author Carter explores patristic writers both heterodox and orthodox such as Marcion Justin Martyr and Origen He also deepens our understanding of Second Temple Judaism and the theological context in which Christian ideas about atonement developed Useful to both the academic and the pastoral theologian The Forgiveness of Sins is a painstaking clear eyed exploration of what forgiveness meant not only to early Christians such as Tertullian Irenaeus and Luke but to Jesus himself and what it means to Christians today

Crime Opportunity Theories Mangai Natarajan, 2017-07-05 Opportunity theories of crime seek to explain the occurrence of crime rather than simply the existence of criminal dispositions They emphasize the fundamental element in the criminal act of opportunity how this arises how it is perceived evaluated and acted on by those with criminal dispositions This volume brings together influential research articles on opportunity theories of crime by leading theorists such as Cohen and Felson on routine activity theory and Clarke and Cornish on the bounded rational choice perspective The articles also include more recent theoretical developments and studies of situational crime prevention of specific twenty first century crimes These articles attest to the sheer volume as well to as the richness and the variety of work designed to reduce crime that has forever changed the face of criminology and criminal justice

What is Criminology? Mary Bosworth, Carolyn Hoyle, 2012-05-31 Criminology is a booming discipline yet one which can appear divided and fractious In this rich and diverse collection of 34 essays some of the worlds leading criminologists respond to a series of questions designed to investigate the state impact and future challenges of the discipline What is criminology for What is the impact of criminology How should criminology be done What are the key issues and debates in criminology today What challenges does the discipline of criminology face How has criminology as a discipline changed over the last few decades The resulting essays identify a series of intellectual methodological and ideological borders Borders in criminology as elsewhere are policed yet they are also frequently transgressed criminologists can and do move across them to plunder admire or learn from other regions While some boundaries may be more difficult or dangerous to cross than others it is rare to find an entirely secluded locale or community In traversing ideological political geographical and disciplinary borders criminologists bring training tools and concepts as well as key texts to share with foreigners From such exchanges over time borders may break down shift or spring up enriching those who take the journey and those who are visited It is in other words in criminologys capacity for and commitment to reflexivity on which the strength of the field depends
