Straw, Laura Elizabeth Atkinson, 1994 Writing for Social Work Lucy Rai, 2021-02-03 Writing is an important skill not just for a social work degree but also as an integral part of practice. Social workers need to be able to write effectively in a range of formats for different contexts. Equipping students with guidance on both academic and assessed writing and writing in social work practice, this book will use case studies and examples to develop their ability to plan and respond to the challenges of new and familiar writing tasks. Effective writing for social work Rai, Lucy, 2014-09-17 Based on original research, this book offers students an insight into the nature and challenges of writing in social work practice, enabling them to improve their writing skills. It explores the ways in which both students and qualified social workers can be more effective in their writing through an awareness of the purpose, context and audience. It makes explicit the connections and differences between learning to write in university and communicating through writing in practice and explores the impact that new technologies have on academic and professional writing. Drawing on both research and examples from practice, Effective writing for social work is a valuable tool for students, educators, practitioners and managers to critically examine ways in which writing could better support best practice in social work. **Writing Skills for Social Work Students** Bella Ross, 2021-03-03 This book will equip social work students with the knowledge, skills and confidence to produce first-rate written assignments. Part one focuses on the foundational skills needed to produce excellent written work. Students are taken through the core stages of working on an assignment: from planning the task and reading and note-making through to finding and evaluating sources, drafting a text and editing and proofreading. Part two hones in on the key types of assignment students will encounter on their degree: It contains dedicated chapters on writing an essay, a reflective text, a case study analysis, a literature review, a placement report and case notes on placement. Each chapter contains examples and activities which will help students to test their knowledge and understanding. This is an essential companion for all social work students. **Reflective Practice For Social Workers: A Handbook For Developing Professional Confidence** Bruce, Linda, 2013-04-01 This book demystifies the reflective process and provides a straight

forward knowledge base to enhance professional development
