**Text in Context** Andrew David Hastings Mayes, 2000-09-07 The scholarly study of the Old Testament is now marked by a rich diversity of approaches and concerns In the last two decades an interest in the text and the implications for its interpretation is no longer the preserve of a single scholarly community while the reconstruction of the history of the people from whom it derived has been transformed by new methods This new book published under the auspices of the Society for Old Testament Study reflects these new approaches and developments and has a particular concentration on literary and historical study Thus it not only clearly recognizes the diversity now inherent in Old Testament study but also welcomes the integration into its field of the wide range of approaches available in current literary and historical investigation The study of the biblical text and how it is received and interpreted by its various readerships has a certain logical priority over the study of its historical background and authorship Yet an ongoing investigation of issues relating to the latter cannot await definitive conclusions on the former So essays on the text and its reception discuss primary issues which arise in Old Testament study while those on background and authorship reflect the continued vitality of and the fresh perspective possible in more traditional scholarly concerns

Israelite Religions Richard S. Hess, 2007-10-15 Archaeological excavation in the Holy Land has exploded with the resurgence of interest in the historical roots of the biblical Israelites Israelite Religions offers Bible students and interested lay leaders a survey of the major issues and approaches that constitute the study of ancient Israelite religion Unique among other books on the subject Israelite Religions takes the Bible seriously as a historical source balancing the biblical material with relevant evidence from archaeological finds

Compassionate Intercultural Care Practices for Coping with Grief James Japheth Sudarshan Harrichand, 2024-03-31 As humans we all express our grief differently Acknowledging this truth Dr James Harrichand examines Old Testament accounts of grief and mourning alongside

the experiences of marginalized Guyanese and Vietnamese immigrant communities in Canada He explores both biblical and pastoral theology through an anthropological lens bridging the horizons of Scripture and culture in a hermeneutically and pastorally sensitive manner Dr Harrichand s focus on prosaic prayers in the Old Testament fills a significant gap in the scholarship but this book is also significant for its immense practicality sensitizing readers to grief s varied expressions and equipping culturally intelligent pastoral caregivers He presents five compassionate intercultural care practices for coping with grief grounding each in the living hope of the redemptive work of Jesus Christ the one who bore our griefs and carries our sorrows
