**Corruption in Urban Politics and Society, Britain 1780-1950** John Smith, 2017-05-15 Despite much recent interest in the area of urban governance little work has been done on the changing ethical standards of urban leaderships governing institutions or the policing of public life Yet the issue of ethical standards in public life has become a central concern in contemporary public discourse with issues of public probity moral order and personal standards re emerging as central features of political debate This volume places these debates into their historical perspective by examining the linkages between processes of modernisation urbanisation and the ethical standards of governance and public life It considers how ethical debates arise as a result of differential access to positions of authority and from competition for public resources The contributions are drawn from a wide range of scholarly and disciplinary backgrounds and provide a broad analysis of the phenomenon of corruption assessing how debates about corruption arose the narratives used to criticise established modes of public conduct and their consequences for urban leadership

**History of Transparency in Politics and Society** Jens Ivo Engels, Frédéric Monier, 2020-08-10 Today the demand for transparency is omnipresent In particular transparency is considered a prerequisite for good governance for political participation and democracy On closer inspection however transparency proves to be ambivalent For complete transparency has not yet been achieved anywhere Moreover measures to increase transparency can have the opposite effect and stir up mistrust Historians are just beginning to discover this topic The volume assembles contributions covering European history since the 19th century The contributors focus on political and cultural history but include also economic and media history as well as the history of ideas They

analyse publicly debated demands and efforts for transparency conceived as the access to information or its disclosure

**The Triumph of the Flexible Society** Manuel Hinds, 2003-11-30 Hinds takes offers a fresh perspective on the social political and economic disturbances now affecting our world This book looks at those disturbances not as separate problems but rather as the coherent symptoms of a deep technological revolution that is changing the shape of society on the scale of the Industrial Revolution the Connectivity Revolution the basis of the New Economy Analyzing the resistance to change that erupted violently in response to that last major economic upheaval Hinds shows how Communism Nazism and fundamentalism owe their triumphs not to the prevalence of poverty or oppression but to the rigidity of societies threatened by profound social changes prompted by rapid technological progress Demonstrating that their rigidity was caused by the same kind of state intervention in the economy that is now being proposed to stop globalization he argues persuasively that only a horizontal flexible society can smoothly manage change in such a way that the pain of transformation and therefore the risk of giving birth to new varieties of destructive regimes is minimized

**Business and Society** Sonya Scott, Kean Birch, Richard Wellen, Audrey Laurin-Lamothe, 2023-08-10 Corporations dominate our worlds They employ us sell to us and influence how we think and who we vote for All aspects of this relationship are explored from an historical analysis of the spread of capitalism to the regulation ethics and exclusionary implications of business in contemporary society The book also examines how corporate power and capitalism might be resisted and outlines a range of alternatives from the social economy through to new forms of open access or commons ownership This second edition includes new chapters that explore how global crises such as the Covid 19 pandemic and the climate emergency have exposed tensions within and among national business systems It also addresses the need for new ways of holding business accountable in the era of digital platforms like Facebook Google and Amazon which use algorithmic personalization to exert private control over the infrastructure of our societies

**The Hyperlinked Society** Lokman Tsui, 2009-12-11 Links are among the most basic and most unexamined features of online life Bringing together a prominent array of thinkers from industry and the academy The Hyperlinked Society addresses a provocative series of questions about the ways in which hyperlinks organize behavior online How do media producers considerations of links change the way they approach their work and how do these considerations in turn affect the ways that audiences consume news and entertainment What role do economic and political considerations play in information producers creation of links How do links shape the size and scope of the public sphere in the digital age Are hyperlinks bridging mechanisms that encourage people to see beyond their personal beliefs to a broader and more diverse world Or do they simply reinforce existing bonds by encouraging people to ignore social and political perspectives that conflict with their existing interests and beliefs This pathbreaking collection of essays will be valuable to anyone interested in the now taken for granted connections that structure communication commerce and civic discourse in the world of digital media This collection

provides a broad and deep examination of the social political and economic implications of the evolving web based media environment The Hyperlinked Society will be a very useful contribution to the scholarly debate about the role of the internet in modern society and especially about the interaction between the internet and other media systems in modern society Charles Steinfield Professor and Chairperson Department of Telecommunication Information Studies and Media Michigan State University Joseph Turow is Robert Lewis Shayon Professor at the Annenberg School for Communication University of Pennsylvania He was named a Distinguished Scholar by the National Communication Association and a Fellow of the International Communication Association in 2010 He has authored eight books edited five and written more than 100 articles on mass media industries His books include Niche Envy Marketing Discrimination in the Digital Age and Breaking up America Advertisers and the New Media World Lokman Tsui is a doctoral candidate at the Annenberg School for Communication University of Pennsylvania His research interests center on new media and global communication Cover image This graph from Lada Adamic s chapter depicts the link structure of political blogs in the United States The shapes reflect the blogs and the colors of the shapes reflect political orientation red for conservative blogs blue for liberal ones The size of each blog reflects the number of blogs that link to it digitalculturebooks is an imprint of the University of Michigan Press and the Scholarly Publishing Office of the University of Michigan Library dedicated to publishing innovative and accessible work exploring new media and their impact on society culture and scholarly communication Visit the website at [www.digitalculture.org](http://www.digitalculture.org)

