**Future Survey Annual 1983** Michael Marien,1984-01-01 **Recommendations and Reports** Administrative Conference of the United States,1994 Federal Agency Use of Audited Self-regulation as a Regulatory Technique Douglas C. Michael,1993 EBOOK: Regulating Healthcare Kieran Walshe,2003-06-16 Healthcare organizations in the UK and the USA face a growing tide of regulation accreditation inspection and external review all aimed at improving their performance In the US over three decades of regulation by state and federal government and by non governmental agencies has created a complex costly and overlapping network of oversight arrangements for healthcare organizations In the UK regulation of the government run National Health Service is central to current health policy with the creation of a host of new national agencies and inspectorates tasked with overseeing the performance of NHS hospitals and other organizations But does regulation work This book explores the development and use of healthcare regulation in both countries comparing and contrasting their experience and drawing on regulatory research in other industries and settings offers a structured approach to analysing what regulators do and how they work develops principles for effective regulation aimed at maximising the benefits of regulatory interventions and minimising their costs Regulating Healthcare is aimed at all with an interest or involvement in health policy and management be they policy makers healthcare managers or health professionals It is particularly suitable for use on postgraduate health and health related programmes **Social Regulation** Eugene Bardach,1982-01-01 **Reforming the Workplace** Joseph Rees,2016-11-11 Government regulatory agencies are too often tangled webs of bureaucracy fraught with internal politics and in conflict with both industries and individuals How to instigate and implement the needed reform is a timely issue that is currently being debated Reforming the Workplace is an account of a successful program that is now a model for nationwide improvements in various regulatory agencies Joseph Rees s focus is the Occupational Safety and Health Administration OSHA which in 1982 announced a major shift in policy from strict government regulation to self regulation by industries with proven safety records In California this resulted in the Cooperative Compliance Program CCP an arrangement among labor unions management and California OSHA that became responsible for overseeing safety regulations at seven large construction sites throughout the state In his detailed study of the CCP Joseph Rees provides important empirical data and assesses the reasons the program succeeded That success is so important he demonstrates because the CCP represents a different approach to reform self regulation that can be extended to and tailored for many troubled agencies Reforming the Workplace is a comprehensive study that will be a valuable resource for scholars and students of law and social policy in general and of federal regulation policies in particular **Making Regulatory Policy** Keith Hawkins,John N. Thomas,2010-11-23 Contributors Barry Boyer Colin S Diver Daniel J Gifford Keith Hawkins Peter K Manning Errol Meidinger Robert L Rabin Paul Rock and John M Thomas Few scholars have applied modern behavioral and organization theory to study U S regulatory agencies and fewer still have integrated this

approach with frameworks drawn from administrative law and analysis This multidisciplinary collection combines detailed case studies with theoretical discussions drawing upon legal concepts organizational analysis and behavioral theory **The Economy as a System of Power** George Sternlieb, 2017-09-29 The articles in this volume address the fact and use of economic power in the American economy The institutional economists perspective exhibited here reflects a century long focus on and concern with economic power begun by Thorstein Veblen This volume presents a new generation of institutionalist scholars who add to that tradition a fresh and penetrating analysis of contemporary power centers and assessments of their use of power The Regulatory Craft Malcolm K. Sparrow, 2011-01-01 The Regulatory Craft tackles one of the most pressing public policy issues of our time the reform of regulatory and enforcement practice Malcolm K Sparrow shows how the vogue prescriptions for reform centered on concepts of customer service and process improvement fail to take account of the distinctive character of regulatory responsibilities which involve the delivery of obligations rather than just services In order to construct more balanced prescriptions for reform Sparrow invites us to reconsider the central purpose of social regulation the abatement or control of risks to society He recounts the experiences of pioneering agencies that have confronted the risk control challenge directly developing operational capacities for specifying risk concentrations problem areas or patterns of noncompliance and then designing interventions tailored to each problem At the heart of a new regulatory craftsmanship according to Sparrow lies the central notion pick important problems and fix them This beguilingly simple idea turns out to present enormously complex implementation challenges and carries with it profound consequences for the way regulators organize their work manage their discretion and report their performance Although the book is primarily aimed at regulatory and law enforcement practitioners it will also be invaluable for legislators overseers and others who care about the nature and quality of regulatory practice and who want to know what kind of performance to demand from regulators and how it might be delivered It stresses the enormous benefit to society that might accrue from development of the risk control art as a core professional skill for regulators Environmental Policy Under Reagan's Executive Order V. Kerry Smith, 2018-06-15 For the first time a formal benefit cost requirement plays an integral role in U S environmental policymaking and in this volume some of the nation s leading experts on environmental policy appraise the effects of President Reagan s Executive Order No 12291 By considering how the Environmental Protection Agency has responded to 12291 these essays identify the limitations of conventional practices of benefit cost analysis Originally published in 1984 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value The Economist's View of the World Steven E. Rhoads, 1985-05-23 This book explains and assesses the ways in which micro welfare and benefit cost economists view the world of public policy In general terms microeconomic concepts and

models can be seen to appear regularly in the work of political scientists sociologists and psychologists As a consequence these and related concepts and models have now had sufficient time to influence strongly and to extend the range of policy options available to government departments The central focus of this book is the cross over from economic modelling to policy implementation which remains obscure and uncertain The author outlines the importance of a wider knowledge of microeconomics for improving the effects and orientation of public policy He also provides a critique of some basic economic assumptions notably the consumer sovereignty principle Within this context the reader is in a better position to understand the marvellous insights and troubling blindnesses of economists where often what is controversial politically is not so controversial among economists

**Beyond Privatization** Lester M. Salamon,1989 *Federal Administrative Procedure Sourcebook* William F. Funk,Jeffrey S. Lubbers,Charles Pou (Jr.),2000 The Magdalenes Linda Mahood,2013-06-26 The nineteenth century witnessed a discursive explosion around the subject of sex Historical evidence indicates that the sexual behaviour which had always been punishable began to be spoken of regulated and policed in new ways Prostitutes were no longer dragged through the town dunked in lakes whipped and branded Medieval forms of punishment shifted from the emphasis on punishing the body to punishing the mind Building on the work of Foucault Walkowitz and Mort Linda Mahood traces and examines new approaches emerging throughout the nineteenth century towards prostitution and looks at the apparatus and institutions created for its regulation and control In particular throughout the century the bourgeoisie contributed regularly to the discourse on the prostitution problem the debate focusing on the sexual and vocational behaviour of working class women The thrust of the discourse however was not just repression or control but the moral reform through religious training moral education and training in domestic service of working class women With her emphasis on Scottish magdalene homes and a case study of the system of police repression used in Glasgow Linda Mahood has written the first book of its kind dealing with these issues in Scotland At the same time the book sets nineteenth century treatment of prostitutes in Scotland into the longer run of British attempts to control drabs and harlots and contributes to the wider discussion of dangerous female sexuality in a male dominated society

**Bad Kids** Barry C. Feld,1999-03-18 Written by a leading scholar of juvenile justice this book examines the social and legal changes that have transformed the juvenile court in the last three decades from a nominally rehabilitative welfare agency into a scaled down criminal court for young offenders It explores the complex relationship between race and youth crime to explain both the Supreme Court decisions to provide delinquents with procedural justice and the more recent political impetus to get tough on young offenders This provocative book will be necessary reading for criminal and juvenile justice scholars sociologists legislators and juvenile justice personnel
