

NATURE OF MAN

human judgment is distorted by self-interest and can be easily swayed with rhetoric that is often neither directed toward the public good nor the individual's good.

Human beings are programmed, mechanical objects to pursue self-interested ends, without regard for anything other than the avoidance of pain and the incentive of pleasure

Man is not a social animal; that is, society is impossible without the coercive power of a state.

Human beings are neither by nature selfish nor rational

Roecklein, 2014-02-19 In the

origins of Western philosophical thought doctrines of physics intertwined with the debate between political philosophers It is for this reason that Plato devoted his dialogues Theatetus and Parmenides to investigating and meeting the arguments of his principal philosophical adversaries The doctrine of atomism which developed under the influence of Parmenides philosophy is one that Plato refutes directly In the modern era of philosophy and science a revived doctrine of atomism has been treated as apolitical Atomistic postulates lay at the root of the doctrines of Early Modern philosophers and exert a great influence upon cultural and political teachings In order to understand Early Modern Philosophy therefore and especially in order to examine

Early Modern political science one must address the atomistic theory of body which lies at the root of Early Modern metaphysics In the metaphysical domain or in the domain of natural philosophy the Early Modern philosophers radically reduce the role that ordinary opinion may play in political and cultural life The majestic declarations concerning the rights of man and the gospel of utility characteristic of the political domain of Early Modernity therefore conceal a shrunken influence fated for the demos in the new politics In order to take the measure of the new political science it is necessary to take the measure of the revived doctrines of atomism If these doctrines can be disproved by reviving Plato's critique we will be able to take a critical look at the political doctrines that lie upon the foundations of the politicized atomism *Machiavelli, Hobbes, and Rousseau* John Plamenatz, 2012-06-28 This volume presents lucid and insightful lectures on three great figures from the history of political thought by John Plamenatz 1912-1975 a leading political philosopher of his time He explores a range of themes in the political thought of Machiavelli Hobbes and Rousseau at substantially greater length and depth than in his famous work of 1961 *Man and Society* The lectures exemplify Plamenatz's view that repeated engagement with the texts of canonical thinkers can substantially enrich and expand our capacity for political reflection Edited by Mark Philp and Zbigniew Pelczynski the volume includes annotations to supply Plamenatz's sources and to refer readers to developments in their interpretation A substantial introduction by Philp sets some of Plamenatz's concerns in the light of trends in recent scholarship and illuminates the relevance of his work to the contemporary study of political thought **Freedom and the End of Reason** Richard L. Velkley, 2014-02-14 In *Freedom and the End of Reason* Richard L. Velkley offers an influential interpretation of the central issue of Kant's philosophy and an evaluation of its position within modern philosophy's larger history He persuasively argues that the whole of Kantianism not merely the Second Critique focuses on a critique of practical reason and is a response to a problem that Kant saw as intrinsic to reason itself the teleological problem of its goodness Reconstructing the influence of Rousseau on Kant's thought Velkley demonstrates that the relationship between speculative philosophy and practical philosophy in Kant is far more intimate than generally has been perceived By stressing a Rousseau inspired notion of reason as a provider of practical ends he is able to offer an unusually complete account of Kant's idea of moral culture *National Library of Medicine Current Catalog* National Library of Medicine (U.S.), 1970 **Social and Ethical Interpretations in Mental Development** James Mark Baldwin, 1897 **The Christian Advocate**, 1902
