Socialism In Russia Theory And Practice:

Socialism in Russia Nodari Simonia,1994-02-23 This study by Simonia is among the first to present an in depth analysis of the theory and practical effect of the transition to socialism in Russia The work consists of two parts the first deals with the attempt initiated by Lenin to affect a socialist system the evolution of his theoretical thought and his search for a model of indirect transition to socialism through state capitalism the second analyzes Stalin s direct declaration of state bureaucratic socialism his distortion of the ideas of cooperation state capitalism and socialist accumulation and the failure of his communist society In concluding Simonia relates Russia s socialist development to its current economic and socio political problems providing insights into its tortuous and thorny history Socialism in Theory and Practice Morris Hillquit,1909

Socialism in Russia J. Gooding,2001-12-03 This book asks three fundamental questions about the socialist experiment in twentieth century Russia How did Marxist ideas come to be implemented in Russia a country entirely unsuited to them Why did the experiment lead to such suffering and upheaval and prove so fruitless And why did the attempt to return to a proper Marxism Leninism bring about the rapid collapse of the experiment In its answers this book pays special attention to the shadow cast by Lenin throughout the entire Soviet era **The Theory and Practice of Communism, (People's Republic of China), Hearings ..., 93-1 ...** United States. Congress. House Internal Security,1973 *Socialism, Social Ownership and Social Justice* Leslie J. Macfarlane,2016-07-27 Socialism Social Ownership and Social Justice is concerned with the emergence in Europe over the centuries of dreams and aspirations amongst the poor and weak for new societies of justice and equality based on common ownership and common sharing It ranges from the Greek legendary ideal of a simple communal golden age of equals and the dark reality of Spartan perverted communalism to the collapse of Soviet communism and the abandonment by West European socialist parties of their commitment to transform ruling class dominated capitalist societies into democratic egalitarian socialist societies **Foreign Social Science Bibliographies** ,1965 The Theory and Practice of Communism ... United States. Congress. House. Committee on Internal Security,1973 **Bibliography of Social Science Periodicals and Monograph Series** United States. Bureau of the Census,1961 **Foreign Social Science Bibliographies** United States. Bureau of the Census,1961 **A Comparative Study of Representative Systems** Yezhong Zhou,2024-03-27 This book demonstrates the social and historical conditions for the existence and development of the representative system and uncovers the laws dictating its occurrence development and operation Due to the barriers of language and cultural communication the understanding of democracy differs in western and Chinese cultures which leads to many misinterpretations and even bias The book displays the merits and drawbacks of different forms of democracy on the basis of a comparative study of the different representative systems and argues that different representative systems can co exist side by side and that the selection of the appropriate form of democracy must reflect the actual conditions in a given country Therefore a blind evaluation or criticism is unreliable The book could provide good opportunities for western

scholars to see how the Chinese scholars understand democracy and the representative system help the westerners to understand the forms of democracy with Chinese characteristics and rationality of the socialist people's representative system grasp the true essence of Chinese Constitution and democracy and give up their bias towards China for a better communication and mutual understanding This book constructs a theoretical framework for studying the representative system and provides a solid foundation for its further research promoting the improvement and development of constitutional jurisprudence Even today the comparative study of the basic theories system building and operation of the representative system are of great theoretical significance and practical value in the Chinese political development and reform The book is primarily intended for graduates and scholars in the areas of constitutional jurisprudence on China and abroad It is a must read for constitutional researchers and those who want to know the essential differences between Chinese and Western constitutional jurisprudence

THE CHOICE: ISSUES ON CHINA'S ROAD TO SOCIALISM JIANG Jing, 2021-11-18 This book mainly talks about why and how China has chosen socialism as well as major issues that have served to accelerate its transition from a new democratic country into a socialist society It focuses on Sino Soviet relations and the Soviet assistance in China's economic development national defense industry science technology education and culture in the early years of the People's Republic of China It reviews the difficulties in China's economic recovery and the strategy of overall learning from the Soviet Union over that same period It elaborates on the strategy of heavy industry oriented development and the collectivization of agriculture for China's transition to socialism Using abundant historical examples it will not only enable readers to better understand the formulation and establishment of China's political economic and social systems but also provide chances for international comparison of different models of development It will hopefully contribute to promoting mutual understanding between China and western countries and boosting more inclusive development across the world in economic cultural and social terms In particular it is of a significant reference value for researchers teachers and students engaged or interested in political science economics sinology history cross cultural communication etc It is also recommended for those who are interested in China and the Chinese development

Redeemer Nation Orrin Schwab, 2004 In this book Dr Orrin Schwab develops the concept of the modern technocratic state as part of a global technocratic culture and civilization The author argues that technocratic cultural and institutional forms were and are part of a collective script for Western culture The American script combined the scientific commercial and technological aspects of the Enlightenment with the radical 17th century Protestant belief in America as a new Zion In the twentieth century the synthesis of mission along with global technocratic knowledge and institutions created the Wilsonian liberal technocratic order As the principal agent and protector of the modern capitalist international system America the self defined Redeemer Nation has moved through the controlled anarchy of international relations from one war and crisis to the next confirmed in its self defined role and mission
