Social Welfare Development in East Asia K. Tang, 2000-10-03 Comparative social policy has long neglected welfare development in Asia Not much is known about social welfare in the economically successful East Asian tigers Hong Kong Korea Singapore and Taiwan They are late starters in social welfare but each has its own trajectory of welfare development Despite the presence of extensive social welfare they have shied away from western style welfare states The presence of strong developmental states and their development ethos explain in large part the underdevelopment of state welfare

**Handbook on East Asian Social Policy** Misa Izuhara, 2013-01-01 Dramatic socio economic transformations over the last two decades have brought social policy and social welfare issues to prominence in many East Asian societies Since the 1990s and in response to national as well as global pressure there have been substantial developments and reforms in social policy in the region but the development paths have been uneven Until recently comparative analysis of East Asian social policy tends to have focused on the established welfare state of Japan and the emerging welfare regimes of four Tiger Economies Much of the recent debate indeed preceded Chinas re emergence onto the world economy In this context this Handbook brings China more fully into the contemporary social policy debates in East Asia Organised around five themes from welfare state developments to theories and methodologies to current social policy issues the Handbook presents original research from leading specialists in the fields and provides a fresh and updated perspective to the study of social policy Providing a comparative international approach this Handbook will appeal to academics researchers and students at both undergraduate and postgraduate levels working in the fields of social policy as well as policy makers and practitioners who are interested in social policy lessons from other societies

*The Emergence of the East Asian Welfare State* Marc Haufe, 2005-08-18 Thesis M A from the year 2005 in the subject Sociology Social System and Social Structure grade 1 7 [http://www.uni-jena.de/Institut\\_für\\_Soziologie/language/English/abstract/](http://www.uni-jena.de/Institut_für_Soziologie/language/English/abstract/) This work analyses the specific structural characteristics and development specialities of East Asian welfare states In a historical qualitative and quantitative comparison of welfare development in East Asia and Southern Europe the East Asian tigers despite all intraregional differences are described as welfare societies without welfare state The decisive foundation of this kind of welfarism is a Confucian productivism

The Crisis of Welfare in East Asia James Lee, Kam Wah Chan, 2007-01-01 The Crisis of Welfare in East Asia adopts a unique and critical perspective on contemporary social welfare policies in East Asia This edited volume reflects on current welfare theories and challenges the dominant productivist ideology that overemphasizes the influence of work and family James Lee and Kam Wah Chan bring together authors from different social policy domains to provide an updated assessment of inadequacies and limitations in current social policies as well as the problematic theories guiding them The authors demystify the so called East Asian Welfare Model and reengage themselves in the identification of an appropriate welfare ideology which includes a selective integration of social policy and economic development The Crisis of Welfare in East Asia

is a dynamic and enlightening read that will interest students of public policy and those interested in welfare capitalism

**Discovering the Welfare State in East Asia** Christian Aspalter, 2002-03-30 Aspalter asserts that the belief that the development of high standard welfare states is primarily based on the ideology that pro welfare mostly leftwing parties dominate welfare state literature and common thought in the Western world. Instead, in this examination of the welfare states of East Asia, Aspalter and his contributors show that they grew as naturally as they did in most Western countries but that the reasons for this are other than pro welfare ideologies. The five welfare states Japan, South Korea, Hong Kong, Taiwan, and Singapore are residual welfare states with low levels of welfare benefits and provision when compared to extended welfare states in Western Europe. While East Asian welfare states have experienced a hefty increase in welfare provision that has been regulated or provided by the state since the early 1970s, all five were set up and expanded by conservative governments with clear anti welfare ideologies. The case studies provided by Aspalter and his contributors suggest that welfare state development in East Asia is caused to a large extent by social protests in general and for welfare in particular by competition in democratic elections and by the changing role of women. Social and demographic factors such as the rise of the age structure of the population do not cause welfare state expansion in the first place. They cause street protests and street protests convince all kinds of governments if they rule out the use of force to implement social welfare. Moreover, politicians who are afraid to lose elections also take up welfare issues which they would not do without electoral competition between candidates and parties. As Aspalter makes clear, governments do not have to wait until major protests occur or until they have lost an election in order to promote social welfare. The anticipation of such an event is sufficient. This book provides new insights on the development of welfare systems that will be of particular interest to scholars, students, and other researchers involved with social welfare, East Asian studies, and comparative politics.

