Telling Tales Of The Unexpected The Organization Of Factual Discourse:

Telling Tales of the Unexpected Robin Wooffitt, 1992-04-08 Conversation analysis discourse analysis and the study of rhetoric are combining to form a powerful interdisciplinary field of social scientific inquiry Robin Wooffitt in a systematic analysis of how people describe their paranormal encounters as factual experiences introduces this field to the student and reader unfamiliar with its methods and theoretical constructs Powerful cultural scepticism about the paranormal ensures that such experiences not only provide an implicit challenge to common sense understanding of the world but also undermine the pronouncements of the scientific orthodoxy Wooffitt focuses on the ways in which accounts are organized in order to warrant the speaker's claim that the experiences actually happened and were not say the product of misperception wish fulfillment or psychological aberration He also examines the design of descriptive sequences through which speakers portray themselves as normal rational people and contributes to the study of identity construction in discursive practices Wooffitt has illustrated and simplified complex theoretical arguments in conversation and discourse analysis with relevant empirical materials and he usefully clarifies points of convergence and divergence between these analytic traditions Telling Tales of the Unexpected Robin Wooffitt, 1992 Offers a study of how people organize their accounts of paranormal telepathic clairvoyant or precognitive experiences showing there are often recognizable linguistic mechanisms employed by the claimants The book argues that such claims are frequent enough to warrant academic attention **Conversation Analysis and Psychotherapy** Anssi Peräkylä, Charles Antaki, Sanna Vehviläinen, Ivan Leudar, 2008-04-07 Psychotherapy is a talking cure clients voice their troubles to therapists who listen prompt question interpret and generally try to engage in a positive and rehabilitating conversation with their clients Using the sophisticated theoretical and methodological apparatus of Conversation Analysis a radical approach to how language in interaction works this book sheds light on the subtle and minutely organised sequences of speech in psychotherapeutic sessions It examines how therapists deliver questions cope with resistance reinterpret experiences and how they can use conversation to achieve success Conversation is a key component of people's everyday and professional lives and this book provides an unusually detailed insight into the complexity and power of talk in institutional settings Featuring contributions from a collection of internationally renowned authors Conversation Analysis and Psychotherapy will appeal to researchers and graduate students studying conversation analysis across the disciplines of psychology sociology and linguistics *Discursive Self in Microblogging* Daria Dayter, 2016-03-10 This volume examines the language of microblogs drawing on the example of a group of eleven users who are united by their interest in ballet as a physical activity and an art form The book reports on a three and a half year study which complemented a 20 000 word corpus of tweets with semi structured interviews and participant observation It deals with two main questions how users exploit the linguistic resources at their disposal to build a certain identity and how the community boundaries are performed discursively The focus is on the speech acts of self praise and complaint and on the

storytelling practices of microbloggers The comprehensive treatment of the speech act theory and the social psychological approaches to self disclosure provides a stepping stone to the analysis of identity work for which the users draw on two distinctive interpretive repertoires affiliative and self promoting Strategies of Qualitative Inquiry Norman K. Denzin, Yvonna S. Lincoln, 2012-10-24 This book is the second of three paperback volumes taken from The SAGE Handbook of Qualitative Research Fourth Edition This volume isolates the major strategies historically the research methods that researchers can use in conducting concrete qualitative studies The question of methods begins with questions of design and the matters of money and funding These questions always begin with the researcher who moves from a research question to a paradigm or perspective and then to the empirical world The history and uses of these strategies are explored extensively in this volume The chapters move from forms and problems with mixed methods inquiry to case study performance and narrative ethnography to constructionist analytics to grounded theory strategies testimonies participatory action research and clinical research *The Handbook of Conversation Analysis* Jack Sidnell, Tanya Stivers, 2012-08-10 Presenting a comprehensive state of the art overview of theoretical and descriptive research in the field The Handbook of Conversation Analysis brings together contributions by leading international experts to provide an invaluable information resource and reference for scholars of social interaction across the areas of conversation analysis discourse analysis linguistic anthropology interpersonal communication discursive psychology and sociolinguistics Ideal as an introduction to the field for upper level undergraduates and as an in depth review of the latest developments for graduate level students and established scholars Five sections outline the history and theory methods fundamental concepts and core contexts in the study of conversation as well as topics central to conversation analysis Written by international conversation analysis experts the book covers a wide range of topics and disciplines from reviewing underlying structures of conversation to describing conversation analysis relationship to anthropology communication linguistics psychology and sociology *Journalism and the Political* Felicitas Macgilchrist, 2011-02-16 Journalism is often thought of as the fourth estate of democracy This book suggests that journalism plays a more radical role in politics and explores new ways of thinking about news media discourse It develops an approach to investigating both hegemonic discourse and discursive fissures inconsistencies and tensions By analysing international news coverage of post Soviet Russia including the Beslan hostage taking Gazprom Litvinenko and human rights issues it demonstrates the re production of the common sense social order in which one particular area of the world is more developed civilized and democratic than other areas However drawing on Laclau Mouffe and other post foundational thinkers it also suggests that journalism is precisely the site where the instability of this global social order becomes visible The book should be of interest to scholars of discourse analysis journalism and communication studies cultural studies and political science and to anyone interested in positive discourse analysis and practical counter discursive strategies *Men, Caregiving and the Media* Sarah C. Hunter, Damien W. Riggs, 2019-11-27 Analysing diverse media

representations of men who provide primary care to their children this book demonstrates how the practice of fatherhood and of masculinity is changing and the ways media representations sensationalise and reinforce gender inequities in regards to carework This book examines disparities between practices of carework amongst heterosexual couples and media representations of men who provide primary care whilst also including a discussion of media accounts of primary caregiving amongst gay couples The book also provides a detailed analysis of the relationship between care labor and public understandings of masculinity Assessing whether media accounts of fathers who provide primary care undermine egalitarian approaches to the division of labor amongst heterosexual couples this book is a vital intervention into public discourse about masculinity fathering and caregiving This book will be an important resource for students researchers educators and practitioners as it brings together a range of in depth literatures and empirical analyses to provide a clear overview of contemporary fathering It will be essential reading in the fields of gender studies and masculinity studies together with sociology of families cultural studies social psychology and social policy
