Social Structure and Personality Yehudi A. Cohen, 1961 Collection of papers including paper by W Lloyd Warner separately annotated **Social Structure and Personality** Yehudi Aryeh Cohen, 1964 Social Structure and Personality Yehudi A. Cohen, 1964 **The Ways of Friendship** Amit Desai, Evan Killick, 2010-08-01 Friendship is an essential part of human experience involving ideas of love and morality as well as material and pragmatic concerns Making and having friends is a central aspect of everyday life in all human societies Yet friendship is often considered of secondary significance in comparison to domains such as kinship economics and politics How important are friends in different cultural contexts What would a study of society viewed through the lens of friendship look like Does friendship affect the shape of society as much as society moulds friendship Drawing on long term ethnographic fieldwork in Asia the Middle East Africa Latin America and Europe this volume offers answers to these questions and examines the ideology and practice of friendship as it is embedded in wider social contexts and transformations Family Studies Anuja Agrawal, 2024-10-31 Within the social political and economic contexts existing in modern day India family is neither a simple remnant of tradition nor a domain merely representing insulated private lives Rather it is implicated in malleable yet overpowering structures relationships and practices If the family is a crucial site of ideological and imaginative investments playing a critical role in reproducing and defining contemporary selves and societies families are responsive to and constrained by the complex dynamics in which they are enmeshed Family relationships remain fundamental to survival and security even as policy and legislative imperatives as well as reproductive and communication technologies play a crucial role in reshaping them Critically interrogating the extant approaches to and concepts within the study of family Family Studies brings together diverse contributions by scholars from varied backgrounds to focus upon issues central to the conceptualization of family and their implications for Indian society The chapters in this volume make a strong case for why family as an ideological construct and families as a multitude of lived relationships should continue to be subjects of critical social scientific attention **A Pattern Language** Christopher Alexander, Sara Ishikawa, Murray Silverstein, 1977 Two hundred and fifty three archetypal patterns consisting of problem statements discussions illustrations and solutions provide lay persons with a framework for engaging in architectural design *Friendship in the Classical World* David Konstan, 1997-02-06 An examination of the nature of friendship in Greece and Rome from Homer to the Christian Roman Empire of fourth century AD *Anthropology* Raymond Scupin, Christopher R. Legal Systems and Incest Taboos John R. Commons, Yehudi A. Cohen, 2017-07-12 The goal of this book is to investigate why there are two distinct notions of liability in the legal and ethical systems of different societies the relationship between two sets of criteria of liability and the individual's evolution from childhood adolescence The specific ways in which different societies cope with the transition from childhood to adolescence are important because a sense of responsibility consonant with the goals of the society and survival of family and culture is implanted in the growing child The ways in which incest taboos are taught constitute one of the crucial modes by which a sense of responsibility is implanted within an individual during his transition from childhood to adolescence The author places most of his focus on social systems the transition from childhood to adolescence Theoretical concerns are with the ways in which human biology and human social structures impact each other The fact that wide variations do exist among societies in connection with certain types of incest taboos does not lead inevitably to the conclusion that there is no biological basis for the incest taboo The immediate impression of variability can be misleading extreme differences between cultures in the same institutional realm as between individuals often reveals remarkable regularity and consistency These regularities are seen in the cultural phenomena the assumption that biology and culture are bound up in their manifestations is fundamental in understanding their nature

Friendship Reconsidered P. E. Digeser, 2016-09-06 In the history of Western thought friendship's relationship to politics is checkered Friendship was seen as key to understanding political life in the ancient world but it was then ignored for centuries Today friendship has again become a desirable framework for political interaction In Friendship Reconsidered P E Digeser contends that our rich and varied practices of friendship multiply and moderate connections to politics Along the way she sets forth a series of ideals that appreciates friendship's

many forms and its dynamic relationship to individuality citizenship political and legal institutions and international relations Digeser argues that as a set of practices bearing a family resemblance to one another friendship calls our attention to the importance of norms of friendly action and the mutual recognition of motive Focusing on these attributes clarifies the place of self interest and duty in friendship and points to its compatibility with the pursuit of individuality She shows how friendship can provide islands of stability in a sea of citizen strangers and in a delegitimized political environment a bridge between differences She also explores how political and legal institutions can both undermine and promote friendship Digeser then looks to the positive potential of international friendships in which states mutually strive to protect the just character of one another s institutions and policies Friendship s repertoire of motives and manifestations complicates its relationship to politics Digeser concludes but it can help us realize the limits and possibilities for generating new opportunities for cooperation

'Ungainefull Arte' Richard A. McCabe, 2016-02-05 From antiquity to the Renaissance the pursuit of patronage was central to the literary career yet relationships between poets and patrons were commonly conflicted if not antagonistic necessitating compromise even as they proffered stability and status Was it just a matter of speaking lies to power The present study looks beyond the rhetoric of dedication to examine how traditional modes of literary patronage responded to the challenge of print as the economies of gift exchange were forced to compete with those of the marketplace It demonstrates how awareness of such divergent milieux prompted innovative modes of authorial self representation inspired or frustrated the desire for laureation and promoted the remarkable self reflexivity of Early Modern verse By setting English Literature from Caxton to Jonson in the context of the most influential Classical and Italian exemplars it affords a wide comparative context for the reassessment of patronage both as a social practice and a literary theme
