**Stigma** Erving Goffman, 2009-11-24 From the author of *The Presentation of Self in Everyday Life* *Stigma* analyzes a person's feelings about himself and his relationship to people whom society calls normal. *Stigma* is an illuminating excursion into the situation of persons who are unable to conform to standards that society calls normal. Disqualified from full social acceptance, they are stigmatized individuals. Physically deformed people, ex-mental patients, drug addicts, prostitutes, or those ostracized for other reasons must constantly strive to adjust to their precarious social identities. Their image of themselves must daily confront and be affronted by the image which others reflect back to them. Drawing extensively on autobiographies and case studies, sociologist Erving Goffman analyzes the stigmatized person's feelings about himself and his relationship to normals. He explores the variety of strategies stigmatized individuals employ to deal with the rejection of others and the complex sorts of information about themselves they project. In *Stigma*, the interplay of alternatives the stigmatized individual must face every day is brilliantly examined by one of America's leading social analysts. *Lazy, Crazy, and Disgusting* Alexandra Brewis, Amber Wutich, 2019-11-19 How stigma derails well-intentioned public health efforts, creating suffering and worsening inequalities. 2020 Winner, Society for Anthropological Sciences Carol R. Ember Book Prize. Shortlisted for the British Sociological Association's Foundation for the Sociology of Health and Illness Book Prize. *Stigma* is a dehumanizing process where shaming and blaming are embedded in our beliefs about who does and does not have value within society. In *Lazy, Crazy, and Disgusting*, medical anthropologists Alexandra Brewis and Amber Wutich explore a darker side of public health: that well-intentioned public health campaigns can create new and damaging stigma even when they are otherwise successful. Brewis and Wutich present a novel synthetic argument about how stigmas act as a massive driver of global disease and suffering, killing or sickening billions every year. They focus on three of the most complex, difficult-to-fix global health efforts: bringing sanitation to all, treating mental illness, and preventing obesity. They explain how and why humans so readily stigmatize, how this derails ongoing public health efforts, and why this process invariably hurts people who are already at risk. They also explore how new stigmas enter global health so easily and consider why destigmatization is so very difficult. Finally, the book offers potential solutions that may be able to prevent, challenge, and fix stigma. *Stigma* elimination. Brewis and Wutich conclude must be recognized as a necessary and core component of all global health efforts. Drawing on the authors' keen observations and decades of fieldwork, *Lazy, Crazy, and Disgusting* combines a wide array of ethnographic evidence from around the globe to demonstrate conclusively how stigma undermines global health's basic goals to create both health and justice. *SOCIAL STIGMA*. EDWARD E. JONES, 1984 *Stigma* Gerhard Falk, 2001 What is it in human nature that leads us to label some as insiders and stigmatize others as outsiders? Sociologist Gerhard Falk examines the social psychology that motivates this process of exclusion, focusing on the outcasts in contemporary American society and comparing current experience with examples from the past. Referring to the work of Emile Durkheim and Erving Goffman, Falk reviews the whole

range of stigmatized people from the mentally ill to ordinary people with unpopular occupations like undertakers and trash collectors. Amid the wide diversity of stigmatized persons he finds two basic types of outsiders: the existential and the achieved. The first group comprises those who are stigmatized because of their very existence regardless of their specific actions: the mentally handicapped, for example. The second group describes those whose actions or life conditions have resulted in stigma: high achievers often subject to resentment, to criminals. Falk also looks at the ways in which writers past and present have dramatized stigmatized characters in literature. This fascinating overview of a long-standing and widespread social problem will be of interest to all those concerned about creating a more fair-minded society.
