social work has been devalued by politicians and the media. However, it requires practitioners equipped with key skills to empower individuals and communities and rooted in values which stimulate them to promote social justice. It is heartening that social work educators are at the forefront of equipping social workers with the skills and values to promote a better society. This book will open hearts and minds to achieve these ends.

Bob Holman, former Community Worker and Professor of Social Policy, *Social Work: A Companion to Learning* is an exciting and definitive new book that will equip readers with the core knowledge and skills they need to successfully complete their social work training and go on to be an effective practitioner. The text takes a holistic and critical approach, not only enabling students and practitioners to understand how to practise social work effectively but also how to locate this practice within its societal context. Written and edited by leading experts in the field, each chapter skilfully explores key themes, issues and concepts underpinning social work theory and practice in an engaging, authoritative and accessible way. The selection of topics serves to establish the contexts through which social work education can best be understood: the core requirements and processes that characterise social work courses; the issues involved in continuing professional development. The chapters comprise a wide range of key issues such as communication skills, partnership working, the values of social work, supervision, management, law and research-mindedness, as well as two unique chapters written exclusively from service users' perspectives. Case studies, interactive questions, key points and further reading sections are used throughout the book to bring the material to life and aid readers' understanding.

*Social Work: A Companion to Learning* will be a core text for students and practitioners at all levels, providing the most up-to-date and comprehensive companion they will need to help them progress in their careers.

Mark Lymbery has taught social work at the University of Nottingham since 1995. He is the author of *Social Work with Older People* (2005), also published by SAGE. Karen Postle is a lecturer in social work at the University of East Anglia. Both authors have a background as social work practitioners.

*Becoming a Social Work Manager* Angie Bartoli, 2025-02-28. An innovative guide for social workers who are about to take the next step in their career to become a social work manager or who may have recently taken on that role. Practitioners will learn how they can prepare for this transition, how it really feels to be a manager and how to develop their professional identity. Despite the interest in how social work roles are managed and led, the actual experience of the transition to social work manager can be overlooked. Many books written around this topic focus on the skills needed to be a manager, management and organisational concepts rather than how it feels to go through the process and how to cope as a new manager. This book draws on a relationship-based model, proposing that relationships play a significant part in the transition into management. It emphasises the importance of how managers support their teams and individuals while also caring for themselves. Based on research with newly promoted social work managers, this book features in-depth case studies which illustrate four significant points in the transitional journey: preparation for the role, multiple identities, managing people and self-care. The concluding chapter offers a practical model that readers considering social work management can utilise.

within their own supervision or annual appraisal to support a smoother transition into management
