Unity in Diversity Randall J. Pederson, 2014-08-14 Unity in Diversity presents a fresh appraisal of the vibrant and diverse culture of Stuart Puritanism provides a historiographical and historical survey of current issues within Puritanism critiques notions of Puritanisms which tend to fragment the phenomenon and introduces unitas within diversitas within three divergent Puritans John Downname Francis Rous and Tobias Crisp This study draws on insights from these three figures to propose that seventeenth century English Puritanism should be thought of both in terms of Familien hnlichkeit in which there are strong theological and social semblances across Puritans of divergent persuasions and in terms of the greater narrative of the Puritan Reformation which united Puritans in their quest to reform their church and society

Social Welfare in Western Society Gerald Handel, 2009-01-01 Social welfare has a three thousand year history in Western society This book offers a sociological framework that provides conceptual order to the countless details of that history while highlighting its essentials Social welfare in all its forms is based on one central concept help But there are many versions of help and multiple debates about those versions The outcomes of some debates have led

to withholding help and these outcomes are an inescapable part of this domain in the past and in the present. The major versions, their development and the debates are carefully examined in this volume. **Social Welfare in Western Society** argues that in history five basic concepts of help have emerged. These five explored and developed are: charity based on a relationship between private donors and recipients; public welfare based on a relationship between the state and its recipients; social insurance based on a relationship between the state and beneficiaries of its programs; social service based on people skilled in interaction providing skill based time to their clients; mutual aid groups sometimes misleadingly called self help groups whose members are simultaneously helpers and those helped. There are multiple versions of each of these five concepts now usually referred to as social policy issues. There are fierce disagreements about what is helpful and which supposed forms of help are harmful to the wider society. The book concludes that major debates have centered and continue to center around these major issues: Should the poor be helped or punished? Who is to blame? Do the poor have the same rights as other people? Who should pay? Who should decide? What is the effect of receiving welfare on incentive to work? Who should be helped? This is a masterful text designed for professional and public reading. Gerald Handel is professor emeritus of sociology at The City College and The Graduate Center, City University of New York. He is the author of *Making a Life in Yorkville: Experience and Meaning in the Life Course Narrative of an Urban Working Class Man*, editor of *Childhood Socialization* and co editor of *The Psychosocial Interior of the Family*, all published by Transaction Publishers.

Puritan Boston and Quaker Philadelphia E. Digby Baltzell, 2017-07-28. Based on the biographies of some three hundred people in each city, this book shows how such distinguished Boston families as the Adamses, Cabots, Lowells and Peabodys have produced many generations of men and women who have made major contributions to the intellectual, educational and political life of their state and nation. At the same time, comparable Philadelphia families such as the Biddles, Cadwaladers, Ingersolls and Drexels have contributed far fewer leaders to their state and nation. From the days of Benjamin Franklin and Stephen Girard down to the present, what leadership there has been in Philadelphia has largely been provided by self made men, often like Franklin, born outside Pennsylvania. Baltzell traces the differences in class, authority and leadership in these two cities to the contrasting values of the Puritan founders of the Bay Colony and the Quaker founders of the City of Brotherly Love. While Puritans placed great value on the calling or devotion to one's chosen vocation, Quakers have always placed more emphasis on being a good person than on being a good judge or statesman. **Puritan Boston and Quaker Philadelphia** presents a provocative view of two contrasting upper classes and also reflects the author's larger concern with the conflicting values of hierarchy and egalitarianism in American history.

Children and Childhood in Western Society Since 1500 Hugh Cunningham, 2020-06-10. Updated to incorporate recent scholarship on the subject, this new edition of Hugh Cunningham's classic text investigates the relationship between ideas about childhood and the actual experience of being a child and assesses how it has changed over the span of 500 years. Through his engaging narrative, Hugh Cunningham tells the story of

the development of ideas from the Renaissance to the present revealing considerable differences in the way Western societies have understood and valued childhood over time His survey of parent child relationships uncovers evidence of parental love care and in the frequent cases of child death grief throughout the period concluding that there was as much continuity as change in the actual relations of children and adults across these five centuries Since the book's first publication in 1995 the volume of historical research on children and childhood has escalated hugely and is testimony to the level of concern provoked by the dominance of the negative narrative that originated in the 1970s and 1980s A new epilogue revisits the volume from today's perspective analysing why this negative narrative established dominance in Western society and considering how it has affected historical writing about children and childhood enabling the reader to put both this volume and recent debates into context Supported by an updated historiographical discussion and expanded bibliography *Children and Childhood in Western Society since 1500* remains an essential resource for students of the history of childhood the history of the family social history and gender history
