Sound Streams Andrew J. Bottomley, 2020-06-01 In talking about contemporary media, we often use a language of newness, applying words like revolution and disruption. Yet the emergence of new sound media technologies and content from the earliest internet radio broadcasts to the development of algorithmic music services and the origins of podcasting are not a disruption but a continuation of the century-long history of radio. Today's most innovative media makers are reintroducing forms of audio storytelling from radio's past. *Sound Streams* is the first book to historicize radio internet convergence from the early 90s through the present, demonstrating how so-called new media represent an evolutionary shift that is nevertheless historically consistent with earlier modes of broadcasting. Various iterations of internet radio from streaming audio to podcasting are all new radio practices rather than each being a separate new medium. Radio is any sound media that is purposefully crafted to be heard by an audience. Rather than a particular set of technologies or textual conventions, web-based broadcasting combines unique practices and features and ideas from radio history. In addition, there exists a distinctive conversationality and reflexivity to radio talk, including a propensity for personal stories and emotional disclosure that suits networked digital media culture. What media convergence has done is extend and intensify radio's logics of connectivity and sharing. Sonically mediated personal expression intended for public consideration abounds in online media networks. *Sound Streams* marks a significant contribution to digital media and internet studies. Its mix of cultural history, industry research, and genre and formal analysis, especially of contemporary audio storytelling, will appeal to media scholars, radio and podcast practitioners, audio journalism students, and dedicated podcast fans

Horror on the Stage Amnon Kabatchnik, 2023-06-28 There are numerous publications about the horror genre in film and television, but none that provide information about horror on a legitimate stage until now. This book highlights the most terrifying moments in theater history from classical plays like Aeschylus' *Prometheus Bound* and Euripides' *Medea* to the violence of the Grand Guignol company productions in 18th-century France and present-day productions like Stephen Sondheim's musical *Sweeney Todd*. Stephen King's *Carrie* and dark 21st-century plays by Clive Barker and Conor McPherson. The book compiles the history and behind-the-scenes tales surrounding stage productions about monsters, hauntings, and horrors, both historical and imagined. Included are the nightmarish adaptations of popular writings from Edgar Allan Poe, Oscar Wilde, H.G. Wells, Henry James, Arthur Conan Doyle, and others, as well as plays starring popular characters like Frankenstein, Dr. Jekyll, and Mr. Hyde, the Invisible Man, the

Phantom of the Opera and the Woman in Black More than 500 plays are documented accompanied by dozens of photographs Entries include plot synopses existing production data and evaluations by critics and scholars **Night Watch** Lucille Fletcher,1972 THE STORY Unable to sleep Elaine Wheeler paces the living room of her Manhattan townhouse troubled by unsettling memories and vague fears Her husband tries to comfort her but when he steps away for a moment Elaine screams as she sees or belie **Listen in terror** Richard Hand,2015-11-01 This groundbreaking book is the first full length study of British horror radio from the pioneering days of recording and broadcasting right through to the digital audio cultures of our own time The book offers an historical critical and theoretical exploration of horror radio and audio performance examining key areas such as writing narrative performance practice and reception throughout the history of that most unjustly neglected of popular art forms radio drama and spoken word auditory cultures The volume draws on extensive archival research as well as insightful interviews with significant writers producers and actors The book offers detailed analysis of major radio series such as Appointment with Fear The Man in Black The Price of Fear and Fear on Four as well as one off horror plays comedy horror and experimental uses of binaural and digital technology in producing uncanny audio
