When Texas Prison Scams Religion Michael G. Maness, 2023-05-22 *When Texas Prison Scams Religion* exposes corruption in the Texas Department of Criminal Justice especially in the abuse of religion In many ways this book is a literature review of 1 800 plus works that defends freedom of conscience in prison while exposing the unconstitutionality of the seminary program that buys faith with favor from prisoners The state veritably ordains the prisoner a Field Minister that represents the offices of the Governor TDCJ Director and wardens throughout the prison Therein TDCJ lies about neutrality in a program all about Christian missions and lies again in falsely certifying elementary Bible students as counselors Why is the director

sponsoring psychopaths counseling psychopaths In fact TDCJ pays 314 million a year to UTMB for psychiatric care and receives not a single report of the care given and worse for UTMB generates no reports itself The underbelly TDCJ's executive culture of cover up is exposed TDCJ has hired the lowest qualified of the applicant pool many times in the last 25 years and regularly destroys statistics on violence TDCJ Dir Collier led the prison to model Louisiana Warden Burl Cain the most scandal ridden in penal history according to a host of published news stories for 20 years Therein Collier led TDCJ to favor the smallest segment of religious society within Evangelical Dominionism Texas has no business endorsing the truth of any religion over another We close with a proposal that utilizes the 400 000 000 hours of officer contact over ten years as a definitive influence in contrast to a commissioner that spends less than 10 minutes on each decision Maness has been lobbying Austin for 15 years to definitively access staff for his 100 000 Mothers 1% Certainty Parole Texas Constitutional Amendment which would revolutionize prison culture and save Texans millions of the dollars

Passavant, 2021-06-28 In Policing Protest Paul A. Passavant explores how the policing of protest in the United States has become increasingly hostile since the late 1990s moving away from strategies that protect protesters toward militaristic practices designed to suppress protests He identifies reactions to three interrelated crises that converged to institutionalize this new mode of policing the political mobilization of marginalized social groups in the Civil Rights era that led to a perceived crisis of democracy the urban fiscal crisis of the 1970s and a crime crisis that was associated with protests and civil disobedience of the 1960s As Passavant demonstrates these reactions are all haunted by the figure of black insurrection which continues to shape policing of protest and surveillance notably in response to the Black Lives Matter movement Ultimately Passavant argues this trend of violent policing strategies against protesters is evidence of the emergence of a post democratic state in the United States *Deviant Behavior* Erich Goode, 2015-08-20 *Deviant Behavior* 10 e by Erich Goode provides a comprehensive study of the behavior beliefs conditions and reactions to deviance giving students a better understanding of this phenomenon Deviance is discussed from the sociological perspectives of positivism and constructionism Readers will grasp the reason behind deviant behavior through the positivist perspective and why certain actions beliefs and physical characteristics are condemned through the constructionist perspective **Ebook: Sociology: A Brief Introduction** Schaefer, 2014-10-16 *Ebook Sociology A Brief Introduction* [The Thin Black Line](#) Hugh Holton, 2010-01-19 A nonfiction collection of the exploits and accomplishments of African American law enforcement officers *Uncontrolled* Jim Manzi, 2012-05-01 How do we know which social and economic policies work which should be continued and which should be changed Jim Manzi argues that throughout history various methods have been attempted except for controlled experimentation Experiments provide the feedback loop that allows us in certain limited ways to identify error in our beliefs as a first step to correcting them Over the course of the first half of the twentieth century scientists invented a

methodology for executing controlled experiments to evaluate certain kinds of proposed social interventions This technique goes by many names in different contexts randomized control trials randomized field experiments clinical trials etc Over the past ten to twenty years this has been increasingly deployed in a wide variety of contexts but it remains the red haired step child of modern social science This is starting to change and this change should be encouraged and accelerated even though the staggering complexity of human society creates severe limits to what social science could be realistically expected to achieve Randomized trials have shown for example that work requirements for welfare recipients have succeeded like nothing else in encouraging employment that charter school vouchers have been successful in increasing educational attainment for underprivileged children and that community policing has worked to reduce crime but also that programs like Head Start and Job Corps which might be politically attractive fail to attain their intended objectives Business leaders can also use experiments to test decisions in a controlled low risk environment before investing precious resources in large scale changes the philosophy behind Manzi s own successful software company In a powerful and masterfully argued book Manzi shows us how the methods of science can be applied to social and economic policy in order to ensure progress and prosperity
