Social Theory After Postmodernism Rethinking Production Law And Class:

Social Theory After Post-modernism Anthony Woodiwiss, 1990 Setting out to exemplify a new approach to social theory one forged in the course of a critical dialogue between Postmodernism and Marxism this book departs from classical Marxist thought By directly engaging with issues in social and political theory the book offers a way forward for a new and revitalised Marxist tradition The book does not fit within any single disciplinary boundary but challenges the limits imposed by conventional boundaries The author breaks with the usual Postmodernism versus Marxism syndrome and defies that brand of Postmodernism that pronounces the death of social theory Through a deconstructive rethinking of the central concepts of production law and class he attempts to demonstrate ways in which a transformed Marxism can take on board and benefit from Postmodernism and deconstruction without lapsing into post Marxism

Social Theory After Postmodernism Anthony Woodiwiss, 1990 This work sets out and exemplifies a new approach to social theory While departing radically from classical Marxist thought it directly engages with many of the most important issues in contemporary social and political theory and offers a way forward for a new and revitalized Marxist tradition Social Theory After Postmodernism returns to the same concern with law that marked the work of the classical sociological theorists and which has been neglected since their passing Through a deconstructive rethinking of the central concepts of production law and class he demonstrates ways in which a transformed Marxism can take on board and benefit from postmodernism and deconstruction without lapsing into post Marxism

The Visual in Social Theory Anthony Woodiwiss, 2005-10-20 The distinction between understanding sight as a natural faculty vision and understanding it as an historical and social construct visibility has had significant impact in the visual arts Not so in social theory where notwithstanding the efforts of the classical theorists the practical scientific necessity of privileging visibility over vision has been lost The Visual in Social Theory argues that because of its uncritical use of terms like modernity postmodernity globalisation and the Third Way contemporary social theory has become a participant in rather than a critic of promotional culture In short in forgetting its past social theory has effectively forsaken its future The Visual in Social Theory aims to restore the self discipline and critical edge intrinsic to any analytical work on visibility The book will be essential reading not only for those interested in contemporary debates around vision but for a broader readership concerned for the critical relevance of contemporary social theory

Qualitative Research in Criminology (1999) Fiona Brookman, Lesley Noaks, Emma Wincup, 2017-12-15 Published in 1999 this text brings together detailed reflexive accounts of authors experiences of conducting research on a variety of criminological topics The broad aim of the book is to critically review how qualitative methods can be effectively deployed in the area of criminology The conclusions reached in the text are diverse reflecting the range of qualitative methods considered and the particular criminological topics to which they are applied A common theme throughout is that whilst qualitative research can help to provide valid and meaningful information on criminological issues researchers need to carefully reflect upon both the methodological and ethical dimensions of their work The book will appeal to those who wish to understand the experience of conducting qualitative research on aspects of crime

and criminal justice This will include undergraduate and postgraduate students undertaking research for the first time as well as experienced researchers and teachers This book was originally published as part of the Cardiff Papers in Qualitative Research series edited by Paul Atkinson Sara Delamont and Amanda Coffey The series publishes original sociological research that reflects the tradition of qualitative and ethnographic inquiry developed at Cardiff The series includes monographs reporting on empirical research edited collections focussing on particular themes and texts discussing methodological developments and issues

Foucault and Law Peter Fitzpatrick, 2017-07-05 Few thinkers can have had a more diverse or a more contested impact on theorizing law than Michel Foucault This diversity is reflected in the wide range of Foucault's work and of the intellectual fields it has so conspicuously influenced Such diversity informs the present collection and is signalled in the headings of its four sections Epistemologies archaeology discourse Orientalism Political philosophy discipline governmentality and the genealogy of law Embodiment difference sexuality and the law The subject of rights and ethics Whilst the published work selected for this collection amply accommodates this diversity it also draws together strands in Foucault's work that coalesce in seemingly conflicting theories of law Yet the editors are also committed to showing how that very conflict goes to constitute for Foucault an integral and radical theory of law This theory ranges not just beyond the restrained and diminished conceptions of law usually derived from Foucault but also beyond the characteristic concern in Jurisprudence and Legal Philosophy to constitute law in its difference and separation from other socio-political forms
