**Postmodernity and the Fragmentation of Welfare** John Carter,1998 Postmodern ideas have been vastly influential in the social sciences and beyond However their impact on the study of social policy has been minimal Postmodernity and the Fragmentation of Welfare analyses the potential for a postmodern or cultural turn in welfare as it treats postmodernity as an

evolving canon from the seminal works of Baudrillard Foucault and Lyotard through to recent theories of the risk society Already disorientated by globalisation new technologies and the years of new right ascendancy welfare faces a significant challenge in the postmodern It suggests that rather than universality and state provision the new social policy will be consumerised and fragmented a welfare state of ambivalence With contributions from authors coming from a variety of fields offering very different perspectives on postmodernity and welfare Postmodernity and the Fragmentation of Welfare also keeps social policy s intellectual inheritance in view By exploring ways in which theorisations of postmodernity might improve understanding of welfare issues in the 1990s and assessing the relevance of theories of diversity and difference to mainstream and critical social policy traditions this book will be and essential text for all students of social policy social administration social work and sociology

**Challenges to European Welfare Systems** Klaus Schubert, Paloma de Villota, Johanna Kuhlmann, 2016-02-08 This book provides the first comprehensive analyses of the challenges all European welfare systems have been facing since 2007 combining in depth country based studies and comparative chapters It focuses on 1 the economic and financial crisis 2 demographic change and 3 the balance between avoiding risks and opening up opportunities in social policy The results show that European welfare systems tend to face the same challenges in different ways and that also their responses to those challenges differ considerably Although the EU also plays a part in shaping national welfare systems it becomes evident that European welfare systems are by no means converging in terms of social policy national diversity within Europe is still a major factor that will shape future developments in European welfare systems
