*Remarks On Existential Sociology* JACK R. ERNEST,2020-01-20 This is a companion book to my two other books *Remarks On Existential Nihilism* and *Remarks On Existential Therapy* If you enjoyed reading those books this book approaches similar themes In this book I discuss how peoples unhappiness has a social dimension to it As in you can predict one's misery by virtue of the fact that individuals are part of society I also have chapters on Narcissism and Gratitude

**The Existential Sociology of Jean-Paul Sartre** Gila J. Hayim,1980 In chapter one I cover the basic concepts developed in *Being and Nothingness* notable those of temporality negation anguish and bad faith In chapter two I move from the individual as the center of free action to the individual in relation to the Other In chapter three I attempt to unify the perspectives in the first two chapters and present a theory of action In chapter four I introduce the reader to the Critique and establish its thematic links with *Being and Nothingness* In chapter five I analyze the ramifications of the concept of the practico inert which for Sartre is inseparable from human sociality In chapter six I deal with the concept of organization which refers to the contradictions within the social group as it moves into advanced stages of social integration In chapter seven I cover the concepts of power and authority Chapter eight deals with the idea of dialectical humanism and highlights essential concepts in the work by way of concluding it Introduction

*Existentialism and Sociology* Ian Craib,1976-05-06 A revision of the author's thesis Manchester University Bibliography p 229 237 Includes index

**Situation and Human Existence** Sonia Kruks,2019-04-15 Social philosophy oscillates between two opposing ideas that individuals fashion society and that society fashions individuals The concept of situation was elaborated by the French existentialist thinkers to avoid this dilemma Individuals are seen as actively situating themselves in society at the same time as being situated by it This book first published in 1990 traces the development of the concept of situation through the work of Gabriel Marcel Jean Paul Sartre Simone de Beauvoir and Maurice Merleau Ponty It shows how it illuminates questions of self or subjectivity embodiment and gender society and history and argues that it goes far beyond the currently fashionable notions of the death of the subject

**Towards a Critical Sociology** Zygmunt Bauman,1976 *Existentialism & Sociology* Gila J. Hayim,1980 *Existentialism and Sociology* originally published under the title *The Existential Sociology of Jean Paul Sartre* is the first work to systematically and critically analyze the existential ideas of Jean Paul Sartre and to demonstrate their importance and connection to central sociological categories found in the theories of Weber Durkheim Freud Mead and others Drawing also on sociological and Hegelian social thought Hayim analyzes key existential concepts of negation temporality choice anguish

and bad faith and carefully situates them in the different relations of self to the other relations of indifference and destruction as well as relations of engagement and pledge. She joins the two orders of being ontology and sociology and establishes intellectual and ethical continuity between the phenomenology of Being and Nothingness, Sartre's momentous early work and neglected sociological categories in his later works *Critique of Dialectical Reason* and *Notebooks for an Ethics*. Hayim makes accessible to the social scientist a rich repertoire of existential motifs and perspectives on community and group interactions and their inextricable bond to the life practice of the individual. Distinguishing among social groups as different orders of social consciousness and organization, Hayim addresses issues of transcendence and inertia, leadership and authority, freedom and bondage, bureaucracy and control, and identifies Sartre's concept of the *practico-inert* as the radical center of our intersubjectivity today and its threat to human intelligibility. The author contends that the massive language of a sociology of things instills in the human actor a feeling of helplessness and gross inferiority vis-à-vis the social world. She offers in contrast the existential emphasis on the importance of substituting live human experience for mechanistic processes of explanation and of establishing a language of conscious choice and responsibility in place of the massive language found in orthodox social analysis. The new introductory essay suggests the influence of Sartre on new discourses in sociological and social psychological theory especially with reference to our contemporary disaffection with classical notions of emancipation and other universalized discourses as well as in reference to current debates on essentialism and self-identity. Hayim's book will interest a wide variety of readers including philosophers, sociologists, admirers of Sartre's theories and students of existentialism.

**Existentialism Versus Marxism** George Novack, 1966. There is an increasing division between Existentialism and Marxism despite Jean Paul Sartre's attempts to bridge these two influential philosophies of the twentieth century. The chief difference lies in the rational and irrational conceptions of the nature of the universe and of society. The expression of this condition has become vehement and widespread as is indicated in *Existentialism versus Marxism*. Included in this original and rich anthology are such classical figures as Nietzsche, Marx and Engels and such modern thinkers as Sartre, Camus, Marcuse, Lukacs, Schaff et al. The editors' illuminating introduction sets up the battle lines clearly enabling the reader to understand the meaning and engage in the excitement of the confrontation.

