Backhouse, Philippe Fontaine, 2014-09-22 A Historiography of the Modern Social Sciences exposes parallels and contrasts in the way the histories of the social sciences are written      *Social Thought, from Lore to Science*, 1952      **The Palgrave Handbook of the History of Human Sciences** David McCallum, 2022-08-27 The Palgrave Handbook of the History of Human Sciences offers a uniquely comprehensive and global overview of the evolution of ideas concepts and policies within the human sciences Drawn from histories of the social and psychological sciences anthropology the history and philosophy of science and the history of ideas this collection analyses the health and welfare of populations evidence of the changing nature of our local communities cities societies or global movements and studies the way our humanness or human nature undergoes shifts because of broader technological shifts or patterns of living This Handbook serves as an authoritative reference to a vast source of representative scholarly work in interdisciplinary fields a means of understanding patterns of social change and the conduct of institutions as well as the histories of these ways of knowing probe the contexts circumstances and conditions which underpin continuity and change in the way we count analyse and understand ourselves in our different social worlds It reflects a critical scholarly interest in both traditional and emerging concerns on the relations between the biological and social sciences and between these and changes and continuities in societies and conducts as 21st century research moves into new intellectual and geographic territories more diverse fields and global problematics      **Enlightenment and Despair** Geoffrey Hawthorn, 1987-03-12 An acclaimed critical history of social theory from the eighteenth century onwards      Shaping Human Science Disciplines Christian Fleck, Matthias Duller, Victor Karády, 2018-09-01 This book presents an analysis of the institutional development of selected

social science and humanities SSH disciplines in Argentina France Germany Hungary Italy the Netherlands Sweden and the United Kingdom Where most narratives of a scholarly past are presented as a succession of ideas research results and theories this collection highlights the structural shifts in the systems of higher education as well as institutions of research and innovation beyond the universities within which these disciplines have developed This institutional perspective will facilitate systematic comparisons between developments in various disciplines and countries Across eight country studies the book reveals remarkably different dynamics of disciplinary growth between countries as well as important interdisciplinary differences within countries In addition instances of institutional contractions and downturns and veritable breaks of continuity under authoritarian political regimes can be observed which are almost totally absent from narratives of individual disciplinary histories This important work will provide a valuable resource to scholars of disciplinary history the history of ideas the sociology of education and of scientific knowledge

**The Consensus-conflict Debate** Thomas J. Bernard, 1983

Few aspects of American military history have been as vigorously debated as Harry Truman's decision to use atomic bombs against Japan In this carefully crafted volume Michael Kort describes the wartime circumstances and thinking that form the context for the decision to use these weapons surveys the major debates related to that decision and provides a comprehensive collection of key primary source documents that illuminate the behavior of the United States and Japan during the closing days of World War II Kort opens with a summary of the debate over Hiroshima as it has evolved since 1945 He then provides a historical overview of the events in question beginning with the decision and program to build the atomic bomb Detailing the sequence of events leading to Japan's surrender he revisits the decisive battles of the Pacific War and the motivations of American and Japanese leaders Finally Kort examines ten key issues in the discussion of Hiroshima and guides readers to relevant primary source documents scholarly books and articles

*Developments in American Sociological Theory, 1915-1950* Roscoe C. Hinkle, 1994-01-01 This book presents a comprehensive extended and systematic analysis of social theory as it developed between the two World Wars a period during which major transformation occurred Centering on the continuities on the one hand and discontinuities on the other in substantive theory it deals with the major ideas of Cooley Ellwood Park Thomas Ogburn Bernard Chapin Mead Faris Hankins MacIver Reuter Lundberg H P Becker Parsons Znaniecki Sorokin and Blumer Finally the problematic relevancy of the past for the present is directly confronted The author examines how basic assumptions of theory in particular periods have used relatively unique schema and generated considerable controversy
