their narrative and material *modus operandi* These works in and of progress feel both contemporary and retro in the 21st century They draw upon and work against our expectations of interactive art in the digital age incorporating and likewise rejecting digital forms and practices This underlines the material and narrative flexibilities of the objects for no outcome or reading experience is the same or can be replicated It becomes apparent that the texts presuppose a reader who invests her spare time in figuring these texts out diagnosing a contorted work leisure dichotomy working these stories out is a significant part of the reading experience for the reader curatorial labor This conjures up a reader who as the author argues is turned into a curator and creative entity of and in these texts for she implements and reassembles the options made available **A**
