The Publishers Weekly ,2006 **Children's Book Review Index** Dana Ferguson,2004-09-03 The Childrens Book Review Index contains review citations to give your students and researchers access to reviewers comments and opinions on thousands of books periodicals books on tape and electronic media intended and or recommended for children through age 10 The volume makes it easy to find a review by authors name book title or illustrator and fully indexes more than 600 periodicals *Book Review Index* ,2004 Every 3rd issue is a quarterly cumulation **Mysticism in Postmodernist Long Poems** Joe Moffett,2014-10-28 Written from a literary critic s perspective Mysticism in Postmodernist Long Poems borrows insights from Religious Studies and critical theory to examine the role of spirituality in contemporary poetry specifically the genre of the long poem Descending from Whitman s Song of Myself the long poem is often considered the American twentieth century equivalent of the epic poem but unlike the epic it carries few generic expectations aside from the fact that it simply must be long This makes the form particularly pliable as a tool for spiritual inquiry The period following World War II is often described as a secular age but spirituality continued as a concern for poets as evidenced by this study These writers look beyond conventional faith systems and instead seek individual paths of understanding they engage in mysticism in other words With chapters on H D and Brenda Hillman Robert Duncan James Merrill Charles Wright and Galway Kinnell and Gary Snyder this study demonstrates how these poets engage the culture of consumption in the postwar years at the same time they search for opportunities for transcendence Not content to throw over the earthly in favor of the otherworldly these poets reject the familiar binary of the worldly and metaphysical to produce distinctive paths of spiritual understanding that fuel what Wright calls a contemplation of the divine **Dead Cats** Andrew Westerside,2022-10-17 In rooms like this room people lie Not little lies the kinds of lies that kill people or worse In this room or in rooms like this room they use phrases like collateral damage like extraordinary rendition like perception management They cover up their dirty words with clean ones in rooms like this room In rooms like this room they redact the names In rooms like this room language is laundered The name of the game is spin Dead Cats is the third contemporary theatre work in Proto type s critically acclaimed Truth to Power Project following on from A Machine They re Secretly Building and The Audit a socially engaged exploration of power democracy truth telling protest privacy conspiracy and control It blends new writing performance film making and an obvious plant to show not tell the truths behind the fictions **Books Out Loud** ,2004 **Dread and Hope** Joshua Wise,2022-02-03 Christianity was born in the midst of great expectation and fear about the world s future The existing Jewish paradigm of the coming Messiah his antithesis and the initiation of the coming age set the stage for Christian beliefs about the end of the current age However the unexpected death and resurrection of Jesus caused that paradigm to be reformed within the burgeoning Christian faith reshaping hopes and reworking old patterns Dread and Hope explores the ways in which those old paradigms were challenged by Jesus s death and resurrection how the resulting eschatological landscape

was understood within Christianity and how modern popular culture has consumed and modified various components of Christian Hope Joshua Wise examines how the central Christian eschatological themes such as the Antichrist the Great Persecution Heaven and Hell have both been transformed and preserved in novels television films and video games Drawing on works such as 1984 Diablo The Stand What Dreams May Come and the Fallout series Dread and Hope considers how the human fears and desires shaped by Christian beliefs are expressed in popular culture

A History of the Ozarks, Volume 1 Brooks Blevins, 2018-06-28 Winner of the Missouri History Book Award from the State Historical Society of Missouri Winner of the Arkansiana Award from the Arkansas Library Association Geologic forces raised the Ozarks Myth enshrouds these hills Human beings shaped them and were shaped by them The Ozarks reflect the epic tableau of the American people the native Osage and would be colonial conquerors the determined settlers and on the make speculators the endless labors of hardscrabble farmers and capitalism of visionary entrepreneurs The Old Ozarks is the first volume of a monumental three part history of the region and its inhabitants Brooks Blevins begins in deep prehistory charting how these highlands of granite dolomite and limestone came to exist From there he turns to the political and economic motivations behind the eagerness of many peoples to possess the Ozarks Blevins places these early proto Ozarkers within the context of larger American history and the economic social and political forces that drove it forward But he also tells the varied and colorful human stories that fill the region s storied past and contribute to the powerful myths and misunderstandings that even today distort our views of the Ozarks places and people A sweeping history in the grand tradition A History of the Ozarks Volume 1 The Old Ozarks is essential reading for anyone who cares about the highland heart of America

Medieval Crime Fiction Anne McKendry, 2019-05-14 Combining elements of medievalism the historical novel and the detective narrative medieval crime fiction capitalizes upon the appeal of all three the most famous examples being Umberto Eco s The Name of the Rose one of the best selling books ever published and Ellis Peters endearing Brother Cadfael series Hundreds of other novels and series fill out the genre in settings ranging from the so called Celtic Enlightenment in seventh century Ireland to the ruthless Inquisition in fourteenth century France to the mean streets of medieval London The detectives are an eclectic group including weary ex crusaders former Knights Templar enterprising monks and nuns and historical poets such as Geoffrey Chaucer This book investigates the enduring popularity of the largely unexamined genre and explores its social cultural and political contexts
