**Soul Talk** Robert E. A. Daley, 2001-07-05 In 1976 the US Bi Centennial year when I first began seriously looking at Americas collection of state and national symbols it felt like I was peeking into the nations dream journal because symbols are the language of the soul and talk to us on that level Symbols are the language that the soul uses to communicate with our consciousness It happens every night in our dream time Politically we use symbols to memorialize ideals and events for posterity and in elementary school we were taught what our political symbols mean on the superficial level But what do these symbols say to us on the deeper metaphysical level Our Federal State symbols were established through deep soul searching by our elected legislators so they have the quality of dream symbols Collectively they are the Nations dream journal Is there a cohesive message within them If so it was fostered over a span of many centuries from a level of reality beyond our own by the powers that inspired everyone from Columbus to the current voting block of American citizens This book is a reading of their collective conversation