**Top Drawer: American High Society from the Gilded Age to the Roaring Twenties** Mary Cable, 2018-01-19 The age of high society in the United States was remarkably brief but also glorious The names of the families of people we know from Astor to Vanderbilt McCormick to Palmer Cabot to Whitney and the places they called home Fifth Avenue Newport Euclid Avenue in Cleveland Prairie Avenue in Chicago Delmonico s ballroom still evoke glittering images of style wealth and often outrageous show The era of The 400 with all its glamour gentility and pretension is marvelously evoked in this book Top Drawer is affectionate and ironic by turns pointing out for example that the American elite were the greatest art patrons since the Renaissance yet recounting scandals and foibles with a knowing eye that never loses sight of the ruthless quest for power that underlay the gilded surface The hoi polloi get their own back at the hoity toity in Top Drawer Mary Cable s witty social history of the Gilded age of Astors Vanderbilts Van Rensselaers Havemeyers Chatfield Taylors et al A stylish performance Cable s polished prose cool wit and extensive research make illuminating history and grand entertainment Publishers Weekly [Journal of the Illinois State Historical Society](#) Illinois State Historical Society, 1920 *International Business-Society Management* Rob van Tulder, Alex van der Zwart, 2005-12-16 In the twenty first century as traditional divides are redefined bargaining over corporate responsibilities has increasingly centred around corporate reputation and the question of whether businesses are part of society s problems or part of their solution This ground breaking book treats issues strategies and societal interaction in a homogenous manner and analyzes the nature of

the international bargaining society as it has matured. Discussing and contextualizing contemporary debates on international corporate social responsibility, globalization and the impact of reputation, this key text integrates them into a new and coherent framework: Societal Interface Management. Using this unique framework, it explores the interfaces between international corporations, governments and civil society representatives. Analytic and revealing, the text applies the framework to in-depth studies of Nike, Shell, Triumph International, GlaxoSmithKline and ExxonMobil. It investigates the conflicts surrounding Burma blood diamonds, child labour, oil spills, food safety, patents on HIV/AIDS medication and labour rights that have resulted in a large number of disciplining activities. An accompanying website [www.ibsm.org](http://www.ibsm.org) contains additional case studies as well as issue dossiers on the challenges confronting international firms. Drawing on a wealth of experience both in research and teaching, the authors have developed a text that integrates reputation, responsibility, ethics and accountability. Clearly constructed, it is a must-have book for all those studying or teaching business ethics, political economics, economic geography, public relations and corporate social responsibility.

*The Making of Modern English Society from 1850* Janet Roebuck, 2005-08-04 In the second half of the nineteenth century and the first half of the twentieth century, a variety of forces emerged which changed society in many profound and subtle ways. *The Making of Modern English Society from 1850* uses the findings of recent historical and sociological research, contemporary literature and a wide range of historical sources to form a clear picture of the main patterns of the social changes which took place in this turbulent period. Jane Roebuck shows how in these hundred years the whole fabric of society altered more rapidly and radically than in any preceding century. She gives an account of the dramatic change which occurred in all spheres of national life. She demonstrates how the drift towards socialism which began in the nineteenth century gathered momentum in the twentieth and how massive social change was the product of the two world wars. In the field of economics, the author considers the development of the maturing but still primitive industrial economy of the mid nineteenth century into a modern economy based on mass production and mass consumption. She also describes the change in emphasis from desire for world power to concern for domestic prosperity and welfare services.

Business, Society and Global Governance Anna Ya Ni, Montgomery Van Wart, 2022-12-05 *Business, Society and Global Governance* is a thoroughly revised and updated new edition of *Building Business-Government Relations: A Skills Approach* to ensure this successful book continues to be the go-to textbook introducing US business-government relations in the institutional context of the United States. Written from a practitioner's perspective, it provides historical, descriptive and comparative accounts of the public and private sectors, the different roles government plays with business, including several

conceptual models to contextualize the two sectors and various economic policies associated with business. Business government relations are considered through three different social economic contexts: the socio-political arena, local economic development, and the global market. This new edition includes extended coverage of the role of nonprofits, the Trump era, and effect of the Biden presidency. The positive and negative effects of technology in society and the increasing role of disinformation, COVID, and the role of government in crises. In the course of discussion, a set of skills such as searching, government jobs, starting a business, analyzing stakeholders, ethical reasoning, advancing a business agenda, leveraging public resources, contracting with government, interpreting global trends, doing business abroad, and leveraging international resources are introduced and exercised.

Global Perspectives on Media Events in Contemporary Society Fox, Andrew, 2016-02-25. Media events have been described as broadcasts that involve an engaged audience viewing the same event simultaneously, though this definition is still relevant. The way media outlets interact with and react to their audiences has greatly changed. This is in part due to the emergence of social media platforms which allow a participatory audience something that genre-specific television channels now rely on. Because these genre-specific 24-hour channels seek to hook viewers with hyperbolic presentation and the illusion of large media events, the original definition must be adapted. Global Perspectives on Media Events in Contemporary Society seeks to re-define the role of the media in relaying information about current events within a modern context. Determining what constitutes as and the proper presentation of a media event is of great importance given the ubiquity of media consumption. This book approaches the topic from historical, ceremonial, and globally cultural perspectives while addressing news, sports, and other significant current events. It is a vital resource for students and teachers of communication, media, and journalism professionals in the media industry, policy makers, and sociologists.