*Welfare Reform in East Asia* Chak Kwan Chan, Kinglun Ngok, 2012-11-12 In many Western countries, social welfare payments are increasingly being made conditional on recipients doing voluntary work or attending job training courses, a system known as welfare to work or workfare. Although social welfare in Asia is very different to the West, with much smaller social welfare budgets, a strong self reliance, and a much higher dependency on family networks to provide support, the workfare approach is also being adopted in many Asian countries. This is the first book to provide a comprehensive overview of how welfare reform around work is implemented in leading East Asian countries. Based on the experiences of seven East Asian economies including China, Japan, South Korea, Taiwan, Singapore, Hong Kong, and Macau, this book critically analyses current trends, the social, economic, and political factors which lead to the implementation of workfare, compares the similarities and differences of workfare in the different polities, and assesses their effectiveness.

**Social Welfare in East Asia and the Pacific** Sharlene Furuto, 2013-02-26 In this singular collection, indigenous experts describe the social welfare systems of fifteen East Asian and Pacific Island nations and locales. Vastly understudied, these lands offer key insight into the successes and failures of Western and native

approaches to social work suggesting new directions for practice and research in both local and global contexts Combining international experiences and professional knowledge contributors illuminate the role of history and culture in shaping the social welfare systems of Cambodia China Hong Kong SAR China Indonesia Malaysia the Micronesian region including the Federated States of Micronesia Guam Unincorporated Territory U S A Marshall Islands Northern Mariana Islands Commonwealth U S A and Palau Samoa and American Samoa Unincorporated Territory U S A South Korea Taiwan and Thailand The contributors link the values and issues that concern populaces most to the development of social work practice policy and research Sharlene B C L Furuto then conducts a comparative analysis of the essays including their data and social service programs highlighting the similarities and differences between the evolution of social welfare in these nations and locales She contrasts their indigenous approaches the responses of governments and NGOs to social issues the availability of social work education as well as API models paradigms and templates and the overall status of the social work profession Furuto also adds a chapter comparing the distinct social welfare systems of Samoa and American Samoa The only volume to focus exclusively on social welfare in East Asia and the Pacific this anthology holds immense value for practitioners and researchers eager for global perspectives

**Social Policy and Poverty in East Asia** James Midgley, Kwong Leung Tang, 2009-09-11 This book looks at the role of social policy and particularly social security in addressing the ongoing challenge of poverty in East Asia despite the region's spectacular experience of economic growth in recent decades The East Asian miracle resulted over the last four decades in a transformation of the region's traditional agrarian economies and significant increases in standards of living for many ordinary people Even though it was given little attention poverty has remained an ongoing problem The problem became particularly evident however with the Asian financial crisis of 1997 when many low income and middle class workers became unemployed As a result of this crisis the need for effective social policies and social security programs were recognized The idea that economic growth would solve the problem of poverty was increasingly challenged Even in China today where rapid growth has created new employment opportunities and the promise of prosperity for many the government has recognized that the problem of poverty cannot be addressed only through economic growth but that comprehensive social policies must be formulated and this includes the development of an effective security system

**New Democracy and Autocratization in Asia** Kuyoun Chung, Wonbin Cho, 2022-08-19 This book examines the quality of democracies in Asia and determines why current democracies especially during the so called new normal era following the 2008 financial crisis have become less stable and less resilient to increasing authoritarianism Based on the assumption that the concept of democracy consists of three elements procedure participation competition and distribution of power effectiveness representation accountability and responsiveness and performance social welfare inequality and trust the contributors to this book determine which elements are responsible for diverging trajectories within the Asian democratic recession Examining South Korea Japan Taiwan Singapore Vietnam Indonesia India Myanmar and

China the authors employ different research methods quantitative comparative or individual case studies to explore the conditions under which democratic rules and norms erode over time and which type of governance is preferred by citizens in this region as an ideal type The book puts forward the argument that a procedure oriented concept of democracy is not sufficient for understanding the source of democratic recession and develops a new concept of new democracy based on procedure effectiveness and performance It also demonstrates to what extent the experience changes and how the countries respond to these changes A novel contribution on the state of democracy in Asia written by experts from the region this book will be of interest to academics in the field of political science especially comparative politics and international relations regional study of East and Southeast Asia sociology public policy economics and social science methods Also this book will appeal to think tanks and policy oriented researchers
