The Literature of Terrorism Edward F. Mickolus, 1980-12-29 Product information not available

Historical Dictionary of Terrorism Sean K. Anderson, Stephen Sloan, 2009-08-03 The United States Department of Defense defines terrorism as the calculated use of unlawful violence or threat of unlawful violence to inculcate fear intended to coerce or to intimidate governments or societies in the pursuit of goals that are generally political religious or ideological While terrorism has been around for centuries it was the al Qaeda attacks of September 11 2001 that brought home to the world and most particularly the United States just how dangerous terrorism can be The third edition of the Historical Dictionary of Terrorism presents the full spectrum of forms of political violence through a chronology an introductory essay a bibliography and hundreds of cross referenced dictionary entries on major terrorist groups and their leaders significant terrorist events cyber terrorism counterterrorism and social science concepts regarding the motivations and group dynamics of terrorist groups Authors Sean K Anderson and Stephen Sloan move beyond the gut reaction we have to this volatile and divisive topic by providing a reliable and objective reference on terrorism

Special Bibliography Series, 1957

Chronology of World Terrorism, 1901-2001 Henry E. Mattox, 2015-06-08 The attacks of September 11 2001 brought unprecedented attention to the problem of terrorism Yet the threat of terrorist acts has long been a specter in the lives of millions and the patterns and occurrences all too regular This chronology begins with President McKinley's assassination in September of 1901 and ends with the 9/11 attacks It details terrorist events both well known and obscure chosen as representative decade by decade of each particular period A concluding chapter examines changing trends in methods of attack and the effectiveness of various movements Appendices include a list of notable terrorist organizations international conventions governing terrorism and the U N Security Council resolution passed after the September 11 attacks

Terrorism Versus Democracy Paul Wilkinson, 2001 Assesses the major trends and developments in terrorism since the Cold War Evaluates the options open to democratic governments in combating terrorism Exposes prevalent myths and half truths surrounding terrorists and freedom fighters Good reviews expected Paul Wilkinson is Britain's leading author on terrorism appearing often on Channel 4 News In this major new book the author examines both the new terrorist networks and those that have been around for decades He also provides US with some much needed criteria for distinguishing between terrorists and freedom fighters and an explanation of the uses of terrorism as a political social criminal and religious weapon Wilkinson also links the use of terrorism to a wider repertoire of struggle as it is often used as an adjunct to guerrilla warfare or even full scale conventional military conflict such as in the Russo Chechen wars We are warned against the complacent view that worldwide terrorism is in decline Over 90% of terrorist attacks are purely

internal thus the annual statistics on international terrorism are dangerously misleading We are not provided with a magic formula for governments to use each conflict call **Terrorism**, 1984 **The 50 Worst Terrorist Attacks** Edward F. Mickolus, Susan L. Simmons, 2014-08-11 In the last 50 years terrorists have committed hundreds of horrific acts of violence to further their causes This accessible single volume text covers the most significant terrorist acts across contemporary history worldwide Since the attacks on September 11 2001 terrorism has remained the chief threat to international stability and security The 50 Worst Terrorist Attacks draws on all forms of terrorism international transnational and domestic anywhere in the world covering all types of acts e g bombings assassinations armed attacks skyjackings by any organization and ideology The work goes beyond documenting the key events that occurred in or involved the United States it also covers important terrorist attacks by left and right wing organizations religiously motivated groups and separatists that are largely unknown among Western audiences Each entry supplies the details of the attack the perpetrators victims and eventual resolution as well as the political social and international contexts in which the event occurred Readers will grasp the evolution of terrorist activities and methodologies in the 20th and 21st centuries understand the importance of each event in the development of the terrorist repertoire and gauge the responses intended to counter these new kinds of attacks **Political Terrorism** A.J. Jongman, 2017-07-28 While there is no easy way to define terrorism it may generally be viewed as a method of violence in which civilians are targeted with the objective of forcing a perceived enemy into submission by creating fear demoralization and political friction in the population under attack At one time a marginal field of study in the social sciences terrorism is now very much in center stage The 1970s terrorist attacks by the PLO the Provisional Irish Republican Army the Popular Front for the Liberation of Palestine the Japanese Red Army the Unabomber Aum Shinrikyo Timothy McVeigh the World Trade Center attacks the assault on a school in Russia and suicide bombers have all made the term terrorism an all too common part of our vocabulary This edition of Political Terrorism was originally published in the 1980s well before some of the horrific events noted above This monumental collection of definitions conceptual frameworks paradigmatic formulations and bibliographic sources is being reissued in paperback now as a resource for the expanding community of researchers on the subject of terrorism This is a carefully constructed guide to one of the most urgent issues of the world today When the first edition was originally published Choice noted This extremely useful reference tool should be part of any serious social science collection Chronicles of Culture called it a tremendously comprehensive book about a subject that any who have anything to lose from property to liberty life to limbs should be forewarned against
