The Lone Rifle:

The Long Rifle Stewart Edward White, 2022-08-16 In *The Long Rifle* Stewart Edward White crafts a compelling narrative set against the backdrop of the American frontier seamlessly intertwining history and fiction. The novel follows the life of a young man destined to master the skill of rifle shooting, shedding light on the rugged landscape and the complexities of early American life. White employs a vivid descriptive prose style that immerses the reader, evoking both the beauty and brutality of the wilderness while exploring themes of survival, mastery, and the intrinsic connection between man and nature. The text is imbued with a rich sense of place and time, reflective of the historical context in which it was written, resonating with the concerns of early 20th-century America about its past and identity. Stewart Edward White, an acclaimed author and outdoorsman, was deeply influenced by his own experiences in the wilderness and his fascination with the spirit of adventure. Born in 1872, his life encompassed a variety of pursuits, from writing about the outdoors to delving into spiritualism, which undoubtedly infused his narrative style with a sense of authenticity. White's ability to convey the intricacies of human endeavor in challenging environments stems from his firsthand knowledge and love of the great American outdoors.
