Martin,2020 Why are we practicing counselors and psychotherapists committed to failure This is the question that has haunted Dr Francis Martin as he has cataloged well over 20 000 distinct psychotherapy approaches advertised on the websites of licensed mental health professionals No doubt some of these are harmful most of them ineffective and many simply made up but the sheer volume of such techniques and practices advertised by licensed professionals holding advanced degrees whose services are billed to clients and insurance companies calls the credibility of the entire mental health profession into question Based on significant original research that joins research from others this book describes a near universal crisis in mental health care and recommends ways to rescue the field from itself The crisis is caused by declining competence among counselors and psychotherapists who have failed to regulate themselves and who therefore deliver inadequate if not harmful services The book calls for major specific and urgently needed reforms Reiki: Universal Gift of God's Healing Love Level I and II Training Manual Eileen Curteis,2011 After seventeen years as a practitioner and teacher of Reiki Sister Eileen has been astonished by the sheer number of people who have continued to stream through the door People of all ages and traditions have come seeking their healing and finding it as Eileen did when she first embarked on this foreign road that soon became home to her Eileen has come to recognize through her many years of practice that there is an inherent healing power within each of us and that the gift of Reiki is able to activate it In her training manual Eileen brings with her a core community of Reiki practitioners from different traditions and backgrounds that journey alongside her and recognize as she does the simplicity wonder and beauty of God s universal gift for our time The healing stories are too numerous to count but she does include specific testimonials within her training manual that speak for the thousands of others who have been healed through the doorway of Reiki In this way Eileen s Level I and II training manual becomes a

living testimony as she thoroughly covers all the information required to be a successful and competent Reiki practitioner Written with inspiration and clarity Eileen takes the reader on an amazing journey into the dynamic world of the inner self Like a fresh current of air she presents her material in an appealing and easily digestible manner The uniqueness of Eileen's Reiki training manual lies in her ability to weave the Christ conscious healing dimension into it just as an alchemist would when producing gold In this way Eileen shows how the revered eastern practice of Reiki discovered by Dr Mikao Usui a Japanese Buddhist in the early 20th century can blend perfectly with a Christian heritage of healing where the one enhances the other At the same time she shows how this simple profound method of healing transcends cultural and religious boundaries in a way that makes this universal gift of Life Force Energy accessible to anyone Often people who encounter Reiki for the first time experience an inner bliss and harmony which leads them to explore the gift more fully Others go away from the treatment or training feeling restored refreshed and renewed Reiki the universal Life Force Energy of God is not a new invention or modern day fad Its roots are planted deep in ancient history In the Old Testament Life Force Energy was spoken about eloquently and has been pulsating through the whole of creation from the beginning of time Even science and the world of medicine are looking at this complementary form of healing called Reiki with fresh new eyes Its worldwide impact can no longer go unnoticed

Book of the Beloved Mairi Colme, 2008-03-27 A Christian mystical text containing the revelation made to a young girl in a Benedictine monastery in the mountains of Austria

in 1974 It is a revelation of the extraordinary quality of the love of God communicated not through light and joy but through a dark and powerful suffering which she identified as the mystery of Christs cross The original manuscript was faithfully written down as a direct record of this experience It takes the form of a dialogue or interaction between God as the Lover of the soul and Maria as His Beloved A major theme is the struggle of the Beloved to overcome the Yes buts of human nature in order to be able to say a perfect Yes to her Maker Each dialogue moves through suffering and miscomprehension towards final happiness and liberation prefiguring the change from death to resurrection The manuscript remained a puzzle to its writer for eighteen years at which point she gained an insight into the moment of self yielding which transforms the suffering into bliss It was then whilst staying in an Austrian farmhouse on a mountain side that she wrote the poetry which re interprets the text as a hymn to the Star Love of ecstatic intensity Over thirty years after the original event realising the experience may also have meaning for others the writer worked on the manuscripts During a period of deep reflection at her home in Scotland she then wrote the commentaries She hopes that this book a lifetimes endeavour may prove enlightening to others as to the nature of Gods love The Power of Soul Zhi Gang Sha,2009-01-06 Outlines a program that fuses Eastern and Western medicine and philosophies to discuss how to bolster health and longevity while promoting personal success and explains the importance of having a healthy soul in order to enable physical well being Soul Healing M Karen Benwell,2020-12-22 Wouldn t you like to know what a nurse thinks about death grief and loss Wouldn t you like to know how a nurse finds inspiration while dealing with for instance the death of a loved one by suicide Poetry and nursing are not two words that one usually thinks of together But that s exactly what makes this collection of poems as unique as it is strong Born of her experiences living and working in Canada s remote northern communities these nineteen poignant and beautiful poems evoke hope while dealing with grief This book will be of interest to all readers of poetry particularly those who are dealing with any kind of soul pain It will also be a great book for nurses other health care providers and anyone dealing with people on a daily basis wanting to process their own life issues Settle in overcome tragedy and experience your own soul healing **Dr. and Master Sha: Miracle Soul Healer** William Gladstone,2014-09-02 What accounts for miraculous healings unexplainable by doctors Is there a reality to spiritual healings William Gladstone initially approached Dr Zhi Gang Sha with some skepticism and disbelief William believed that there was more to life than the material world but he knew that the world has many dishonest and self deceiving mystics So he decided to explore William having studied medical anthropology at Harvard University had met and worked with some of the greatest spiritual leaders on the planet He was excited to explore Dr Sha and his healing practices William spent weeks with Dr Sha watching him at work talking to his students and observing his healings He interviewed him at length asking for specifics and addressing difficult questions He delved into the science behind Dr Sha s work and explored the underlying concepts beneath these miracle healings What William learned amazed him and opened his mind to possibilities he never expected Dr Zhi Gang Sha is a medical doctor

The Challenges of Integrating Religion and Spirituality into Psychotherapy Francis A. Martin,2024-04-23 This book examines personal and professional understandings of religion in psychotherapy and advocates for integrity competency and cultural pluralism in clinical practice A major feature of this book is that it confirms the massive proliferation of religion oriented approaches to counseling and therapy in recent years It attributes this rise to opportunism and exaggerated individualism among therapists and to the frequent failures of professional associations clinical preparation programs and other influences In response to these influences it identifies the need for guiding principles for integrating religion into therapy discusses the religious issues that clients bring to therapy and advocates for major changes in clinical practice with emphasis on integrity and competence Building on a large volume of research and using evidence based conclusions it clarifies how these two major features of contemporary life can be integrated with integrity and competence The author maintains that religion should be a feature of the practice of counseling and therapy so long as it addresses the clinically relevant needs of clients However it also explores how the religion of counselors and therapists often expresses the needs of counselors and therapists instead of addressing the needs of their clients In the context of these questions and discussion of contentious challenges this book provides guidelines for relating religion with clinical practice and recommends needed actions by clinical preparation programs professional associations individual therapists state legislatures licensing boards

social service agencies and corporations All of this stands on the conspicuous need for professional accountability in the delivery of mental health care
