Social Stratification Canada:

Social Stratification Dr Paul Lambert, Ms Roxanne Connelly, Professor Robert M Blackburn, Professor Vernon Gayle, 2013-02-28 Research into social stratification and social divisions has always been a central component of sociological study. This volume brings together a range of thematically organised case studies comprising empirical and methodological analyses addressing the challenges of studying trends and processes in social stratification. This collection has four themes. The first concerns the measurement of social stratification since the problem of relating concepts, measurements and operationalizations continues to cause difficulties for sociological analysis. This book clarifies the appropriate deployment of existing measurement options and presents new empirical strategies of measurement and interpretation. The conception of the life course and individual social biography is very popular in modern sociology. The second theme of this volume exploits the contemporary expansion of micro level longitudinal data and the analytical approaches available to researchers to exploit such records. It comprises chapters which exemplify innovative empirical analysis of life course processes in a longitudinal context thus offering an advance on previous sociological accounts concerned with longitudinal trends and processes. The third theme of the book concerns the interrelationship between contemporary demographic, institutional and socioeconomic transformations and structures of social inequality. Although the role of wider social changes is rarely neglected in sociological reviews, such changes continue to raise analytical challenges for any assessment of empirical differences and trends. The fourth theme of the book discusses selected features of policy and political responses to social stratification. This volume will be of interest to students, academics and policy experts working in the field of social stratification. **Social**

Social Stratification [sound Recording] : Canada James E. Curtis, William G. Scott, 1982 **Canadian Society in the Twenty-First Century, Fourth Edition** Trevor W. Harrison, John W. Friesen, 2021-03-03 Confederation may have established Canada's nationhood in 1867 but the relationships framing Canada's modern existence go back much further. Employing a unique socio-historical perspective, *Canadian Society in the Twenty-First Century* examines three formative relationships that have shaped the country: Canada and Quebec, Canada and the United States, and Canada and Indigenous nations. Now in its fourth edition, this engaging text offers students an overview of Canadian society through a series of connections rather than a collection of statistics. Trevor W. Harrison and John W. Friesen weave together complex aspects of the nation's economic, political and socio-cultural development. They guide readers to use this interdisciplinary framework to consider some of the tough questions that Canada is likely to face in adjusting to demands and challenges in the next few decades. Reflecting the most current scholarship in the field, this revised edition features new discussions on issues such as the current crisis of neo-liberal globalization, Canada's petroleum industry, global warming, the Wet'suwet'en dispute in 2020 and the COVID-19 pandemic. Exploring the unique character of Canada today, this text is a vibrant resource for sociology.

courses on Canadian society as well as courses in Canadian studies and Canadian history Social Inequality in Canada
Edward G. Grabb, Neil Guppy, 2008 *Social Inequality in Canada* is a collection of twenty eight articles that cover all of the major aspects of social inequality The text covers two broad components objective or structural conditions of social inequality power poverty and wealth occupations and educational attainment in particular and ideologies that help support these differences Readers who would prefer a more egalitarian society than currently exists in Canada will find reasons for both optimism and pessimism in the research presented here The studies in this collection demonstrate that some types of inequality are generally becoming more marked over time while others have considerably diminished and still more that show little change in recent decades **Ideological Perspectives on Canada** M. Patricia Marchak, 2011 In *Ideological Perspectives on Canada* Patricia Marchak builds on her earlier descriptions of Canadian reality its liberalism and socialism to argue that today's corporatism differs from its forerunners in both its values and its definition of society Marchak argues that liberalism and socialism have many commonalities such as the goals of equality and freedom for citizens Corporatism however is opposed to equality and promotes an authoritarian hierarchy resembling the older conservative ideology To support her argument Marchak provides a general overview of the study of ideologies analyzes liberalism and socialism in the context of Canada and uses Marxist theory to explain past and present class structure and the emergence of a corporatist social structure A valuable contribution to the debate about the society we live in *Ideological Perspectives on Canada* attempts to look at ideologies from an objective standpoint while admitting that analysts can never fully remove themselves from the web of their own society which in the Canadian case is steeped in liberalism socialism and corporatism *Social Inequality in Canada* James E. Curtis, 1988 **Concepts of Social Stratification** A. Hess, 2001-07-19 This book looks at how sociological concepts that were first invented and applied to describe social inequality in Europe were also used to understand and explain inequality in the United States However under very different circumstances and conditions the concepts needed to be adjusted either through changing their precise meaning or by using related concepts In *Concepts of Social Stratification* the author tries to analyse this change by looking at how some of the most prominent American sociologists have tried to conceptualise their own society while at the same time addressing the complex relationship between an assumed political equality and de facto social inequality **Introduction to Sociology: Canadian Version**
