his equally dramatic fall from favor and unexpected resurrection illuminate both Sorokin's life and the tempestuous world of academic politics An outspoken revolutionary and secretary to Alexander Kerensky Sorokin was imprisoned and ordered executed by Lenin then reprieved and exiled During the 1920s he flourished as a teacher and scholar at the University of Minnesota where he published several pioneering books on the Russian Revolution social mobility sociological theory and rural sociology Harvard president A Lawrence Lowell was so impressed that he recruited Sorokin to chair the university's first department of sociology From 1930 to 1944 the department prospered under Sorokin's leadership attracting an entire generation of young scholars who in their own right would have a profound impact on the discipline In this period Sorokin published several volumes of his magnum opus Social and Cultural Dynamics and became embroiled in a bitter battle with rival Talcott Parsons for control of the department Parsons ultimately deposed Sorokin and transformed sociology into the Department of Social Relations Sorokin nevertheless stayed on at Harvard where he established the Center for Creative Altruism but otherwise continued to

work in relative obscurity Finally in 1963 after years in eclipse Sorokin was recognized for his accomplishments when he was elected president of the American Sociological Association During a long and distinguished career Sorokin amassed an amazingly diverse and substantial body of work much of which set the standard for the field At the same time he broke with the conventions of sociology frequently ridiculing and taunting his less adventurous colleagues For his heresy the flamboyant Sorokin was condemned and driven to the periphery of a profession anxious for legitimacy as a science As a result Sorokin s ideas have been consistently ignored and misunderstood for more than a quarter century Based on exhaustive research in Sorokin s papers and the Harvard archives as well as interviews with Sorokin s surviving family members former students and colleagues this biography restores Sorokin to his rightful place in the pantheon of American intellectuals Transport, Travel and Later Life Charles Musselwhite, 2017-11-21 This book set within a social gerontology and transport behaviour studies paradigm examines current debates and issues around transport for older people and its relationship to health and wellbeing for individuals and society as a whole
