*Deconstructing Happiness* Jordan McKenzie,2016-03-10 This book offers an original account of the good life in late modernity through a uniquely sociological lens It considers the various ways that social and cultural factors can

encourage or impede genuine efforts to live a good life by deconstructing the concepts of happiness and contentment within cultural narratives of the good life While empirical studies have dominated the discourse on happiness in recent decades the emphasis on finding causal and correlational relationships has led to a field of research that arguably lacks a reliable theoretical foundation Deconstructing Happiness offers a step toward developing that foundation by offering characteristically sociological perspectives on the contemporary fascination with happiness and well being In doing so it seeks to understand the good life as a socially mediated experience rather than a purely personal or individually defined way of living The outcome is a book on happiness contentment and the good life that considers the influence of democracy capitalism and progress while also focusing on the more theoretical challenges of self knowledge reason and interaction

**Re-thinking Contemporary Political Behaviour** Sadiya Akram,2019-02-07 Proposing a novel approach to understanding the contemporary political landscape Akram draws on the work of Pierre Bourdieu and Margaret Archer on agency and argues the need for an in depth engagement with concepts of agency to improve the reach and scope of political analysis Is the way that people engage with politics changing If so how well equipped are we to document and explain the extent and range of the ways in which people are engaging in politics today This book tackles these questions through a blend of theoretical reflection and empirical research shedding new light on the relationship between arena and process definitions of politics and how the social relates to the political Hitherto unexplored features of agency such as the unconscious and the internal political conversation are shown to be critical in exploring how people mobilise today and how they make sense of their political engagement Two in depth case studies of the internal political conversations that individuals hold as well as an analysis of the 2011 UK riots are presented Making a case for the role of self expression in politics this book will be of use for graduates and scholars interested in British politics political theory social theory political sociology the theory and practice of political engagement and political behaviour
