## **Social Security A Reciprocity System Under Pressure:**

*Social Security* Edward Wynne,1980      **Social Security** Edward A. Wynne,1980      **Reciprocity (Routledge Revivals)** Lawrence C. Becker,2014-06-17 The tendency to reciprocate to return good for good and evil for evil is a potent force in human life and the concept of reciprocity is closely connected to fundamental notions of justice obligation or duty gratitude and equality In *Reciprocity* first published in 1986 Lawrence Becker presents a sustained argument about reciprocity beginning with the strategy for developing a moral theory of the virtues He considers the concept of reciprocity in detail contending that it is a basic virtue that provides the basis for parental authority obligations to future generations and obedience to law Throughout the first two parts of the book Becker intersperses short pieces of his own narrative fiction to enrich reflection on the philosophical arguments The final part is devoted to extensive bibliographical essays ranging over anthropology psychology political theory and law as well as the relevant ethics and political philosophy      Personnel Literature United States. Office of Personnel Management. Library,1981      *International Perspectives on Aging* George J. Alexander,2023-07-24 Although the legal problems of the elderly are as old as humankind they have taken on current prominence for another reason lifespan has increased markedly in recent years Persons who would given their age have been the elders of the past and would have been expected to be focused on their imminent death are now as a group robust and well They have better survived the ravages of time than have the plans fashioned when life expectancy was much lower Questions concerning social status expectations of living standards general assistance and medical care all have become far more important and considerably more difficult As life has become longer and death more controllable the issue of a person s right to choose death over diminished quality of life has also become far more complicated This interesting book provides the reader with a selection of perspectives from scholars in different parts of the world on various branches of elderlaw Questions of social obligations to elders and elders rights and duties are addressed as they arise in the United States Japan Greece New Zealand the Netherlands Canada and England The compilation does not attempt to map out the field nor to make country by country comparisons of the issues discussed Rather it shows some commonality of concerns and in the identification of problems and proposals for their solution      *Workers Versus Pensioners* Paul A. Johnson,Christoph Conrad,David Thomson,1989 Articles from a conference organised by the Centre for Economic Policy Research and held at St Johns College Cambridge in July 1988      **Beyond Entitlement** Lawrence M. Mead,2008-06-30 Mead s timely and closely reasoned analysis makes a strong intellectual and moral case for a more authoritative welfare policy      International Social Security Review ,1994      **Family Systems and Inheritance Patterns** Judith N. Cates,Marvin B. Sussman,1982 Specialists in economics law psychology and sociology provide a comprehensive examination of the disposition of property following a death      *An Inquiry Into Well-being and Destitution* Partha Dasgupta,1995 An interdisciplinary book by one of the most respected scholars in what is broadly development economics but encompasses the most recent insights from philosophical

research and empirical work on resource allocation nutrition science and anthropology It has been widely recognized as a seminal work presenting a wide ranging description of the causes and remedies of poverty and undernourishment and addressing the current debate over methods of estimating their incidence      **Setting Limits** Daniel Callahan,1995-03-01 A provocative call to rethink America s values in health care      **The Meaning Of Children** Eulah Croson Laucks,2019-07-11 As more individuals delay having children or opt for childlessness the question arises What value do people place on children in contemporary U S society Dr Laucks studies this question through a survey designed to elicit attitudes regarding the purpose and desirability of raising children in the context of a depersonalized fragmented and alienating society The survey of a large group of university graduates points to marked discrepancies between individual attitudes favoring procreation and parenthood and individual actions that contradict traditional notions Purported aspirations and goals still include the hope of raising happy healthy children Yet while individually valuing children and family Americans widely approve of and use contraceptives and other birth control methods endorse easy dissolution of marriage and approve of relationships that exclude children The author examines these diverging attitudes in relation to contemporary and historical sentiments toward the family Extensive tables display the detailed results of Dr Laucks s survey giving demographic information on the respondents along with their attitudes toward sexual practices parenthood child rearing and the family      **Welfare in America** Stanley W. Carlson-Thies,James W. Skillen,1996 Discusses the current issue of welfare reform and shares views on what the church s position should be      *Hunger and Public Action* Jean Drèze,Amartya Sen,1989 This book analyses the role of public action in solving the problem of hunger in the modern world and is divided into four parts Hunger in the modern world Famines Undernutrition and deprivation and Hunger and public action      *Gaining The Dividends Of Longer Life* Jarold A. Kieffer,2019-04-08 Not all older people are unfit for work Indeed most people over age 55 remain physically and mentally able to work and rather than suffer the pressures of inflation or the boredom of idleness many would prefer to stay productive longer Dr Kieffer says that their extensive experience and education qualify most of them to remain self reliant well past current retirement ages If they are enabled to do so it would delay and reduce the time when they are forced to be financially and in some cases physically dependent He argues that unless policy leaders in both the public and private sectors act quickly and imaginatively to gain the financial and social dividends that can accrue from longer life our country by default will find itself preoccupied over the next thirty years with unnecessarily high costs of supporting its longer living and rapidly increasing older population Dr Kieffer explains why current retirement policies are no longer economically and politically manageable and he suggests a cost effective strategy whereby public and private funds could be used to enable millions of older people to remain active in jobs that serve unmet community needs He also outlines a strategy for helping young workers build retirement income assets during their entire work lives so that the unintended burdens that have fallen on the Social Security pension and public assistance programs can be eased and made more manageable in the future Lastly he

