Tempests after Shakespeare C. Zabus, 2002-09-03 *Tempests After Shakespeare* shows how the rewriting of Shakespeare's play serves as an interpretative grid through which to read three movements postcoloniality postpatriarchy and postmodernism via the Tempest characters of Caliban Miranda Sycorax and Prospero as they vie for the ownership of meaning at the end of the twentieth century Covering texts in three languages from four continents and in the last four decades this study imaginatively explores the collapse of empire and the emergence of independent nation states the advent of feminism and other sexual liberation movements that challenged patriarchy and the varied critiques of representation that make up the postmodern condition

Shakespeare's Tempest and Capitalism Helen Scott, 2019-09-12 In this forceful study Helen C Scott situates *The Tempest* within Marxist analyses of the primitive accumulation of capital which she suggests help explain the play's continued and particular resonance The storm of the title refers both to Shakespeare's *Tempest* hurtling through time and to Walter Benjamin's concept of history as a succession of violent catastrophes Scott begins with an account of the global processes of dispossession of the peasantry and indigenous populations accompanying the emergence of capitalism which generated new class relationships new understandings of human subjectivity and new forms of oppression around race gender and disability Developing a detailed reading of the play at its moment of production in the business of theatre in 1611 Scott then moves gracefully through the global reception history showing how its central thematic concerns and figurative patterns bespeak the upheavals and dispossessions of successive stages of capitalist development Paying particular attention to moments of social crisis and unearthing a radical political tradition Scott follows the play from its hostile takeover in the Restoration through its revival by the Romantics and consolidation and contestation in the nineteenth century In the twentieth century transatlantic modernism generated an acutely dystopic *Tempest* then during the global transformations of the 1960s postcolonial writers permanently associated it with decolonization At century's end the play became a vehicle for exploring intersectional oppression and the remarkable Sycorax school featured iconoclastic readings by writers such as Abena Busia May Joseph and Sylvia Wynter Turning to both popular culture and high profile stage productions in the twenty first century Scott explores the ramifications and figurative potential of Shakespeare's *Tempest* for global social and ecological crises today Sensitive to the play's original concerns and

informed by recent scholarship on performance and reception history as well as disability studies Scott's moving analysis impels readers towards a fresh understanding of sea change and metamorphosis as potent symbols for the literal and figurative tempests of capitalism's old age now threatening the great globe itself

Postfeminist Discourse in Shakespeare's The Tempest and Warner's Indigo Natali Boğosyan, 2013-05-24 A scrupulous study of Shakespeare's *The Tempest* and its most comprehensive rewriting *Indigo* or *Mapping the Waters* by Marina Warner Taking as its focus representations of femininity and the other the study scrutinises the various implications of three concepts ambivalence liminality and plurality in terms of their relevance to the conjunctures of postfeminism and post colonialism proposing that postfeminist discourse is in search of a new ethics and perspective that mainly champion these three terms through the employment of intertextuality as a strategy The study is careful to carry out a comparative analysis of the works in terms of both poetics and politics Informed by interdisciplinarity the study explores how *The Tempest* destabilises itself inviting a deconstructionist reading in terms of its relation to patriarchal and colonial dynamics ingrained in the play and how *Indigo* takes its substantial space among other rewritings of *The Tempest* by presenting new and imaginative ways of seeing the female and feminised figures in the play

Literatures and Cultures Michael Meyer, 2009 Verbal imagery and visual images as well as the intricate relationships between verbal and visual representations have long shaped the imagination and the practice of intercultural relationships. The contributions to this volume take a fresh look at the ideology of form especially the gendered and racial implications of the gaze and the voice in various media and intermedial transformations. Analyses of how culturally specific forms of visual and verbal expression are individually understood and manipulated complement reflections on the potential and limitations of representation. The juxtaposition of visual and verbal signifiers explores the gap between them as a space beyond cultural boundaries. Topics treated include Caliban English satirical iconotexts Oriental travel writing and illustration expatriate description and picturesque illustration of Edinburgh ethnographic film African studio photography South African cartoons imagery ekphrasis and race in South African art and fiction face and visuality representation and memory in Asian fiction Bollywood Asian historical film Asian British pop music Australian landscape in painting and fiction indigenous children's fiction from Aotearoa New Zealand Canada and the USA Canadian photography Native Americans in film.
