Temple Maintenance:

The Building of the First Temple Peter Dubovský, 2015-11-26 What can we say about 1 Kings 6-8 that attributes the construction of the temple in its full glory to Solomon? Peter Dubovsky approaches these texts from the diachronic point of view by investigating evidence gathered from the ancient Near East demonstrating that temples were often changed. He analyzes biblical texts indicating that the first temple underwent some important changes. This result leads to the final step of his investigation: he offers a minimalist version of a chronological development of the first temple and ventures to offer a more nuanced model. This conclusion, on the one hand, should be ultimately confronted with the results of archaeological excavation once they become available; on the other hand, this study can point to some nuances that only a text can preserve and no archaeologist can ever unearth.

Building and Negotiating Religious Identities in a Zen Buddhist Temple Fan Zhang, 2019-06-27 This book explores the practices in a Zen Buddhist temple located in Northwest Ohio against the backdrop of globalization. Drawing on the previous studies on Buddhist modernization and westernization, it provides a better understanding of the westernization of Buddhism and its adapted practices and rituals in the host culture. Using rhetorical criticism methodology, the author approaches this temple as an embodiment of Buddhist rhetoric with both discursive and non-discursive expressions within the discourses of modernity. By analyzing the rhetorical practices at the temple through abbots' teaching videos, the temple website, members' dharma names, and the materiality of the temple space and artifacts, the author discovers how Buddhist rhetoric functions to constitute and negotiate the religious identities of the community members through its various rituals and activities. At the same time, the author examines how the temple's space and settings facilitate the collective formation and preservation of the Buddhist identity. Through a nuanced discussion of Buddhist rhetoric, this book illuminates a new rhetorical methodology to understand religious identity construction. Furthermore, it offers deeper insights into the future development of modern Buddhism, which are also applicable to Buddhist practitioners and other major world religions.

Teaching South and Southeast Asian Art Bokyoung Kim, Kyunghye Pyun, 2023-04-10 This volume challenges existing notions of what is Indian, Southeast Asian, and/or South Asian art to help educators present a more contextualized understanding of art in a globalized world. In doing so, it re-examines how South or Southeast Asian art is being made, exhibited, circulated, and experienced in new ways in the United States or in regions under its cultural hegemony. The essays presented in this book examine both historical and contemporary transformations or lived experiences of monuments and regional styles/sites from South or Southeast Asian art in art-making, subsequent usage, and exhibition-making under the rubric of Indian, South Asian, or

Southeast Asian Art **Buddhist Feminisms and Femininities** Karma Lekshe Tsomo, 2019-01-01 Adds new voices to the feminist conversation and brings a rich variety of diverse approaches to Buddhist women's identities the feminine and Buddhist feminism This groundbreaking book explores Buddhist thought and culture from multiple Buddhist perspectives as sources for feminist reflection and social action Too often when writers apply terms such as woman femininity and feminism to Buddhist texts and contexts they begin with models of feminist thinking that foreground questions and concerns arising from Western experience This oversight has led to many facile assumptions denials and oversimplifications that ignore women's diverse social and historical contexts But now with the tools of feminist analysis that have developed in recent decades constructs of the feminine in Buddhist texts imagery and philosophy can be examined with the acknowledgment that there are limitations to applying these theoretical paradigms to other cultures Contributors to this volume offer a feminist analysis which integrates gender theory and Buddhist perspectives to Buddhist texts and women's narratives from Asia How do Buddhist concepts of self and no self intersect with concepts of gender identity especially for women How are the female body sexuality and femininity constructed and contested in diverse Buddhist contexts How might power and gender identity be perceived differently through a Buddhist lens By exploring feminist approaches and representations of the feminine including persistent questions about women's identities as householders and renunciants this book helps us to understand how Buddhist influences on attitudes toward women and how feminist thinking from other parts of the world can inform and enlarge contemporary discussions of feminism **Reflections: January February March 2014** Sasvati Nome, 2014-01-01 REFLECTIONS is the SAT Temple's quarterly journal Reflections contains transcriptions of satsangs at SAT given by Nome the teachings of Sri Ramana Maharshi excerpts from The Ramana Way the RMCL journal excerpts from numerous Advaitic scriptures updates on events occurring at the SAT Temple and much more **The Domain of Constant Excess** Rohan Bastin, 2002-12-01 The Sri Lankan ethnic conflict that has occurred largely between Sinhala Buddhists and Tamil Hindus is marked by a degree of religious tolerance that sees both communities worshiping together This study describes one important site of such worship the ancient Hindu temple complex of Munnesvaram Standing adjacent to one of Sri Lanka's historical western ports the fortunes of the Munnesvaram temples have waxed and waned through the years of turbulence violence and social change that have been the country's lot since the advent of European colonialism in the Indian Ocean Bastin recounts the story of these temples and analyses how the Hindu temple is reproduced as a center of worship amidst conflict and competition Japanese Rinzai Zen Buddhism J2rn Borup, 2008 Japanese Rinzai Zen Buddhism gives a new perspective on contemporary Japanese Zen Buddhism Ideas ritual practices temples and interactions between the clergy the laity and the institution are investigated as living representations of a unique and yet common Japanese religion 1 & 2 *Chronicles* August H. commentary in the Believers Church Bible Commentary series the Chronicler provided a unifying vision of the community's rich traditions in an era of despondency and apathy. Exile had robbed the people of Israel of their wealth and their return to the land of Judah had created resentment with the surrounding peoples. Struggling to maintain their faith amid intense social pressures, the Hebrew people needed to look to their past for lessons for the present. As two of the most overlooked books in the Christian canon, 1 & 2 Chronicles are exemplary resources for those who seek to be the people of God today. 1 & 2 Chronicles is the thirtieth volume in The Believers Church Bible Commentary Series. Accessible to lay readers, useful in preaching and pastoral care, helpful for Bible study groups and Sunday school teachers, and academically sound, the commentary foregrounds an Anabaptist reading of Scripture. Relying on a unique format that includes sections on The Text in Biblical Context and The Text in the Life of the Church, the commentary series is a cooperative project of Brethren in Christ Church, Brethren Church, Church of the Brethren, Mennonite Brethren Church, Mennonite Church Canada, and Mennonite Church USA. Published for all who seek more fully to understand the original message of Scripture and its meaning for today, the series is based on the conviction that God is still speaking to all who will listen and that the Holy Spirit makes the Word a living and authoritative guide for all who want to know and do God's will.

The Politics of Heritage from Madras to Chennai Mary E. Hancock, 2008-10-29. In this anthropological history, Mary E. Hancock examines the politics of public memory in the southern Indian city of Chennai. Once a colonial port, Chennai is now poised to become a center for India's new economy of information technology, export processing, and back office services. State and local governments promote tourism and a heritage-conscious cityscape to make Chennai a recognizable brand among investment and travel destinations. Using a range of textual, visual, architectural, and ethnographic sources, Hancock grapples with the question of how people in Chennai remember and represent their past, considering the political and economic contexts and implications of those memory practices. Working from specific sites, including a historic district created around an ancient Hindu temple, a living history museum, neo-traditional and vernacular architecture, and political memorials, Hancock examines the spatialization of memory under the conditions of neoliberalism.
