**Studies on the Cult of Relics in Byzantium up to 1204** John Wortley, 2024-12-11 Constantinople was well known in its heyday for the enormous collection of relics housed in its churches bones even whole bodies and intimate possessions of holy men and women Almost all these objects had been imported from various parts of the Roman Empire between the late 4th to the 10th centuries They had been acquired because they were believed to have miraculous powers to ward off enemies to heal sicknesses and to ensure that the capital was indeed the God-guarded Theophylaktos city it believed itself to be These studies examine the means by which relics were acquired the ways in which they were used and some of the reasons why for so long they were believed to be effective The role of relics in the development of the cult of the Mother of God Theotokos is discussed as well as the curious relationship between relics and icons The so called deviation of the Fourth Crusade and the

subsequent sacking of Constantinople in 1204 may also in part be explained by an unbridled yearning to possess her relics they were certainly pillaged and disseminated to the west thus concluding an era of relic history at Byzantium and initiating a different one in the west

**Wanting** Luke Burgis,2021-06-01 Financial Times Business Book of the Month Next Big Idea Club Nominee One of Bloomberg s 52 New Books That Top Business Leaders Are Recommending Aleo Review of Books 2022 Book of the Year A groundbreaking exploration of why we want what we want and a toolkit for freeing ourselves from chasing unfulfilling desires Gravity affects every aspect of our physical being but there s a psychological force just as powerful yet almost nobody has heard of it It s responsible for bringing groups of people together and pulling them apart making certain goals attractive to some and not to others and fueling cycles of anxiety and conflict In Wanting Luke Burgis draws on the work of French polymath Ren Girard to bring this hidden force to light and reveals how it shapes our lives and societies According to Girard humans don t desire anything independently Human desire is mimetic we imitate what other people want This affects the way we choose partners

friends careers clothes and vacation destinations Mimetic desire is responsible for the formation of our very identities It explains the enduring relevancy of Shakespeare s plays why Peter Thiel decided to be the first investor in Facebook and why our world is growing more divided as it becomes more connected Wanting also shows that conflict does not arise because of our differences it comes from our sameness Because we learn to want what other people want we often end up competing for the same things Ignoring our large similarities we cling to our perceived differences Drawing on his experience as an entrepreneur teacher and student of classical philosophy and theology Burgis shares tactics that help turn blind wanting into intentional wanting not by trying to rid ourselves of desire but by desiring differently It s possible to be more in control of the things we want to achieve more independence from trends and bubbles and to find more meaning in our work and lives The future will be shaped by our desires Wanting shows us how to desire a better one
