Reconfiguring Citizenship Mehmoona Moosa-Mitha, 2016-03-23 Citizenship as a status assumes that all those encompassed by the term citizen are included albeit within the boundaries of the nation state Yet citizenship practices can be both inclusionary and exclusionary with far reaching ramifications for both nationals and non nationals This volume explores the concept of citizenship and its practices within particular contexts and nation states to identify whether its claims to inclusivity are justified This will show whether the exclusionary dimensions experienced by some citizens and non citizens are linked to deficiencies in the concept country specific policies or how it is practised in different contexts The interrogation of citizenship is important in a globalising world where crossing borders raises issues of diversity and how citizenship status is framed This raises the issue of human rights and their protection within the nation state for people whose lifestyles differ from the prevailing ones Besides highlighting the importance of human rights and social justice as integral to citizenship it affirms the role of the nation state in safeguarding these matters It does so by building on Indigenous peoples insights about linking citizenship to connections to other people and the environment and arguing for the inalienability and portability of citizenship rights guaranteed collectively through international level agreements These issues are of particular concern to social workers given that they must act in accordance with the principles of democracy equality and empowerment However citizenship issues are often inadequately articulated in social work theory and practice This book redresses this by providing

social workers with insights knowledge values and skills about citizenship practices to enable them to work more effectively with those excluded from enjoying the full rights of citizenship in the nation states in which they reside

Encyclopedia of Social Work, 1965 Exploring Welfare Bricolage in Europe's Superdiverse Neighbourhoods Jenny Phillimore, Hannah Bradby, Tilman Brand, Beatriz Padilla, Simon Pemberton, 2021-05-24 Migration driven diversity means European cities are becoming increasingly superdiverse Some European neighbourhoods have become places where newcomers arrive from across the world speaking many different languages from a range of socio economic backgrounds and with diverse religious beliefs and practices while living alongside long established migrant and white European populations This book focuses on what this increasing population diversity means for how people and local health and welfare service providers seek to address everyday health concerns from minor and chronic conditions to acute and urgent problems Using an innovative mixed method approach crossing multiple disciplines and drawing together rich qualitative and robust quantitative data this book offers unique insight into the complex and intricate actions which often vary over space and time implemented by both residents and care providers from eight superdiverse localities in four European countries each with different health and welfare traditions The book introduces the concept of welfare bricolage using it as a mechanism to explore the structures and rationales underpinning need and actions and how resources are connected across welfare regimes and borders and within locales The book illustrates how in the face of increasingly marketised cash strapped restrictive and institutionally racist welfare states and healthcare regimes

individuals and service providers strive to address need By focusing on welfare regimes migration histories everyday actions and resources within neighbourhoods Exploring Welfare Bricolage in Europe s Superdiverse Neighbourhoods offers a unique insight into what people and providers actually do when faced with health concerns The book highlights the role of structure and agency and moves beyond conventional approaches that focus on specific groups or sectors to research health and welfare by looking at whole populations and entire welfare ecosystems The book s theoretical methodological and empirical contributions will be of use to scholars practitioners and policymakers interested in welfare healthcare diversity and migration

Changing Relations of Welfare Åsa Lundqvist,2016-04-15 Changing Relations of Welfare is concerned with the complexities of family relations and practices in the recent past and how these have been imagined addressed or elided in present policy making It uses rich and varied sources to offer an innovative approach to the analysis of meanings afforded to the family in different policy legal and welfare contexts in Sweden Denmark and Britain This book considers how debates about responsibility obligation and rights have been gendered in social policy and welfare practice whilst also focusing upon the intersections of family gender race and ethnicity and the different ways in which legislation and policy in northern Europe have been used to regulate not only immigration but also the lives of migrant families Presenting a historically informed comparative analysis of the shifting dynamics in the relationship between family and the state this volume offers new pathways for exploring questions of change and continuity
