engineering to obtain many of the present day technologies including electric battery aircraft systems space shuttle submarines helicopters and others are demonstrated The origin of the Igbos of Europe China and the Americas are unveiled The UFOs writings obtained at Roswell in hieroglyphics were explained and the author postulates a fascinating hypothesis that there are Igbos in another nearby galaxy The book illustrates the intensifying struggle from the beginning of time between Gods Culture of Life and the Culture of Death The book traces the prolife struggle against the Culture of Death which though very much apparent in our time has never eclipsed the enlightenment of the civilization of the Culture of Life This book has fundamentally rewritten the World History as we know it The book claims that the Igbos are the Chosen People of God The Igbos civilized the world as Pharaohs of ancient Egypt the Kings of ancient Israel the Greeks the Phoenicians Etruscans Iberians Carthaginians Mayans Olmecs ancient Chinese ancient Russians Babylonians and Jewish authors of the Holy Bible The spread of the Culture of Life provoked persecution and genocide against Igbos to this day This is a Great Book of the Secrets of World Civilization Read it *Mrs. Temple's Telegram* Frank Gunning Wyatt, William Morris, 1908 *Child Life and Religious Growth* Edna Madison Bonser, 1928 God in 3D Colin Green, 2019-12-11 This groundbreaking book sets out fresh arguments that common views on the doctrine of the Trinity are mistaken on three counts One the idea of the Trinity can't be found explicitly in Scripture Two it is a mystery irrational to the human mind Three the classical creeds of the church are the best place to start These old ideas break down in light of recent research in biblical studies Writing in plain English the author sets out where the Trinity can be found in Hebrew and Christian Scripture that it is rational and understandable and that there are biblical ways of understanding it that are easier to get across than the classical creeds This book offers what many interested in teaching or learning about the Trinity have lacked up to now And it will be a great help to those who are unsure how to communicate the idea of the Trinity in ways that the nonspecialist can understand For the scholar interested in biblical and early church studies recent insights from temple theology and name theology produce a fresh perspective that will stimulate further discussion on this important subject In the temple of God we find the triune God
