**Remembering the First World War** Bart Ziino,2014-12-05 Remembering the First World War brings together a group of international scholars to understand how and why the past quarter of a century has witnessed such an extraordinary

increase in global popular and academic interest in the First World War both as an event and in the ways it is remembered. The book discusses this phenomenon across three key areas. The first section looks at family history, genealogy and the First World War, seeking to understand the power of family history in shaping and reshaping remembrance of the War at the smallest levels as well as popular media and the continuing role of the state and its agencies. The second part discusses practices of remembering and the more public forms of representation and negotiation through film, literature, museums, monuments and heritage sites, focusing on agency in representing and remembering war. The third section covers the return of the War and the increasing determination among individuals to acknowledge and participate in public rituals of remembrance with their own contemporary politics. What, for instance, does it mean to wear a poppy on armistice remembrance day? How do symbols like this operate today? These chapters will investigate these aspects through a series of case studies. Placing remembrance of the First World War in its longer historical and broader transnational context and including illustrations and an afterword by Professor David Reynolds, this is the ideal book for all those interested in the history of the Great War and its aftermath.

**Songs in the Night-watches**, 1888 *Songs of remembrance* Norman Dello Joio, John H. Wheelock, 1979 **Catalogue of Music** British Museum, 1891 **Sources and Style in Moore's Irish Melodies** Una Hunt, 2017-03-16 Once regarded as Ireland's national bard, Thomas Moore's reputation rests on the ten immensely popular collections of drawing room songs known as the Irish Melodies. At home and abroad, these 124 songs created a realm of influence that continued to define Irish culture throughout the nineteenth century and into the twentieth. In this book, Una Hunt provides the first detailed assessment from a combined musical and literary standpoint, contextualizing the songs through an examination of their sources and style. Further attention is given to the collaborative work of composers Sir John Stevenson and Henry Rowley Bishop, and the study is completed by a reappraisal of the musical sources.

*Popular Music and the Poetics of Self in Fiction*, 2021-11-29 *Popular Music and the Poetics of Self in Fiction* explores the various links between the self and popular music in contemporary fiction. In the novels discussed in this volume, musical references go far beyond creating a tapestry of sound; they make literary characters come alive by giving an account of the physiological and psychological effects of their musical experiences and of their ways of life in different sub-cultural and social groups. With plots revolving around songs and albums, musicians and bands, and fans and scenes, the thematic focus on the self encompasses the relation of musical taste and identity construction, popular music's function as a medium of individual and collective memory, and its uses in everyday life across decades, spaces, and genres.

**Creating Memorials, Building Identities** Alan

Rice,2011-11-01 This incisive book investigates memorials to slavery throughout the African diaspora with an emphasis on Europe It analyzes not only the increasing number of physical monuments but also the practice of remembering and forgetting in museums and plantation houses as well as in contemporary cultural forms like the visual arts literature music and film A series of case studies ranging from the eighteenth to the twenty first centuries from Senegal and Montserrat to Manchester and Paris explores issues such as the Lancashire cotton famine black soldiers in World War II and the 2007 commemoration of abolition in regional museums **Complete Catalogue of Sheet Music and Musical Works**

**published by the Board of Music Trade, etc** Board of Music Trade (UNITED STATES OF AMERICA),1870 *Making Music* William C. Allsbrook Jr.,2023-06-23 The banjo has been emblematic of the Southern Appalachian Mountains since the late twentieth century *Making Music The Banjo in a Southern Appalachian County* takes a close look at the instrument and banjo players in Haywood County North Carolina Author William C Allsbrook Jr MD presents the oral histories of thirty two banjo players all but two of whom were born in Haywood County These talented musicians recount in their own words their earliest memories of music and of the banjo as well as the appeal of the banjo They also discuss learning to play the instrument including what it feels like playing the banjo many describing occasional flow states In the book Allsbrook explores an in home musical folkway that developed along the colonial frontier By the mid 1800s frontier expansion had ceased in Haywood County due to geographic barriers but the in home musical tradition including the banjo survived in largely isolated areas Vestiges of that tradition remain to this day although the region has undergone significant changes over the lifetimes of the musicians interviewed As a result the survival of the in home tradition is not guaranteed Readers are invited into the private lives of the banjo players and asked to consider the future of the banjo in the face of contemporary trends The future will be shaped by how this remarkable mountain culture continues to adapt to these challenges Still this thriving community of banjo players represents the vibrant legacy of the banjo in Haywood County and the persistence of tradition in the twenty first century Reverberating Song in Shakespeare and Milton Asst Prof Erin Minear,2013-05-28 In this study Erin Minear explores the fascination of Shakespeare and Milton with the ability of music heard imagined or remembered to infiltrate language Such infected language reproduces not so much the formal or sonic properties of music as its effects Shakespeare s and Milton s understanding of these effects was determined she argues by history and culture as well as individual sensibility They portray music as uncanny and divine expressive and opaque promoting associative rather than logical thought processes and unearthing unexpected memories The title reflects the multiple and overlapping meanings of reverberation in the study the lingering and infectious nature of musical sound the questionable status of audible earthly music as an echo of celestial harmonies and one writer s allusions to another Minear argues that many of the qualities that seem to us characteristically Shakespearean stem from Shakespeare s engagement with how music works and that Milton was deeply influenced by this aspect of Shakespearean poetics Analyzing Milton s account of Shakespeare s warbled notes

she demonstrates that he saw Shakespeare as a peculiarly musical poet deeply and obscurely moving his audience with language that has ceased to mean but nonetheless lingers hauntingly in the mind Obsessed with the relationship between words and music for reasons of his own including his father s profession as a composer Milton would adopt adapt and finally reject Shakespeare s form of musical poetics in his own quest to join the angel choir Offering a new way of looking at the work of two major authors this study engages and challenges scholars of Shakespeare Milton and early modern culture