**Towards a Critical Sociology (Routledge Revivals)** Zygmunt Bauman, 2010-02-08. For the better part of its history, sociology shared with commonsense its assumption of the nature-like character of society and consequently developed as the science of unfreedom. In this powerful and engaging work first published in 1976, Professor Bauman outlines the historical roots of such a science and describes how the new trends in sociology emerging from phenomenology and existentialism do not challenge this preoccupation. Rather, he claims, they deepen and extend it by stressing the key role of commonsense, particularly the ways in which it is sustained and embedded in the routines and assumptions of everyday life. Professor Bauman sets out the form of a critical sociology based on emancipatory reason. His main concerns are the validity of commonsense and the truth

of a theory which would resolve to transcend the limitations of commonsensical evidence Aimed at human liberation A Critical Sociology is designed to question the very same routines and assumptions of everyday life informed by commonsense

**My Existentialism** Leslie Herzberger, 2006-04-01 The history of the United States in the last thirty years its preoccupation with the Vietnam War and the devastating affects of that war on the psyche of this nation is evidence of a foreign policy tragedy Foreign policy tragedy brings domestic tragedy in its wake The purpose of this study is to work out why the approaches to social revolution and that is what the Vietnam War was about have been wrong on both sides of the ideological spectrum the last thirty years in the U S point out why they were wrong point to where they were wrong and point to the consequences of acting in a society when the perceptions are in certain respects wrong Let me sum up my perception on what went wrong in Vietnam It was a Right wing war fought on Left wing premises It was a war that could not have been won because those who designed it would not or could not win it but were also afraid of losing it It was a war that was wrongly perceived by both sides of the ideological spectrum The Liberal argument was that America tried everything and still lost it The Conservative argument was that it could have been won if the opposition had not tied their hands keeping them from an all out effort that would have been required to win it The war was started in earnest by the Liberals under Kennedy The strategy was to roll up the enemy by hitting on the peasant and through it cut off the leaders Pacification education re education indoctrination and the introduction of self defense techniques to the South Vietnamese peasants was meant to stop the revolution exported from the North in its tracks The U S policy was predicated on the assumption that the peasants really had something to do with the ruling functions of the North Vietnamese revolution after Thermidor that after the onset of Thermidor after the institutionalization of the revolution in Hanoi the revolution was still revolution The Liberal approach has believed that revolution is tantamount to Mao s view of it in China peasants all immersed in the revolutionary process as fish in the sea And so you would have to drain the very ocean itself to stop it Our approach to the post revolutionary process is that after the onset of Thermidor in a society revolution is a bunch of terror informed super bureaucrats at the center of a society increasingly cut off from the periphery In a post revolutionary society it is the leaders that matter not the fish in the sea So bombing the small fish into fish soup hell in response as did the West in Vietnam in that war every tree every outhouse every shack and every village until they drop so much ordinance that the entire region is brain dead from defoliants and pockmarks and natural calamities while leaving the center untouched would seem insane Yet that was the policy in Vietnam of America And then nothing happened Nothing happened week after week year after year except that America itself was being driven mad doing the same thing and expecting it to come out different That as the President elect said in 1993 was and is insanity But what choice did they all have The pro war liberal American leadership that designed the war in Vietnam did not dare bomb Hanoi the capitol of North Vietnam for fear of triggering World War III with Red China and with Soviet Russia both of whose client North Vietnam was So they tied their own hands figuring that by

coming through the back door fish in the sea style piece by piece nobody will notice in China and Russia ergo no World War III So they took a strategy that was insane and made a virtue out of its necessity They      Society and the Absurd S. Giora Shoham,2005 There is an unbridgeable controversy between the functionalist sociologist who anchors his theories on society and the group and the existentialist who bathes his thoughts on the individual Durkheim and Parsons as well as many contemporary American sociologists are adjustment based in the sense that all those individuals who rock the boat even if they are creative innovators would be labelled deviant or mad The existentialists from Kierkegaard to Buber regard the individual as the focus of life they see philosophy and society as at best a curbing control structure and at worst coercing stigmatizing and ostracizing The present volume treads in the giant footsteps of Albert Camus who saw the absurd as the conflictual encounter between the individual and society Society and the Absurd attempts to overcome this deep sociological controversy by investigating absurdity through the prism of an interdisciplinary theory of personality
