The Lions Mouth Concluding Chapters Of Autobiography:

The Lion's Mouth Kathleen Raine, 1978 *The Rediscovered Writings of Veza Canetti* Julian Preece, 2007 A fresh nuanced view of Veza Canetti's literary career and its relationship to that of her famous husband The Viennese playwright novelist and short story writer Veza Canetti was born in 1897 into a mixed Sephardic Ashkenazi Jewish family and died in 1963 in London Part of the avant garde in 1920s Vienna where she met her future husband and Nobel Prize winner Elias Canetti from 1932 she wrote radical short stories drawn from everyday life for the Vienna Arbeiter Zeitung After censorship under the so called Corporate State reduced her opportunities for publication she disguised her critique in irony and humor but from then on published little Until 1990 when her first novel Yellow Street was finally published Veza was known only as her husband's muse and literary assistant As more of her writings appeared critics became convinced that it was he who was responsible for her decline into obscurity notwithstanding his protestations of support and admiration This biography tells a more nuanced story presenting Veza's literary career against the background of her troubled times drawing on Elias's unpublished papers to assess their literary partnership showing how their early writings constituted a private dialogue on topics as diverse as feminism and Jewish identity and how several key themes in his work are anticipated in hers Julian Preece is Professor of German at the University of Wales Swansea *The Collected Letters of C.S. Lewis, Volume 3* C. S. Lewis, 2004 The letters found in Volume II reveal inside accounts of how The Screwtape Letters came to be written the early meetings of the Inklings with J R R Tolkien giving readings about hobbits and Middle Earth how C S Lewis became popular through BBC radio talks but mostly how this quiet professor in England touched the lives of many through an amazing discipline of personal correspondence The Oxford Encyclopedia of British Literature David Scott Kastan, 2006-03-03 From folk ballads to film scripts this new five volume encyclopedia covers the entire history of British literature from the seventh century to the present focusing on the writers and the major texts of what are now the United Kingdom and the Republic of Ireland In five hundred substantial essays written by major scholars the Encyclopedia of British Literature includes biographies of nearly four hundred individual authors and a hundred topical essays with detailed analyses of particular themes movements genres and institutions whose impact upon the writing or the reading of literature was significant An ideal companion to The Oxford Encyclopedia of American Literature this set will prove invaluable for students scholars and general readers For more information including a complete table of contents and list of contributors please visit www.oup.com/us/eb1 Nature Prose Dominic Head, 2022-08-15 Nature Prose seeks to explain the popularity and appeal of contemporary writing about nature This book intervenes in key areas of contemporary debate about literature and the environment and explores the enduring appeal of writing about nature during an ecological crisis Using a range of international examples with a focus on late twentieth and early twenty first century writing from Britain and the US Dominic Head argues that nature writing contains formal effects which encapsulate our current ecological dilemma and offer a fresh

resource for critical thinking The environmental crisis has injected a fresh urgency into nature writing along with a new piquancy for those readers seeking solace in the nonhuman or for those looking to change their habits in the face of ecological catastrophe However behind this apparently strong match between the aims of nature writers and the desires of their readers there is also a shared mood of radical uncertainty and insecurity The treatment and construction of nature in contemporary imaginative prose reveals some significant paradoxes beneath its dominant moods moods which are usually earnest sometimes celebratory sometimes prophetic or cautionary It is in these paradoxical moments that the contemporary ecological crisis is formally encoded in a progressive development of ecological consciousness from the late 1950s onwards Nature prose fiction and nonfiction is now contemporaneous with a defining time of crisis while also being formally fashioned by that context This is a mode of writing that emerges in a world in crisis but which is also in some ways in crisis itself With chapters on remoteness exclusivity abundance and rarity this book marks a turning point in how literary criticism engages with nature writing
