On Freedom and the Will to Adorn Cheryl A. Wall,2018-10-26 Although they have written in various genres African American writers as notable and diverse as W E B Du Bois James Baldwin and Alice Walker have done their most influential work in the essay form The Souls of Black Folk The Fire Next Time and In Search of Our Mothers Gardens are landmarks in African American literary history Many other writers such as Ralph Ellison Zora Neale Hurston James Weldon Johnson and Richard Wright are acclaimed essayists but achieved greater fame for their work in other genres their essay work is often overlooked or studied only in the contexts of their better known works Here Cheryl A Wall offers the first sustained study of the African American essay as a distinct literary genre Beginning with the sermons orations and writing of nineteenth

century men and women like Frederick Douglass who laid the foundation for the African American essay Wall examines the genre's evolution through the Harlem Renaissance She then turns her attention to four writers she regards as among the most influential essayists of the twentieth century Baldwin Ellison June Jordan and Alice Walker She closes the book with a discussion of the status of the essay in the twenty first century as it shifts its medium from print to digital in the hands of writers like Ta Nehisi Coates and Brittney Cooper Wall's beautifully written and insightful book is nothing less than a redefinition of how we understand the genres of African American literature The Real Negro Shelly Eversley, 2004-03-29 In this book Shelly Eversley historicizes the demand for racial authenticity what Zora Neale Hurston called the real Negro in twentieth century American literature Eversley argues that the modern emergence of the interest in the real Negro transforms the question of what race an author belongs into a question of what it takes to belong to that race Consequently Paul Laurence Dunbar's Negro dialect poems were prized in the first part of the century because written by a black man they were not imitation black while the dialect performances by Zora Neale Hurston were celebrated because written by a real black they were not imitation white The second half of the century in its dismissal of material segregation sanctions a notion of black racial meaning as internal and psychological and thus promotes a version of black racial truth as invisible and interior yet fixed within a stable conception of difference The Real Negro foregrounds how investments in black racial specificity illuminate the dynamic terms that define what makes a text and a person black while it also reveals how blackness spoken and authentic guards a more fragile because unspoken commitment to the purity and primacy of whiteness as a stable uncontested ideal **Conjuring the Folk** David Nicholls, 2000 Provides a new way of looking at literary responses to migration and modernization Black Comedy Pamela Faith Jackson, Karimah, 1997 Applause Books This first of its kind collection includes a wide range of works from an early examination and critique of American society after World War II to plays that reflect socio political concerns that kept pace with historical events like the sit in demonstrations the bus boycotts black nationalism and the women's liberation movement A hybrid of comedic forms including satire farce comedy of manners romantic comedy dark comedy and tragicomedy are presented through vernacular language stand up performance art masks broad humor as well as the minstrel show Essays articles and interviews complement this critical edition The Collage Aesthetic in the Harlem Renaissance Rachel Farebrother, 2016-12-05 Beginning with a subtle and persuasive analysis of the cultural context Farebrother examines collage in modernist and Harlem Renaissance figurative art and unearths the collage sensibility attendant in Franz Boas s anthropology This strategy makes explicit the formal choices of Harlem Renaissance writers by examining them in light of African American vernacular culture and early twentieth century discourses of anthropology cultural nationalism and international modernism At the same time attention to the politics of form in such texts as Toomer's Cane Locke's The New Negro and selected works by Hurston reveals that the production of analogies juxtapositions frictions and distinctions on the page has aesthetic historical and political implications Why did these African