describes the roles that government agencies businesses educational institutions foundations and older people themselves can play in carrying out the jobs and retirement income strategies **Selfish Generations?** David Thomson, 2015-12-23 Our present welfare state has little good reason to survive much longer and we will have to find a new basis for its continued existence So writes David Thomson as he offers an unflinching perspective on how different generations have fared under the social welfare policies of governments since the 1930s **Selfish Generations** is a critical and unsentimental analysis of a key political issue and the questions it raises about support for the young and old and about health education and housing policy are exactly those facing politicians and social welfare policy developers today **Saving Social Security** Jason Berger, 1982

**Traditional Catholic Religious Orders** Edward Wynne, Catholic religious orders are probably the longest lived voluntary institution in Western society This book is the first single volume history and interpretation of the lives of those who have lived in such orders as monks sisters brothers and priests since their earliest beginnings in the First Century A D It is also an analysis of the organizational and intellectual structures that have given such institutions their remarkable vitality These religious communities have appeared persisted mutated merged and expired The author shows us that despite these rich variations there has been a noteworthy consistency in important themes including living in community and maintenance of the vows of poverty chastity and obedience He asks How did human beings go about living lives dedicated to these aims To what degree were they attained and how did they do it Did they tend to be warped and neurotic persons And if their lives frequently projected a tone of wholesome purpose what implications do such patterns have for our era Wynne also examines the many ways traditional Catholic orders have participated in educational and welfare efforts Europe America and elsewhere This remarkable account of the rich and complex patterns of institutional religious development furthers our understanding of the nature of human beings and their social organizations Edward A Wynne is a professor of education at the University of Illinois Chicago Circle He is a sociologist specializing in the analysis of institutions that shape human values and conduct He is the author and editor of six books including Character Policy An Emerging Issue Social Security A Reciprocity System Under Stress Looking at Schools Good Bad and Indifferent and Growing Up Suburban **Democracy in Translation** Frederic Charles Schaffer, 2018-08-06 Frederic C Schaffer challenges the assumption often made by American scholars that democracy has been achieved in foreign countries when criteria such as free elections are met Elections he argues often have cultural underpinnings that are invisible to outsiders To examine grassroots understandings of democratic institutions and political concepts Schaffer conducted fieldwork in Senegal a mostly Islamic and agrarian country with a long history of electoral politics Schaffer discovered that ideas of demokaraasi held by Wolof speakers often reflect concerns about collective security Many Senegalese see voting as less a matter of choosing leaders than of reinforcing community ties that may be called upon in times of crisis By looking carefully at language Schaffer demonstrates that institutional arrangements do not necessarily carry the same meaning in different cultural contexts Democracy in Translation asks how

social scientists should investigate the functioning of democratic institutions in cultures dissimilar from their own and raises larger issues about the nature of democracy the universality of democratic ideals and the practice of cross cultural research

**The Municipal Money Chase** Alberta Sbragia, 2019-07-09 Gone are the days when the raising and apportioning of municipal monies was a relatively simple task when ample income could be expected to meet projected needs and also fund a few additional projects Now local officials are faced with shrinking budgets tax revolts decreasing federal support increasing state and federal regulations in short genuine crunches that leave them pondering how sparse resources can ever be stretched to meet the multitude of actual needs This book stresses the political dimensions of local finance emphasizing the local intergovernmental and private sector constraints faced by municipal officials in their attempt to provide services while balancing the budget Integrating the implications of the Reagan administration s new approach to federal spending into their analyses the authors examine the impact of state regulations on local taxation and debt policies the relationship between local governments and the municipal bond market the political economy of New York City s fiscal crisis and the impact of various tax limitation measures including California s Proposition 13 They also study the effect of community development grants on local decisionmaking structures and the impact of urban congressional representatives on the allocation of federal grants Their presentation is aimed especially at graduate and upper level undergraduate students of urban politics local finance state and local government and intergovernmental relations
