The Logic Of God Theology And Verification:

The Logic of God Malcolm L. Diamond, Thomas V. jr Litzenburg, 1975 *A John Hick Reader* John Hick, 2011-07-05

Canonical criticism is not a recognized branch of biblical studies granting new focus to questions of the authority and truth of the scriptural writings Developed within a critical sense of the dominant historical critical tone of biblical studies canonical criticism as it has been pursued by the American scholars Brevard S Childs and James A Sanders stands as witness to the theological necessity of a more literary approach to the Bible This book both criticizes the canonical enterprise and takes it much further into readings of the canon from the perspective not only of literature but also art and in particular the biblical art of Rembrandt In addition it remains acutely conscious of the contemporary environment of our reading within the political concerns of feminist criticism popular absorption in film and the narratives of the screen and finally the crisis or crises which characterize the so called postmodern condition What emerges is at once highly critical of traditional strategies of canonization and at the same time constructive and concerned to recover the Bible for our own time in readings which move outside the limited academic concerns of the biblical critic or the institutions of the church and religious community

Models of God and Alternative Ultimate Realities Jeanine Diller, Asa Kasher, 2013-06-13 The envisioned volume is a collection of recent essays about the philosophical exploration critique and comparison of a the major philosophical models of God gods and other ultimate realities implicit in the world s philosophical schools and religions and of b the ideas of such models and doing such modeling per se The aim is to identify exactly what a model of ultimate reality is create a comprehensive and accessible collection of extant models and determine how best philosophically to model ultimate reality if possible and desirable *The Rationality of Theism* Paul Copan, Paul Moser, 2004-07-31 The Rationality of Theism is a

controversial collection of brand new papers by thirteen outstanding philosophers and scholars Its aim is to offer comprehensive theistic replies to the traditional arguments against the existence of God offering a positive case for theism as well as rebuttals of recent influential criticisms of theism **Evidence and Faith** Charles Taliaferro, 2005-02-21 Charles

Taliaferro has written a dynamic narrative history of philosophical reflection on religion from the seventeenth century to the present with an emphasis on shifting views of faith and the nature of evidence The book begins with the movement called Cambridge Platonism which formed a bridge between the ancient and medieval worlds and early modern philosophy While the book provides a general overview of different movements in philosophy it also offers a detailed exposition and reflection on key arguments The scope is broad from Descartes to contemporary feminist philosophy of religion Written with clarity and verve this is a book that will appeal to professionals and students in the philosophy of religion religious studies and the history of ideas as well as informed lay readers *Reason & the Contours of Faith* Richard Rice, 2013-05-17 Can reason and religion get together Should believers think Can thinking people believe Does religion have to make sense Does careful thinking help or hinder religious experience People have wrestled with such questions for hundreds of years and they are just

as perplexing today as ever Reason the Contours of Faith explores the wide ranging issues these questions raise from biblical interpretation and proofs for God s existence to the nature of religious conversion Its central purpose is to find an alternative to both fideism the idea that reason has nothing to do with faith and rationalism the conviction that reason has everything to do with it Part One Reason and the Contents of Faith argues that reason contributes in important but limited ways to our understanding of religion Part Two Reason and the Experience of Faith shows that reason can support religious commitment but never produces it

The Vicarious Humanity of Christ and the Reality of Salvation Christian D. Kettler,2011-03-01 In this book the problem of the reality of salvation is addressed by T F Torrance s doctrine of the vicarious humanity of Christ Through this approach salvation as humanization is affirmed yet without the problems of anthropocentric theologies This book is unique in that it offers both a survey of contemporary Christian thinking on salvation as well as a constructive alternative based on Torrance s doctrine a significant yet neglected contribution to modern theology **Faith in**

The Greater-Good Defence Melville Y. Stewart, 1993-01-15 *Teaching for Commitment* Elmer John Thiessen, 1993
Elmer Thiessen provides a comprehensive critical survey of the debate concerning indoctrination especially in the context of confessional religious education His central aim is to establish that indoctrination as a result of religious instruction is neither inevitable nor as probable as is often assumed by advocates of liberal education Thiessen recognizes that indoctrination can occur in Christian homes and schools He believes however that before the charge of indoctrination can be correctly evaluated we need to develop a more coherent concept of the term He provides a critical examination of the four criteria traditionally associated with indoctrination content method intention and consequences and of the institutional context of indoctrination