American writers adopt collage form during the Harlem Renaissance What did it allow them to articulate These are among the questions Farebrother poses as she strives for a middle ground between critics who view the Harlem Renaissance as a distinctive and necessarily subversive kind of modernism and those who foreground the cooperative nature of interracial creative work during the period A key feature of her project is her exploration of neglected connections between Euro American modernism and the Harlem Renaissance a journey she negotiates while never losing sight of the particularity of African American experience Ambitious and wide ranging Rachel Farebrother's book offers us a fresh lens through which to view this crucial moment in American culture The Culture Concept Michael A. Elliott, 2002 Culture is a term we commonly use to explain the differences in our ways of living In this book Michael A Elliott returns to the moment this usage was first articulated tracing the concept of culture to the writings folktales dialect literature local color sketches and ethnographies that provided its intellectual underpinnings in turn of the century America The Culture Concept explains how this now familiar definition of culture emerged during the late nineteenth century through the intersection of two separate endeavors that shared a commitment to recording group based difference American literary realism and scientific ethnography Elliott looks at early works of cultural studies as diverse as the conjure tales of Charles Chesnutt the Ghost Dance ethnography of James Mooney and the prose narrative of the Omaha anthropologist turned author Francis La Flesche His reading of these works which struggle to find appropriate theoretical and textual tools for articulating a less chauvinistic understanding of human difference is at once a recovery of a lost connection between American literary realism and ethnography and a productive inquiry into the usefulness of the culture concept as a critical tool in our time and times to The American South and the Atlantic World Brian Ward, Martyn Bone, William A. Link, 2013-05-21 Most of the come research on the South ties the region to the North emphasizing racial binaries and outdated geographical boundaries but The American South and the Atlantic World seeks a larger context Helping to define New Southern studies this book the first of its kind explores how the cultures contacts and economies of the Atlantic World shaped the South The Politics of Black Joy Lindsey Stewart, 2021-09-15 During the antebellum period slave owners weaponized southern Black joy to argue for enslavement propagating images of happy darkies In contrast abolitionists wielded sorrow by emphasizing racial oppression Both arguments were so effective that a political uneasiness on the subject still lingers In The Politics of Black Joy Lindsey Stewart wades into these uncomfortable waters by analyzing Zora Neale Hurston's uses of the concept of Black southern joy Stewart develops Hurston's contributions to political theory and philosophy of race by introducing the politics of joy as a refusal of neo abolitionism a political tradition that reduces southern Black life to tragedy or social death To develop the politics of joy Stewart draws upon Zora Neale Hurston's essays Beyonc's Lemonade and figures across several disciplines including Frederick Douglass W E B Du Bois Toni Morrison Angela Davis Saidiya Hartman Imani Perry Eddie Glaude and Audra Simpson The politics of joy offers insights that are crucial for forming needed new paths in our current moment For

those interested in examining popular conceptions of Black political agency at the intersection of geography gender class and Black spirituality The Politics of Black Joy is essential reading Multiculturalism C. James Trotman, 2002 Multi culturalism Roots and Realities Edited by C James Trotman Examines the place of multiculturalism in our society The most meaningful support for multiculturalism has come from intellectuals such as those represented in this book who have discovered greater meaning about our American past by incorporating the concepts driving multi culturalism These essays engage the word and its meanings as varied as they are in an effort to add and expand on the dialogue for this ever increasingly vital concept However Multiculturalism Roots and Realities is not a book aimed at debates instead each essay generally makes use of multiculturalism as a way of examining history and social themes while providing a broader and perhaps a deeper view of 19th century American life and thought The book s general goal which in fact belongs to all of us is to recognize excellence in the cultures of the historically neglected claim excellence where it is found and position it so that it can contribute to a fuller understanding of the human condition Contributors include Susan Alves Barbara J Ballard Jeannine DeLombard Juniper Ellis Joe B Fulton Henry Louis Gates Richard E Greene Richard Hardack Julie Husband Gillian Johns Verner D Mitchell Christine Palumbo DeSimone Janet Shannon C James Trotman Matthew Wilson and Julie Winch C James Trotman is Professor of English and founding director of the Frederick Douglass Institute at West Chester University of Pennsylvania He is author of Langston Hughes The Man His Art and His Continuing Influence Sales territory is worldwide January 2002 320 pages 6 1 8 x 9 1 4 cloth 0 253 34002 0 49 95 L 35 50 paper 0 253 21487 4 22 95 s 16 50

**Reading for the Body** Jay Watson,2012-08-01 Jay Watson argues that southern literary studies has been overidealized and dominated by intellectual history for too long In Reading for the Body he calls for the field to be rematerialized and grounded in an awareness of the human body as the site where ideas including ideas about the U S South itself ultimately happen Employing theoretical approaches to the body developed by thinkers such as Karl Marx Colette Guillaumin Elaine

Scarry and Friedrich Kittler Watson also draws on histories of bodily representation to mine a century of southern fiction for its insights into problems that have preoccupied the region and nation alike slavery Jim Crow and white supremacy the marginalization of women the impact of modernization the issue of cultural authority and leadership and the legacy of the Vietnam War He focuses on the specific bodily attributes of hand voice and blood and the deeply embodied experiences of pain illness pregnancy and war to offer new readings of a distinguished group of literary artists who turned their attention to the South Mark Twain Jean Toomer Zora Neale Hurston William Faulkner Richard Wright Katherine Anne Porter Bobbie Ann Mason and Walker Percy In producing an intensely embodied U S literature these writers Watson argues were by turns extending and interrogating a centuries old tradition in U S print culture in which the recalcitrant materiality of the body serves as a trope for the regional alterity of the South Reading for the Body makes a powerful case for the body as an important methodological resource for a new southern studies
