Obligations Irina Artamonova, 2025-07-18 The controversial nature of foreign direct investment has raised specific concerns about the activities of foreign investors within host states and has triggered various reforms of international investment law particularly regarding the obligations of foreign investors This book explores the currently available international investment agreements to determine whether and to what extent they include investors obligations The main focus of this study is to assess whether the inclusion of such obligations in international investment agreements constitutes an effective legal mechanism to ensure that foreign investors behave in a more responsible manner towards host states and local communities Ultimately the research aims to answer a fundamental question do new international investment agreements contribute to making the current international investment law regime fairer and more balanced *International Investment Agreements* United Nations Conference on Trade and Development, 2004 This is part of a three set volume bringing together the series of papers published by UNCTAD on key issues in international investment agreements The Series seeks to help developing countries to participate as effectively as possible in international investment rule making at the bilateral regional plurilateral and multilateral levels Addressed to Government officials corporate executives representatives of non governmental organizations officials of international agencies and researchers the Series provides a balanced analysis of issues that may arise in discussions about and negotiations of international investment agreements *The Role of International Investment Agreements in Fostering Sustainable Development* Wolfgang Alschner, 2013 This paper provides a brief overview of recent UNCTAD research on the nexus between international investment treaties and sustainable development After sketching the historic evolution and current trends in IIA treaty practice it explores the linkages between IIAs and three areas of public

policy making that have been at the centre of UNCTAD's research and policy analysis with respect to IIAs and sustainable development. These include 1 combating climate change 2 integrating investment and industrial policy and 3 promoting responsible corporate behaviour. The paper concludes on the need for more inter-State cooperation to address the various challenges facing the IIA regime today and to enhance its sustainability dimension. In this context UNCTAD's recently released Investment Policy Framework for Sustainable Development (IPFSD) can provide helpful guidance for the formulation of a new generation of more sustainable investment policy making.

International Investment Arrangements, 2006. The past few years saw a proliferation of international investment agreements (IIAs) at the bilateral, regional and interregional levels, presenting new challenges for policymakers. As global economic integration becomes ever deeper, managing the impacts of integration on the domestic economy becomes more complex and the challenges greater. This paper provides an overview of some of the issues that arise as countries seek to ensure policy coherence in the face of a complex network of overlapping IIA provisions.

Publisher's description: **Shifting Paradigms in International Investment Law**. Steffen Hindelang, Markus Krajewski, 2016-01-21. International investment law is in transition. Whereas the prevailing mindset has always been the protection of the economic interests of individual investors, new developments in international investment law have brought about a paradigm shift. There is now more than ever before an interest in a more inclusive, transparent and public regime. *Shifting Paradigms in International Investment Law* addresses these changes against the background of the UNCTAD framework to reform investment treaties. The book analyses how the investment treaty regime has changed and how it ought to be changing to reconcile private property interests and the state's duty to regulate in the public interest. In doing so, the volume tracks attempts in international investment law to recalibrate itself towards a more balanced, less isolated and increasingly diversified regime. The individual chapters of this edited volume address the contents of investment agreements, the system of dispute settlement, the interrelation of investment agreements with other areas of public international law, constitutional questions and new regional perspectives from Europe, South Africa, the Pacific Rim Region and Latin America. Together, they provide an invaluable resource for scholars, practitioners and policymakers. The individual chapters of this edited volume address the contents of investment agreements, the system of dispute settlement, the interrelation of investment agreements with other areas of public international law, constitutional questions and new regional perspectives from Europe, South Africa, the Pacific Rim Region and Latin America. Fair and Equitable Treatment, 1999. *Investor-state Disputes Arising from Investment Treaties*, 2005. The settlement of disputes between investors and the states in which they operate is a key aspect of the system of investment protection established in international investment agreements. Thus, the majority of international investment agreements contain provisions on investor-state dispute settlement. These provisions have been increasingly used in recent years and this has resulted in more arbitral awards. This paper takes stock of and analyzes the

