Trethewey, 2014-05-18 *Introducing Comparative Education* aims to familiarize newcomers with comparative education as a field of study and to provide a continuing reference as people become more actively involved with comparative studies and the problems associated with developing them in rigorous and productive ways The purposes and methods of comparative education are also discussed Comprised of eight chapters this book begins by presenting a neat simple and generally accepted definition of comparative education The reader is then introduced to the history and development of comparative education the purposes of comparative education some of the pitfalls in trying to compare education or educational systems across cultural and national boundaries and some of the alternative methods open to those who would like to develop studies in comparative education The approaches associated with Isaac Kandel Nicholas Hans and G Z F Bereday Brian Holmes Edmund King Harold Noah and Max Eckstein are considered The book concludes with a listing of resources for teaching and learning This monograph is intended for students and educators **Combermere School and the Barbadian Society** Keith A. Joseph Katz, 2017-04-05 *Society Schools and Progress in Canada* provides insights into the way people from various cultures live and work together thereby building a new society. The book briefly describes the history of the transformation of Canada in terms of its social, economic and political institutions. The change from a rural and agricultural to an urban and industrial country affects the way of life. This change makes local and migrant people find security through education. After tracing the roots of the different people making up Canada, the societies and communities found in the country are explained through demographics. The author then notes that changes in attitude toward health care, physical developments and social work naturally followed. A big part of the book deals with education, explaining the educational set up of the country that includes denominational and military schools. Additional detail is then given to primary, elementary, secondary schools and to colleges and universities. The training and education of elementary, secondary, vocational and teachers are discussed. The role of technology such as television, radio, broadcasting and computers in education are described. Although Canadian educational facilities are considered one of the best in the world, the book looks into possible reforms covering administration, school grounds and buildings, curriculum and educational organizations. Special topics such as religion in schools, sex education, penitentiary programs and an increasing population are also discussed. The text makes for interesting and informative reading for educators, historians, students and teachers in education and migrant families to Canada. *Missionary Register*, 1832 **New Society**, 1971 Education, Culture, and Politics in West Germany

Arthur Hearnden, 1976 *Education Culture and Politics in West Germany* focuses on the educational system of West Germany in the post-war period. This book is divided into nine chapters that specifically tackle the economic recovery, social development and political system of West Germany. **Caribbean Quarterly**, 1972 **Caribbean Studies**, 1972 *Education, Culture, and Politics in Modern France*

W. D. Halls, 1976 **Other Schools and Ours** Edmund James King, 1973 **Education and Society in the Commonwealth Caribbean** Errol Miller, 1991 **The Publishers' Trade List Annual**, 1979 **Planning and Educational Development in the West Indies, 1952- 1972** Francis G. B. Caesar, 1977 *Comparative Studies and Educational Decision* Edmund J. King, 2012 This volume offers a conceptual justification and methodology for comparative studies of education matching developments in the social sciences and other comparative disciplines.
