The Teacher's Guide to Media Literacy Cyndy Scheibe, Faith Rogow, 2012 A Deeper Sense of Literacy is the first book to suggest that media literacy is both a content area and an approach to teaching that can be integrated into any subject area. It combines theory and practical application in a way that addresses the most important questions related to media literacy in education today: what is it, why is it important, how can you teach it across a wide range of curriculum areas and grade levels, and does it work? Rather than focusing on how to teach media literacy, Scheibe and Rogow focus on actually using media literacy to teach lessons across the content areas. *Resources in Education*, 2001

*Formative Assessment* Harry Grover Tuttle, 2014-01-09 This how-to book on formative assessment is filled with practical suggestions for teachers who want to use formative assessment in their classrooms. With practical strategies, tools, and examples for teachers of all subjects and grade levels, this book shows you how to use formative assessment to promote successful student learning. *Research in Education*, 1974

**The Complete Media Monitor**, 1981 *Library of Congress Catalog: Motion Pictures and Filmstrips* Library of Congress, 1968 Only the Best Association for Supervision and Curriculum Development, Alexandria, VA., 1999 Only the Best is an Association for Supervision and Curriculum Development (ASCD) annual reference containing information on software programs and multimedia applications that have met stringent criteria for excellence. The purpose of this reference is to provide a quick and easy way for curriculum directors, technology coordinators, librarians, teachers, school administrators, students, and parents to find the highest rated materials available. The book uses a two-column format. The left column contains information such as subject area and grade levels served, cost, and hardware requirements. The right column holds an in-depth description of the program as well as helpful tips from evaluators. Programs that cater to special needs students are highlighted in the right column. An Interdisciplinary Index is provided that allows users to locate programs appropriate for a specified subject area or across the curriculum. A software publisher directory and title index are also provided. This year's edition features 93 programs new to Only the Best as well as 16 Classics. New to the 1999/2000 edition is the listing of Multiple Intelligences as a feature in each of the program descriptions, as well as the introduction of a Multidisciplinary category. The body of the reference consists of full-length program descriptions listed alphabetically by subject. A section on the evaluation process, list of highest rated programs for 1999/2000, and Only the Best Classics are included. AEF
