Theory and Practice Juergen Habermas, 1988-03-09 Theory and Practice is one of Habermas s major works and is widely recognized as a classic in contemporary and social and political theory Through a series of highly original historical studies Habermas reexamines the relations between philosophy science and politics Beginning with the classical doctrine of politics as developed by Aristotle he traces the changing constellation of theory and practice through the work of Machiavelli More Hobbes Hegel and Marx He argues that with the development of the modern sciences politics has become increasingly regarded as a technical discipline concerned with problems of prediction and control Politics has thus lost its link with the practical cultivation of character that is with the praxis of enlightened citizens Theory and Practices includes a major reassessment of Marx s work and of the status of Marxism as a form of critique In an important concluding chapter Habermas examines the role of reason and the prospects for critical theory in our modern scientific civilization

Electoral Justice and Political Culture Dai zhicheng,2021-12-15 The election process reflects the essence of the electoral system The justice of the electoral process can best reflect whether the electoral system is legitimate and democratic The democratic and legal shortcomings of China s electoral system can be solved by rationalizing and democratizing the electoral process which is consistent with the realization of justice under the electoral process In this book procedural justice is combined with the electoral process to find the conditions and elements needed to achieve more justice in elections The electoral system is still based on the political will of the political party to rule and the electoral system itself has serious legislative problems which shows that the foundation of China s electoral system has problems Then China s electoral system cannot truly represent the political voices and political interests of the people in the implementation and at the same time cannot reflect the fairness of the election in the electoral procedure and the determination of the election results The People s Congress system and the Political Consultation system simply cannot elect the right representatives who truly represent the interests of the people The elected government and state power organs are separated from the people s political status political interests and development interests in the operation of their duties and the exercise of power By analyzing the problems in China s electoral system and election procedures the book concludes the conditions for the realization of more justice rationalization and democratization of China s electoral system and election procedures through procedural justice The spiritual connotation of procedural justice under the electoral system and election procedures are combined with the traditional Chinese democratic political culture to construct an electoral political culture adapted to the contemporary Chinese political environment advancing the development of procedural justice in China s electoral system to realize the rationality legitimacy and democracy of elections
