Hughes, Richard von Abendorff, Pamela Brown, John Chesterman, 2016-04-01 Supporting People with Dementia at Home details a groundbreaking study of an intensive care management scheme designed for older people with dementia that are at risk of entry into residential care. The authors use a quasi experimental approach to compare how the individuals on the mental health team in one community were matched to a similar community without the service. They analyze the evidence focusing on the eventual placement of the individual suffering the quality of care they receive and also the needs of their carers. This book offers valuable evidence about the factors which can maximize the independence and well being of older people with dementia from the perspective of older people and their carers.