nature and implications of this trend In particular it considers not only the statistical aspects of this development but also the effects of arbitral decisions on the evolution of dispute settlement procedures under international investment agreements and on the interpretation and further refinement of the substantive standards of protection that they contain Publisher s description **Investors' International Law** Jean Ho,Mavluda Sattorova,2021-06-03 This book is the first book length analysis of investor accountability under general and customary international law international human rights law international environmental law international humanitarian law as well as international investment law International investment law is currently facing growing criticisms for its failure to address corruption abuse environmental damage and other forms of investor misconduct Reform initiatives range from the rejection of international law as a governing regime for investors to the dramatic overhaul of investment treaties that supposedly enable investor overprotection to the creation of a multilateral international instrument that would enable the litigation of claims against errant businesses before an international tribunal Whether these initiatives succeed in disciplining investors remains to be seen What these initiatives undeniably show however is that change is warranted to counteract this lopsided investors international law Each chapter in the book addresses a different and underexplored dimension of investor accountability thus offering a novel and consolidated study of international law The book will be of immense assistance to legal practitioners academics and policy makers involved in the design drafting application and reform of various international instruments addressing investor accountability

University Acknowledgements **Globalization and International Investment** Fiona Beveridge, 2017-07-05 This volume brings together a broad range of articles on international law and foreign investment which together provide a contemporary overview of the diverse range of issues and perspectives which continue to exercise policy makers and scholars alike Central to this collection is the tension between market oriented reforms on the one hand raising issues of market access and protection of investors and corporate social responsibility discourses on the other raising concerns about environmental protection and respect for human and labour rights Regional perspectives on these issues reveal differing priorities and approaches Investor-state Disputes Arising from Investment Treaties United Nations Conference on Trade and Development, 2005 The paper takes stock of and analyses the recent increase in investor State disputes 225 known cases with two thirds filed since 2002 This surge in disputes proves that IIAs work toward creating a favourable investment climate However it raises concerns not only in terms of substantive and procedural issues but also in terms of monetary implications and the limited technical capacity in developing countries to handle the disputes International Investor Obligations Patrick Abel, 2022-11-24 Das internationale Investitionsschutzrecht steht seit Jahren in der Kritik Genie en Investoren internationale Rechte ohne korrespondierende Verantwortlichkeit Dieses Buch stellt diese Sicht infrage Vielmehr lassen sich der Vertrags und Schiedspraxis bereits heute Investorenpflichten entnehmen die das Buch normtheoretisch als direkte und indirekte Pflichten erschlie t Diese verpflichten Investoren etwa auf Menschenrechte und Umweltschutz Sie sind potentiell geeignet das Rechtsgebiet verst rkt auf das Ziel nachhaltiger Entwicklung auszurichten und Investorenverhalten international zu regulieren Das Buch stellt diese Entwicklung in den allgemeineren Kontext der seit 1945 stattfindenden Individualisierung des V lkerrechts *Stabilization Clauses in International Investment Law* Jola Gjuzi, 2018-12-05 This book analyzes the tension between the host state s commitment to provide regulatory stability for foreign investors which is a tool for attracting FDI and generating economic growth and its evolving non economic commitments towards its citizens with regard to environmental protection and social welfare The main thesis is that the stabilization clause regulatory power antinomy as it appears in many cases contradicts the content and rationale of sustainable development a concept that is increasingly prevalent in national and international law and which aims at the integration and balancing of economic environmental and social development To reconcile this antinomy at the decision making and dispute settlement levels the book employs a constructive sustainable development approach which is based on the integration and reconciliation imperatives of the concept of sustainable development as well as on the application of principles of law such as non discrimination public purpose due process proportionality and more generally good governance and rule of law It subsequently re conceptualizes stabilization clauses in terms of their design ex ante and interpretation ex post yielding stability to the benefit of foreign investors while also mitigating their negative effects on the host state s power to regulate

International Investment Agreements United Nations Conference on Trade and Development, 2000 This paper

reflects discussions which took place during the three expert meetings convened by the Commission on Investment Technology and Related Financial Issues during 1997-1999. These discussions dealt with existing International Investment Agreements (IIAs) and their development dimensions. The paper examines ways in which IIAs can provide for flexibility with a view towards promoting development while encouraging foreign direct investment (FDI) and providing stability and predictability in investment relations. The paper first discusses the meaning and purpose of flexibility in the interest of in the context of IIAs. It goes on to look at how existing IIAs have provided flexibility from the perspectives of the objectives of an agreement, its overall structure and methods of participation, its substantive provisions, its applications. The paper emphasises that IIAs in common with all international agreements typically contain obligations that reduce to some extent the autonomy of the participating countries. Such agreements should recognise the economic asymmetries and levels of development between developing and developed countries. The challenge for negotiators of IIAs is to find the proper balance between obligations and flexibility. IIAs should be designed in a way that allows their parties some flexibility in pursuing their development objectives.
