Society Of Captives A Study Of A Maximum Security:

The Society of Captives Gresham M. Sykes, 2020-09-01 The Society of Captives first published in 1958 is a classic of modern criminology and one of the most important books ever written about prison Gresham Sykes wrote the book at the height of the Cold War motivated by the world's experience of fascism and communism to study the closest thing to a totalitarian system in American life a maximum security prison His analysis calls into question the extent to which prisons can succeed in their attempts to control every facet of life or whether the strong bonds between prisoners make it impossible to run a prison without finding ways of accommodating the prisoners Re released now with a new introduction by Bruce Western and a new epilogue by the author The Society of Captives will continue to serve as an indispensable text for coming to terms with the nature of modern power

The Society of Captives Gresham M'Cready Sykes, 1962 **Mass Imprisonment** David Garland, 2001-07-12 Mass Imprisonment examines what is known about the political and penological causes of the social phenomenon of the US prison system David Garland brings together papers by criminologists sociologists and historians to describe the impact of prison

The Society of Prisoners Renaud Morieux, 2019-10-03 In the eighteenth century as wars between Britain France and their allies raged across the world hundreds of thousands of people were captured detained or exchanged They were shipped across oceans marched across continents or held in an indeterminate limbo The Society of Prisoners challenges us to rethink the paradoxes of the prisoner of war defined at once as an enemy and as a fellow human being whose life must be spared Renaud Morieux redefines how we understand the notion of what a prisoner of war was before international legal and social conventions were introduced in the eighteenth century the distinction between a prisoner of war a hostage a criminal and a slave was not always clear cut Morieux then uses war captivity as a lens through which to observe the eighteenth century state how it transformed itself and why it endured In so doing he invites the reader to trace the history of the prisoners via a journey between Britain France the West Indies and St Helena

highlights 100 of the nearly 8 000 books we have published. Necessarily winnowed from a much larger list, these books best typify what has been most lasting, most defining and most distinctive about our publishing history from Einstein's *The Meaning of Relativity* (1922) to the numerous mathematical and other works that marked the Press's watershed decade of the 1940s, including von Neumann and Morgenstern's *Theory of Games and Economic Behavior*, from milestones of literary criticism by Erich Auerbach and Northrop Frye to George Kennan's Pulitzer Prize-winning book on Soviet-American relations from Milton Friedman and Anna Jacobson Schwartz's *A Monetary History of the United States 1867-1960* to more recent landmarks such as Luca Cavalli Sforza, Paolo Menozzi and Alberto Piazza's *The History and Geography of Human Genes* and Robert Shiller's *Irrational Exuberance*. In addition to succinct descriptions of the 100 titles and a short introduction on the history of the Press, the book features five essays by prominent scholars and writers. Michael Wood discusses the impact on Princeton University Press of intellectuals who fled Nazi Germany and authored many influential books. Anthony Grafton recounts our rich publishing tradition in history, politics and culture. Sylvia Nasar traces our evolution into a leading voice in economics publishing. Daniel Kevles reflects on Einstein, a figure of special importance to Princeton. And Lord Robert May writes on our long-standing tradition of publishing in mathematics and science. *A Century in Books* is more than a celebration of 100 years of publishing at Princeton University Press; it is a treasure trove of 100 years of books that have added to the richness of twentieth-century intellectual life.

Remote Control V. Knight, 2017-01-25 In-cell television is now a permanent feature of prisons in England and Wales and a key part of the experience of modern incarceration. This sociological exploration of prisoners' use of television offers an engaging and thought-provoking insight into the domestic and everyday lives of people in prison with television close at hand. Victoria Knight explores how television contributes to imprisonment by normalising the prison cell. In doing so, it legitimates this space to hold prisoners for long periods of time, typically without structured activity. As a consequence, television's place in the modern prison has also come to represent an unanticipated resource in the package of care for prisoners. This book uncovers the complex and rich emotive responses to prison life. Dimensions of boredom, anger, frustration, pleasure and happiness appear through the rich narratives of both prisoners and staff, indicating the ways institutions and individuals deal with their emotions. It also offers an insight into the unfolding future of the digital world in prisons and begins to consider how the prisoner can benefit from engagement with digital technologies. It will be of great interest to practitioners and scholars of prisons and penology, as well as those interested in the impact of television on society.
