Kenneth Womack, Kathryn B. Cox, 2017-07-03 For the Beatles 1967 marks a signal crossroads that would both transform the group's career and place them on a trajectory towards their eventual disbandment It was a year in which they exploded prevailing rock music demographics through the global onslaught and international success of Sgt Pepper's Lonely Hearts Club Band beginning in June 1967 Yet it was also a period that saw them in a precarious state of flux throughout the summer and fall months as the band attempted to recapture their artistic direction in the wake of Sgt Pepper and the untimely death of manager Brian Epstein The Beatles Sgt Pepper and the Summer of Love draws readers into that pivotal year in the life of the band For the Fab Four 1967 would see the band members part ways with psychedelia and the avant garde through the trials and tribulations of the Magical Mystery Tour a project that resulted in a series of classic recordings while at the same time revealing the bandmates aesthetic vulnerabilities and failings as would be filmmakers and auteurs      *Interdisciplinary Essays on Environment and Culture* Luigi Manca, Jean-Marie Kauth, 2015-12-24 This is a collection of essays about the media the environment and the whole of humanity at the brink of extinction As the demands of overpopulation and of an unsustainable consumer economy dry up existing natural resources and destroy vital ecosystems that we need to survive the corporate controlled media saturate worldwide audiences with a barrage of hypnotic images and narratives to stimulate over consumption and to distract us from the consequences of rampant consumerism while remaining silent about the systematic destruction of the environment and our future Academicians from the across the sciences the social sciences the arts and the humanities engage in an interdisciplinary discussion informed by a vision of an interconnected humanity and focused on the role of the media in forging public discourse Contributors to the collection argue that today's media are failing humanity Rather than providing pictures of reality on which the world's citizens can act the corporate controlled media are widely used as instruments of commercial and political propaganda creating an immense web of images and narratives that their creators know to be not true fabrications designed to sell to manipulate in a sense to enslave worldwide audiences At the core of the discussion in this book is a utopian vision of one unified humanity billions of people whose destinies and dreams are imbricated and interdependent and who share the same world the same habitats It is a vision of a world that cherishes diversity but is also united a world where our differences are no longer a cause for conflict and where separate countries or separate ethnic or religious communities no longer have to compete or wage war to exploit available resources As extensions of humans the media can be instruments of salvation instead of destruction liberation instead of oppression But first we must recognize the challenges we face      **Heritage Music and Entertainment Dallas Signature Auction Catalog #634** Ivy
